The Committee on Girard Estate reported that a proposition had been received from Needles & Co., to lease for a term of years the premises N. W. corner of Eleventh and Chestnut streets, at \$6,000 per annum, the lessees agreeing to make extensive alterations to change it into a first-class dry goods store, by extending the building two stories high to the depth of the lot, 140 feet, the cost of the improvement, provided the same shall of the improvement, provided the same shall not exceed the sum of \$15,000, with interest, to be reimbursed to the tenant in equal to be reimbursed to the tenant in equal allowances from each payment of rent, so that the property will yield the net revenue of almost \$2,500 per annum in addition to the improvement. The Committee report that the lease has been made with the parties. The Committee also report an ordinance authorizing changes in the buildings Nos. 1113 and 1123 Chestnut street, to let them for stores, and appropriating \$15,000 for the purpose. Agreed to.

Mr. King submitted the following:

Whereas, The Philadelphia City Gas Trust is a public institution, by which a large amount of money is controlled and expended; and whereas, the tax-payers and gas consumers are those upon whom the burden of the expenses of said institution necessarily devolves, and therefore those who should have full knowledge of the transactions, business and management of

A communication was received from the

Mayor enclosing the proposition of the Phi-ladelphia Chamber of Commerce to present to the city the Penn Mansion, Second and Gothic streets, provided the building be removed to Fairmount Park and preserved. The Mayor states that he has had the property examined, and it is ascertained that the building cannot be removed, as sug-gested by the donors, but that sufficient of the materials might be preserved to rebuild it upon another site, and upon a similar scale. Referred to the Committee on City

Property.
Mr. King introduced a resolution directing the City Controller and City Commissioner to countersign a warrant in favor of Major Weaver for the amount of his salary (\$1,265 08) as City Commissioner. Bills from Common Council were concurred in. Adjourned.

of 23 yeas to 7 nays.

Mr. Evans submitted a resolution inan act to be sent to the Legislature, providing for the levying of a tax on fire insurance companies and the agents for foreign com-panies, to be applied to the support of the

Fire Department.

Also, a resolution requesting the same committee to report a list of the Property now exempt and that it should be taxed. and also to prepare a bill which shall pro-

Mr. Hetzell opposed the ordinance, and said it was all well enough to let those already erected remain, but no more streets should be encumbered with these sheds.

Mr. Fox wanted to go back to the old sys tem and erect open market houses. He did not approve of the location named in the

present ordinance, but thought it would be better to have a section at, Seventh and Girard avenue, where the people needed it. He contended that Girard avenue was a business street, and market sheds would add to its business. He hoped it would be recommitted to the committee for amend-

the resolution. Mr. Harper stated that he had offered the Mr. Harper stated that he had offered the resolutions because his attention had been called to the fact that the property had been leased for \$4,000, when \$6,000 had been offered; also, because the Mayor had refused to sign the lease. The only question to decide was, whether \$4,000 would be of as much benefit to the orphans at Girard College as \$6,000. He had no doubt the gentlemen of the committee had formed their opinion conthe committee had formed their opinion conthe committee had formed their opinion conscientiously that it was the interest of the estate to take \$4,000, but he did not think so. The persons who now rent the building at

\$4,000 offered to pay \$6,000, and also furnish power to other tenants. He then referred to the claim that improvements had been made by the present tenant. He considered that the building had been injured as much, by digging away to accommodate machinery, as it had been benefited by putting in a new front. The party who, it is said, is endeavoring to get the lease, cannot be animated by white, because he is about to leave the heighborhood.

Mr. Creswell said the improvements made by the tenants had enhanced the velue of the property, and they should have it for some time to come.

Mr. Fox said he had called up the resolutions to have it definitely settled. The Com-

A communication was read from the tenants of the Girard Estate on Third street, stating that they obtained steam-power power from the tenant on Chestnut street, and if they could not get said power, they would have to remove from the premises. They believed it to be the interest of the Estate to let the present tenant remain.

Mr. Bardsley said it was considerations like those stated above which had influenced the Committee in their action. He did not think it right to place a tenant who had improved a property at the mercy of any one who offers a higher rent.

Mr. Simpson said that the committee had acted in good faith, and always endeavored to get the highest rent from the best tenants. He said that they raised the rent on the property one hundred per cent. The rent on the Daily News had not been raised from seventy to one hundred per cent.

Mr. Krupp said he was fatisfied that all men were liable to error. He was also satisfied that any member who attempts to fight a committee has a hard road to travel, but he wanted to see the city protected. He had nothing to do with disputes between pri-

If the property is worth only \$4,000, then the committee have acted rightly; but if it will bring \$6,000, why take \$4,000? He knew there must be something wrong, and if he could have his way, he would have it referred to a special committee for the purpose of investigating the whole subject.

Mr. Evans was opposed to special committees. He said that if he had been on the Committee on Girard Estate, he would have acted in the same way with the Committee.

Dedication of the Peabody Institute in Baltimore.

