Diplomatic Correspondence. The third volume of the diplomatic correspondence has at last been printed. The documents form a part of those which were communicated last December to both Houses of Congress. Seme of the most important of their contents have long ago been published. The former volumes relate, for the most part, to affairs with England and France, while the third volume contains correspondence with all other foreign Powers, dating more than two years back and continuing till near the close of the last year. Many of the doorthe close of the last year. Many of the docu-ments are interesting, though not important at this late period, considering the long time of getting through the Government

Hundreds of the pages, as in the case with England and France, are covered with let-ters, correspondence and proceedings of pub-lic meetings relative to the murder of President Lincoln and the attempted assassina-tion of Secretary Seward, showing a wide-spread sympathy on the part of all classes of subjects, as well as high official personages in all climes and countries. Various topics are elsewhere discussed, including questions connected with the rebellion and its suppression, neutral rights, Mexico and the condition of Europe, in fact, covering the entire surface of public affairs throughout

The peculiar industry and promptness of the Secretary are seen in his many des-patches on so great a variety of matters of importance.

importance.

In a letter from Secretary Seward to Minister Wright, dated last December, the former gives the President's views in regard to the proceedings in Prussia, by which natives of Prussia who have voluntarily exchanged allegiance from that government for the rights and privileges of citizens of the United States, and have been duly naturalized as such, are nevertheless arrested and held liable to perform military service on occasion of their transient visits to their native country. to their native country.

The United States have accepted and es

tablished a government upon the principle of the rights of men who have committed of the rights of men who have committed no crime to choose the State in which they will live, and to incorporate themselves as members of that State, and to enjoy henceforth its privileges and benefits, among which is included protection.

"This principle is recommended by sentiments of humanity and abstract justice. It is a principle which we cannot waive. It is not believed that the military service which

not believed that the military service which can be procured by any foreign State in denial of this principle can be important or even useful to that State. The President desires that you will present the subject to the serious consideration of Count Bis-marck," &c.

It appears, from a letter written by Minister Sanford to Secretary Seward, dated Brussels, March 13, 1865, that the royal decrees of October and November, 1864, and February, 1865, authorized officers and soldiers "to serve in the armies of his Majesty the Emparor of Maying due on Majesty the Emperor of Mexico, and continued to them their Belgian nationality." Eight hundred and seventy-five authoriza-tions were given to officers and soldiers to enlist, and it would seem, from other state-ments, that the entire number recruited in the Belgo-Mexican legion was from twelve

Minister Motley, in a letter to Secretary Seward, dated Vienna, June 5, 1865, says:
"As I have often had occasion to observe, the Imperial government of Austria has ever held itself aloof from the whole Mexican enterprise, and disavows responsibility for its results."

Minister King, in a letter to Secretary

Seward, dated Rome, May, 1865, says: "The course which Maximilian has pursued to course which Maximilian has pursued to-ward the Church since he ascended the throne of the Montezumas has cost him a large share of the popularity which he en-joyed at Rome a year ago, and there were not a few of the Catholic dignitaries who expressed the hope that the Austrian arch-duke may sneedily find it advisable to

duke may speedily find it advisable to return to Europe."

Minister Morris, in a despatch dated Conataninopie, May, 1000, says: The object of the visit of General Marquez, the special envoy of the so-called Emperor Maximilian, is limited to the purpose designated in my is limited to the purpose designated in my last despatch. The grand vizier declares to be without foundation the report that the Porte will give him its sanction of the incorporation of the Egyptian blacks into the Imperial army, and of a further contingent of black troops from Egypt."

A large portion of the third volume is devoted to the Mexican question, the dates running as far up as February of the present year. As statements have recently

running as far up as February of the pre-sent year. As statements have recently been made in some of the newspapers in re-lation to the cession of Mexican territory, the following points, although bearing an anterior date, may prove of interest: In May, 1865, Minister Romero officially

contradicted a statement made by M. Corta, a member of the French Corps Legislatif, that "President Juarz has twice offered the State of Sonora to President Lincoln for seventy-five millions of francs." "I have," he says, "been the only representative in Washington of President Juarez's government during the whole time of President Lincoln's administration, and I do not know of any such offer ever having been made to the United States through me or anybody else." And President Investigation anybody else." And President Juarez, in 1863, himself, in noticing the remarks of Mr. O'Donnell, President of the Council of Ministry of the State of the Council of the Co Ministers of the Spanish government characterizes the assertion that he was will ing to sell two provinces of Mexico to the United States as an imputation of injustice to the first magistrate of the nation. In July, 1864, Minister Romero writes to

