From Fortress Monroe. FORTRESS MONROE, Oct. 25.—A small oyster sloop capsized in the harbor to day, during the prevalence of a strong wind, and the occupants would have been drowned had it not been for the assistance rendered them by the men-of-war lying in the har-bor. Scarcely had the white sails reached the water, before three boats, full of sailors, started out from the gunboats Tacony and sloop and extricated the men from their dan-

gerous situation. Important railroad measures have lately been consummated in Norfolk, which will prove of vast advantage to the town and the railroad interests of South Virginia.

Indian Affairs.

The Superintendent of Indian Affairs of Colorado Territory, has forwarded to the Commissioner of Indian Affairs a letter of Gen. Carson, commanding Fort Garland, Colorado Territory, in relation to difficulties

with the Indians in Southern Colorado, General Carson says that a war is impending with the Indians who have recently driven off a lot of stock from the Huerfano, and killing one man and taking prisoners an American woman and four children. Gen. Carson suggests that the settlers take prompt measures for the common defence, and states

measures for the common defence, and states that the war, if initiated, will be one of no trifling character.

He says also, that the Muaches are going west, and will, beyond doubt, involve the Tabanches in the war. It is reported that the Kiowas are committing outrages in Texas, with reference to the difficulty with the whites.

the whites.

The Hon. J. F. Chaves, delegate from New Mexico, writing from Santa Fe, under date of Ootober 9th, states that it has arisen from the mismanagement of a military officer appears that the whites at Maxwell's Ranche, had become incensed on account of the death of one of their number by a Mexican sheep herder. Maxwell becoming alarmed, for the safety of his family, sent word to Fort Union about the state of affairs, and one or two companies were sent to his relief. One of the officers, it appears

to his relief. One of the officers, it appears, becoming intoxicated, drew his pistol on Kahneatche, one of the principal chiefs of the Utah band. Hence the present trouble with these Indians, the original difficulty, owing to the killing of one of their number, having been satisfactorily adjusted.

W. F. M. Arny, Secretary of the Territory of New Mexico, writes, under date of October 9th, that twelve Utahs had been killed, and that the feeling among the Indians was very bitter, but that efforts were being made to avert the war which was impending.

From Alabama. Augusta, Ga., Oct. 26.—Accounts from north and central Alabama report great destitution from the failure of the crops. Many planters have mortgaged their lands for supplies, and the crops failing, the lands

are sold at a ruinous rate. Families and homes are broken up under these forced rales. For Greene county alone there are more suits on the Circuit Court docket than there are voters. Meetings are being held urging the Legislature to pass laws pre-venting the sacrifice of property.

The Baltimore Police Commissioners. The Baltimore Police Commissioners.

Baltimore, Oct. 26.—At the opening of
the investigation to-day, the counsel for the
Commissioners submitted a paper, in which
they explained that while they had and did
still maintain the groundlessness of the
charges against the Commissioners, and also
do not withdraw their plea against the jurisdo not withdraw their plea against the juris-diction of the Executive to try the charges, nevertheless, as that plea had been over-ruled and decided against them, they, the Commissioners, deemed it due to justice and to their fellow citizens, as well as to them-selves, that their counsel should return and render such aid as they might be able in the proposed investigation, to cross-examine the witnesses produced by the memorial-

ists, &c.

The counsel for the memorialists objected to the Commissioners' counsel coming in now unless they withdrew their objection to the jurisdiction of the Executive. After a considerable argument the matter was arranged by the counsel for the Commissioners changing the language of the document submitted by them, so as to read—"For that purpose we are presented, and not abandoning the benefit of the plea to the jurisdiction of which we desire to stand on the record, to avail us, as it may be on behalf of our clients, we plead not guilty to the charges against them."

The Governor then made a statement notifying the counsel that he would require prompt decision of the case; that this examination will be gone through with in the shortest practicable period; that all irrelevant matter shall be, thrown aside, and that the prominent and leading points of the case shall be stated and shall be disposed of at the earliest practicable date. He also informed the counsel that he meant to go through the case by not later than Wederader of part was readered. The counsel for the memorialists objected

to go through the case by net later than Wednesday of next week, and he notified them that if they had any important evidence to submit that they should have it

here promptly. He also announced tast as soon as the Executive was satisfied by the evidence that should be presented, that the Commissioners were innocent, or that they were guilty, he should take action as promptly as he should feel justified in doing, even if that action should be taken in the midst of the proceed-

ings which were going on.
This announcement was regarded by most of those present as an indication that the Governor's decision would be adverse to the Governor's decision would be adverse to the commissioners. The examination of the numerous witnesses present was then commenced; and continued until three P. M., when the examination was adjourned until to-morrow morning. The evidence, thus far, has been mostly against the judges of election, and charging the Commissioners with partisanship in the discharge of their duties.

There seems to be a general impression in the city to-night that Governor Swann will remove the Police Commissioners.
