From Our Third Edition of Yesterday.

Additional Foreign News by the Java. The London Times alludes to the further disintegration of the Austrian Empire as possible. Prussia is said to be intriguing with the Greek religionists, who number about 3,500,000, scattered in Hungary and other provinces. Even the German provinces of the Empire are not safe from the attraction which is carrying Bavaria and Wurtemburg into the Prussian Confederation, and if, at the same time, an orthodox propagander be set to work, the process of disintegration may be rapid.

The London Globe says Denmark is me. naced with extinction. Unless wiser counsels and a juster spirit, supported we doubt not by the influence of England and France, prevail at the court of Berlin, Denmark will soon undergo further dismemberment, and will finally disappear as an independent State from the map of Europe. The Globe believes a design is entertained by Prussia and Sweden to absorb Denmark. Prussia taking the mainland, while the islands are appexed to Sweden.

The Spanish Government is said to have resolved on modifying the armament of the

Over and Tempiser—Judges Alison and Ludlow—In he case of William A. Maguive, charged with the murder of Maggie Baer, at the Continental Theatre, on the 2d of April, 1545, ten jurors were selected from the regular panel before it was exhausted. A special venire issued for Iweive talesmen returnable at half-past four o'clock yesterday afternoon. When these aspecial venire issued for Iweive talesmen returnable that half-past four o'clock yesterday afternoon. When these aspecial venire summoning twenty talesmen then issued, made returnable this morning at eleven o'clock. From these the two remaining jurors were selected, and at 12 o'clock, the jury being full, the trial proceeded.

The court room was uncomfortably filled, and although the occurrence is of a distant date, the interest in the trial appears to be very general.

District Attorney Menn opened the case for the Commonwealth. He refarred to the numerous scenes of violence now so common throng nout the land, and urged the necessity for a rigid and infestible administration of the law. Murder is becoming common, and he had heard a rumor that one of the ctris, a witness in the present case had an assault committed upon her last night. An attempt was made to cut her throat by some one jeaious or her. He then briefly stated the facts of the case. Maggie Baer was a girl living in the central part of the city, spending most of her time at a celler at Hudson's alley and Unestant street. The proprietor had engaged a number of girls in order to entice custemers. Maggie was a water girl at this saloon. In company ith men and women; he became enamored of Maggie Baer, and he followed her; he became intimate with her and finally, in his infatuation, proposed that she should go with him to New York, and live with him alone. She would not agree; he persisted, and to some of Maggie's companions he said if she did not accompany him he would kill her. On the day of the murder he visited the cellar and invited the girls to go to the Continental Theatre; he furnished money for

swer. She hesitated for some time, and when she answered evasively, he leveled the pistoi at her brevs; discharging three loads into her boty. Maguire was at once arrested. This was the case. There was nodoubt that Maguire is the man who committed the murder. After the Commonwealth had established the death at the hands of the prisoner, he would wait to hear the defence, and then it would become his duty, to thoroughly eift that testimony. In doing so he would be actuated by a desire to have justice alministered, and the prisoner punished if he is responsible for the death. Dr. Shapleigh testified that he was physician to the Coroner in A pril, 186; made a post mortem examination of the body of Mague Baer; made the examination on the 3d of April, at m. Conrad's establishment in Parrish street, above Eleventh; there were three gun sho woulds upon he body; one a slight flesh wound on the out side of the left thigh; one on the back of the head a little to the right of the medium line; and an other in front of the right armipit over the space between the first and second ribs; the bill on striking against the bone of the head, a part was split off and was I und between the skull and the scal;; the main part of the ball penetrated the brain to the extent of 13c of 2 inches, carrying with it some pieces of the inner plate of the bone; one ball entered between the first and second ribs; under the right armipit, and passed to the cavity of the chest and pased through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the fight lung, passing behind the heart and through the fight lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung, passing behind the heart and through the right lung his passing behin

filt nee of liquor; the body was taken to the Central Station.

Ex Coroner Taylor testified that he obtained the body of Masgle Baer at the Central Station; it was afterwards taken to Parrish street, where Dr. Shapleigh made the prat-mortem examination.

Officer James Rice testified that he was at the theatre the night Maggle Baer was abot; heard the shots fired and saw the prisoner; he was pointing the pistol at Maggle Baer after the first abot; was looking at him when he discharged the second shot; ran to the box, and when it got in the box the trid shot was fired; it took hold of the prisoner and fell with him in the corner, and the pistol fell back in the corner; had never seen the prisoner before that night.