Mr. Seward, referring to the fact that Ed-Mr. Seward, referring to the fact that Edward D. Jose Domingo Cortes had presented himself at the State Department, calling himself the representative of the Mexican States of Sonora, Sinaloa, Chihuahua, Durango, and ethe territory of Lower Callifornia, and had solicited the annexation of those States to the United States. Mr. Romero submitted to the State Department copies of letters from the Governors of these copies of letters from the Governors of those states, showing that Cortes was not in any manner authorized to speak for them, nor of any other in the Mexican republic; that he was not known in the States whose representation he attempts to example and he was not known in the States whose re-presentation he attempts to assume, and that the proposals he had allowed himself to note to this government were formally and solemnly rebuked and repelled by the

and solemnly rebuked and repelled by the legitimately constituted authorities.

In November, 1865, General Grant communicated to the State Department the prospectus of the Mexican Express Company, being in New York, for the undoubted purpose, he said, of aiding the Imperial government of that country. He called particular attention to the article called particular attention to the article enclosed from the New York Courrier de enclosed from the New York Courrier des Etats Unis. Secretary Seward acknow-ledged the receipt of the letter, and in reply stated that proper measures had been adopted by his department to prevent a vio-lation of the laws of the United States, and the existing treaty stipulations between the United States and the Mexican Republic.

Arrest of Police Officials at Memphis, Tennessee. MEMPHIS, Nov. 3.—Considerable excitement prevaile here over the arrest made last night of Superintendent Beaumont, of the metropolitan police, together with E. W. Pratt, his chief detective, for malfeasance in office, levying black mail, &c. The case was brought up this afterneon, and a number of witnesses for the prosecution examined. The trial was continued until Monday morning.

THE Hon. A. H. Stephens, in a private letter, incidentally alludes to a statement published in a Northern journal regarding bimself and his brother in the matter of the constitutional amendment, and characterizes it as utterly without foundation. He thinks the Legislature should reject the amendment promptly,

## CITY BULLETIN.

THE PASTORAL LETTER OF THE CATHO

ITHE PASTORAL LETTER OF THE CATHOLIC COUNCIL.—The Pastoral issued by the Bishops of the Catholic Church, lately assembled in Baltimore, was read yesterday afternoon by Right Rev. Bishop Wood, at the Cathedral, on Logan Square. The announcement was made at the morning service that this document would be read, and such comments made as might be appropriate. and accordingly there was a large attendance. The learned Bishop emphasized with considerable feeling that portion of the Pastoral which contained a condemnation of secret societies, and especially referred to the view that body took, that because all the bishops, before assembling in council, did not raise their voices against a certain evil, that, therefore, the special injunctions of one are not applicable strictly to those under his charge. The Bishop said he had on a former occasion condemned a society called the Fenians, and he would now reiterate that condemnation. Its leaders were bad and wicked men. in whom the confiding nearly more and he would now reiterate that condemnation. Its leaders were bad and wicked men, in whom the confiding people, upon whose feelings they traded, should no longer place or ever should have placed any confidence. The Plenary Council had been no less emphatic in this expression of the views of the Church; and now that they are promulgated, all good Catholics should withdraw their countenance and support from the Fenian organization. Branching off to other subjects, Bishop Wood was equally forcible and clear in condemning waitzing, polkas and other amusements of fashionable society. The faithful were earnestly warned from participation in these pleasures, on the ground of the temptations they present. The subject of divorce and other topics, to which the Pastoral called attention, were also descanted upon with

eloquence and feeling. CITY MORTALITY.—The number of interments in the city last week was 300, against 235 the same period last year. The net deaths in the city were 285. Of the whole number 173 were adults and 127 children—65 being under one year of age. 177 were males, 123 females, 78 boys and 49 girls. The greatest number of deaths occurred in the Nineteenth Ward, being 22, and the smallest number in the Tenth Ward, where three only were reported. The principal three only were reported. The principal causes of death were: Croup, 9; congestion of the brain, 10; cholera, 41; consumption, 37; convulsions, 10; disease of the heart, 8; dysentery, 9; scarlet fever, 9; typnoid, 9; inflammation of the lungs, 15; marasmus, 11, and old age 12.

WASHINGTON, Nov. 3.—Much solicitude naturally prevails here concerning the condition of affairs in Baltimore. It is reported that troops were to day sent to that city to be ready in case of emergency, and that if there shall be any extensive hostile demonstrations on the part of the citizens the United States authorities will interfere and declare the city under martial law.