Baltimore, Oct. 25.—The dedication of

BALTIMORE, Oct. 25.—The dedication of the Peabody Institute to-day was a grand affair. An immense audience of ladies and gentlemen were present. The music, &c., was superb. The prayer was offered by the Rev. Dr. Backus; then an eloquent address of welcome was delivered by Governor Swann, to which Mr. Peabody replied, in an address of a half hour, in which he gave briefly his history and early business career in Baltimore. He expreased his love for Baltimore and Maryland, and said he would use all his efforts in behalf of American securities, when endangered by repudiation. He spoke feelingly and patriotically of the Union, and emphatically contradicted the rumors of his having sympathized with the Southern rebellion. He had hoped the war might be averted, but when it commenced there was a strain. when it commenced there was no alterna-tive but to fight it out. He never doubted

the final result.

He believed it would terminate as it did. He was always a Usion man. He reveredthe country for which his father had fought in the revolution, believing it the greatest country on earth. He knew no South, no country on earm. He knew no south, no North, no East, no West, but only knew the Union and the United States of America as one nation, one people. To show his faith in the Union he had during the war, and has now, two-thirds of all his fortune in American countries. He always helipred American securities. He always believed the Union safe. He now looked upon the United States as more powerful, more to be dreaded and respected by the civilized nations of the world than ever before. He hoped, as the was is over, all animosities would be forgotten; that the people would learn to cultivate friendship and live henceforward in peace and prosperity—giving strength to the nation by unity of sentiment rather than to weaken themselves by foster-taring foolish and harmful entired.

tering foolish and harmful animosities.

He hoped that good, intellectually, morally and scientifically, would flow from the Institute, and that liberality, kindness and harmony would govern all who united in the enjoyment of its privileges. He had now passed three score and ten, and sup-posed this would be his last visit to Balti-more, but his heart would be with the citizens, and his warmest wishes would be for their good and the prosperity of the whole country.

It is understood that the counsel for the Commissioners, whilst de-nying the jurisdiction of the Governor to

try the charges, have determined to be present, to watch the progress of the case.

Whether they will take part in the examination of witnesses, as they have been notified to do, is not determined. There is much speculation as to the course the affair will take. Many think the case will be abandoned for want of sufficient evidence. On the other hand, it is claimed that new evidence has been procured, and that it is designed to vigorously push the affair to a speedy conclusion.

TORONTO, Oct. 25.—The Court opened at ten o'clock, this morning. The room was densely crowded. The trial of Colonel Lynch was continued.

The evidence for the defense commenced by bringing up several Fenian prisoners to prove that Lynch was at Fort Erie in the

capacity of a reporter for a Louisville paper, and that, as far as they knew he had no military connection with the Fenians. They stated that they saw him at Fort Erie with paper and pencil, taking notes and having arms. The defence also endeavored to prove a

WHEELS.

These wheels are designed for Planes, Bedsteads, &c.
We claim that they give to Planes a greatly increased
force of sound, without detracting from the harmony
and melody of the instrument, rendering every note
more distinct to the ear. This is so apparent that they
are now being applied by many to these valuable musical instruments. Dr. Valentine Mott, previous to his
ceath, pronounced the Glass Casfor Wheels an invaluable invention for bedfast invalids, who are
guarded against the damp floors after undergoing the
process of cleaning, or where dampness is produced
from any other cause. Aside from this, Housekeepers
are relieved from the dread of having their carpets coi
or torn, as frequently happens from those now in use,
often caused by a rust, which adheres with gine-like
tenacity. No such annovance can possibly proceed
from the Glass Castor Wheels, as we all know that
glass is non-corrosive. There are no rough or unfinished edges to the Glass Wheels, such as we often find
in those of iron, and the latter, though smoothly finished edges to the Glass Wheels, such as we often find
in those of iron, and the latter, though smoothly finished, will sook rust, from the dampness of the atmosphere, if nothing else, producing roughness on thesurface, or edge, while the former will always maintain
the smoothness of glass, just as they are finished.

By sleeping upon glass wheels you retain all the electricity you had in your body on retiring, and you get

IMPORTANT SALE OF A VEAY CHOICE AND RECHARCHE COLLECTION OF ENGLISH AND FRENCH OIL AND WATER COLOR PAINT. INGE, to take place on the convenience of the first past 7 of clock at the Art Galery of the Auctioners, No. 110 CHESTNUTS; who are gratified in offering to the Philadelphia public this truly magnificent, catalogue, in which are nearly 116 specimens that were selected in London and Parts by a gentleman of cultivated taste, ably assisted by one of our most gifted artists, none of which works have yet been exhibited in America, Many of the first masters are here represented by guaranteed original specimens, which have unquestionable pretentions to a high cast of artistic character, eminently superior in their peculiar line as works of art to anything offered to the public of this city, reflecting in the most positive manner the powerful and comprehensive grasp of intellect that stamp the Euglish, and French pencils with such lifelike portraiture. Among the most prominent names, whose productions would be an acquisition to the choicest collections of the country are the following—

J. F. Herring, Lebs, Burrell, J. Marris, Kennard, C. Hogguot, G. Schopin, A. Cals me. F. Musin.

Theodore Frese, Z. Notterman, James Webb. Horrore, Cattermole, Gibert, Catternole, Gibert, J. Willsant, J. Willsant,