Cross examined—The prisoner made no exclamation when we arrested him. when we arrest on him.

At half put one o'clock the Court took a recess until three o'clock.

AYER'S SARSAPARILLIA is a concentrated certract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote; for diseases Sarsaparilla is propued to cure. Such a remedy is surely wanted by these who suffer from Strumous complaints, and that nonmous complaints, and that nonmous complaints, and that nonmous complaints, and that nonmous complaints. And that nonmous complaints, and that nonmous complaints. How completely this compound will do it has been proven
by experiment on many of the worst cases to be found a the following complaints:
Scrothis, Scrothous Swellings and Sores, Skin Diseases, Pimples, Pastules, Blotches, Emptions, St.
Anthony's Fire, Rose or Brysipelas, Tetter or sail.
Rheum Scald Head, Ringworm, cc.

Syphilia or Venerial Diseases is expelled from the system by the prolonged use of this Barsarabilia, and
the palsent is left in comparative health.

Female Diseases are caused by Scrothia in the blood, and are often soon cured by this Extractr of SarsaParilla.

Do not discard this invaluable medicine, because you

And are often soon cured by scrottlis in the blood, and are often soon cured by this EXTRACT OF SARRA-PARILLA.

Do not discard this invaluable medicine, secause you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used Aver's—theb, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHERTIC PILLS, for the cure of Costiveness, Jaundice, Dyspensia, Indigestion, Dysentery Foul Stomach, Headache, Piles, Rheumatism, Hearthurn arising from Disordered Stomach, Pain, or Morbid Inaction of the Rowels, Flatulency, Less of Appetite, Liver Complaint, Dropsy, Worms, Gout Neuralgis, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pieasantly, and they are the best Aperlem in the world for all the purpose to a family physic, Prepared by J. O AYER & CO, Lowell, Mass, and sold by J. M. MARIS & CO., Philadelphia, and by all Drogglists.

501d by J. M. MARIS & CO:, Philadelphia, and by all Drugglists.

OPAL DENTALLINA.—A superior article for cleaning the Teeth, destroying animalends which infest them, giving tone to the gums and leaving a feeling of fragrance and perfect cleaniness in the mouth. It may be used daily, and will be found to strengthen weak and bleeding gums, while the toma and detersiveness will recommend it to every one. Being composed with the assistance of the Dentist, Physicians and Microscopist, it is condidently offered as a RFLIABLE substitute for the uncertain washes formerly in vogue.

Eminent Pentists, acquainted with the constituents of the DENTALLINA, advocate its use: it contains nothing to prevent its unrestrained employment. Made only by

CASTOR WHEELS.

CASTOR WHEELS.

FOR HEALTH AND STRENGTH USE CAPPE WELL & CO.'S PATENT GLASS CASTOB WHEELS.

These wheels are designed for Pianos, Bedsteads, &c. We claim that they give to Pianos a greatly increased force of sound, without detracting from the harmony and melody of the instrument, tendering every note more distinct to the eor. This is so apparent that they are now being applied by many to these valuable musical instruments. Dr. Valentine Mott, previous to his death, pronounced the Glass Castor Wheels an invaluable invention for bedfast invalids, who are guarded against the damp floors after undergoing the process of cleaning, or where dampness is produced from any other cause. Aside from this, Housekeepers are relieved from the dread of having their carpets out or torn, as frequently happens from those now in use, often caused by a rust, which adheres with glue-like tenacity. No such annoyance can possibly proceed from the Glass Castor Wheels, as we all know that glass is non-corrosive. There are no rough or unfinished, will soon rost, from the dampness of the atmosphere, if nothing else, producing roughness on the surpace, or edge, while the former will always maintain the emoothness of glass, just as they are finished.

Ey elseping upon glass wheels you retain all the electricity will soon rost, from the dampness of the atmosphere, if nothing else, producing roughness on the surpace, or edge, while the former will always maintain the emoothness of glass, just as they are finished.

Ey elseping upon glass wheels you retain all the electricity gained while in bed annot pass off. Ask your doctor what he thinks of the class Caster Whoels. Ask him if all diseases, with the exception of chronic diseases. Are not caused from the want of electricity. We have a man in our place whom the doctors prononned past curing, with the inflammatory rhemmatam. The wheels cured him in less than four weeks. He is to day a stout healthy man. These are facts which can be proven on application at our factory, at westiville, New Jersey
