THE BALTIMORE CASE

JUDGE BARTOL'S DECISION

The Police Commissioners.

BALTIMORE, Nov. 13.—Judge Bartol's decision reviews the whole case. He says the order of Judge Bond of the Criminal Court, that the parties be held to bail, and the defendant thereof to be committed, to keep the peace against the Police Commissioners, and not to seek to exercise any of the functions of the Police Commissioners until their claim to said office would be established by the courts, was wholly unwarranted, and that the Judge of the Criminal Court had no authority to pass such an order. He reviewed the code in regard to the Police Commissioners and decided that it gave the Governor entire power in the matter. That in his judgment, Messrs. Wood and Hinds had been guilty of official misconduct, the law gave him power to remove them and appoint successors. That at the time Messrs. Young and Valliant were arrested, they had been truly and lawfully appointed Police Commissioners, and that, clothed with the commission of the Governor, they were, truly in office and empowered to rightfully exercise all the functions of the same, in the place of Messrs. Wood and Hinds, removed, and who had been officially notified of their removal, whilst the decision of Judge Bartol fully sustains the action of the Governor and condemns that of the Criminal Court in virtually, by the order issued, granting an injunction against Messrs. Young and Valliant, and discharges them from the custody in which they were held in virtue of the commitment on such order; the Judge decided that it was competent for the Criminal Court to entertain the charge alleged against Messrs. Young and Valliant, of conspiring to break the peace by forcibly taking possession of the police stations and other property held by Messrs. Wood and Hinds. Such a charge was an indictable offence, and upon that charge they were properly held to bail.

Judge Bartol said he would issue an order for the immediate discharge of Sheriff Thompson, and in the case of Messrs. Young and Valliant, he discharged them from custody, under the authority of Judge Bond, restraining them from seeking to exercise the functions of their office as Police Commissioners; but as to the other charge of conspiring to break the peace, he would require them to enter their own recognizances to answer the charge before the proper Court.

The action of the Governor was final, as such as the Legislature, and from his action there could be no appeal.
