UNFAVORABLE TO THE FENIANS.

GEN. DIX'S MISSION.

GENERAL GRANT'S MOVEMENTS.

FROM CANADA. LATEST

From Washington.

[Special Despatch to the Bulletin.] WASHINGTON, Nov. 17 .- There is no foundation for the statement that Chief Justice Chase is in conference with the President in regard to the question of amnesty and qualified suffrage. The President has full authority to issue the former if he chooses to exercise it, and has always favored the lattor as is shown in his letter to Gov. Sharkey,

of Mississippi. The President's organ has another attack to-day on the Constitutional Amendment

These articles are by authority. The British Minister's letter to Seward. stating the action that had been taken in regard to the Fenians now under sentence of death, is looked upon as an unfavorable indication. The British Ministry have always favored most extreme measures in

dealing with the Fenians. General Dix is here in conference with the President and Secretary Seward. They are anxious that he should leave at an early day for his post.

Gen. Grant at Baltimore. BALTIMORE, Nov. 17 .- Gen. Grant arrived here this morning, and took breakfast with William J. Albert, Esq., the late candidate for Congress in the Fourth District, on the Republican ticket. At noon he will attend the Horse Fair, which closes to day.

From Canada. OTTOWA, C. W., Nov. 17 .- A party of sixteen Americans, extensively supplied with rifles, ammunition and deer hounds, has arrived here on their way to the Northern

forests on a deer hunting trip to supply the New York markets. The steamers and barges employed in carrving lumber from the Ottowa lumber 'district for the American market make their

last trips this week. It is reported that the Canadian govern ment has refused to ratify the arrangement by which the Canadian Confederate Government will contribute \$800,000 to Prince Edward's Island to enter the Confederation. It is certain, however, that all the provinces will contribute and render aid to put an end to the troubles caused by the land tenure in the Island.

QUEBEC, Nov. 17.-The Mayor received another cable despatch from Manchester. saving that one thousand blankets will be sent out by the next steamer, as a contribution in aid of the sufferers by the late fire. The steamship Damascas sailed for Liv

erpool this morning. This is the last trip from Quebec this season.

A Quiz on Chicago.

A Quiz on Chicago.

[From the Cincinnati Times.]

The city of Chicago is a place of immense size. The State of Illinois is in Chicago, but it would hardly be noticed there, unless you were looking for it particularly. Although Lake Michigan is a pretty big lake, yet, owing to the stupendous dimensions of the city, it barely serves the Chicagoans the purposes of a bathing-tub. They are running a tunnel under it to bring water from Lake Huron for drinking purposes. Every-Lake Huron, for drinking purposes. Everything is on a big scale there—some of their biggest merchants are "scaly." The Tremont House is the biggest hotel in the world. The Sherman House is also the biggest hotel in the world. There are several other botels they work are the biggest party world. hotels there that are the biggest in the world. New York and Philadelphia regret ex-New York and Philadelphia regret exceedingly that they are so far from Chicago. It interferes materially with their growth and future prospects. They are endeavoring to have lightning trains run through from Chicago, without stopping, so that they can have the Chicago papers at the earliest possible moment. The Chicago papers are the most enterprising papers in the world. In order to get ahead of all others, the morning papers are published the night before, and the evening papers are got out before breakfast. This gives them an immense advantage.

They had a great Driving Park at Chicago, which did a driving business—drove the life out of a man the other day. He was a driver, guilty of the heinous crime of driving the fastest horse. As he was about to drive ahead on the final heat, some one let a fence board drive at his head, which settled him. It settled the Driving Park also. People found fault with the board, and wouldn't

patronize it. Chicago is a great place for elevators.

Chicago is a great place for elevators. There is more corn elevated in Chicago than in any other city. It is more in the juice than in the kernal, however. The principal business of the city consists in getting up "Gift Enterprises." They get them up and then "git," with all the money.

An enterprising citizen of Chicago, named Crosby, devotes his time and money to building immense and costly Opera Houses to be "raffled" for. He is ready to fill any orders for Opera Houses that may be sent in from neighboring cities. Country orders orders for Opera Houses that may be sent in from neighboring cities. Country orders attended to with promptness and despatch. He keeps a stock of Opera Houses on hand, constantly, from the one-cylinder Opera House to run by hand, to the thousand horse power Opera House to run by everything. To show the demand there is for his Opera Houses, he finished a first-class one recently, and there are thousands of people waiting to get it!

waiting to get it!

Chicago is a very windy town. There is probably more blow about that place than any other in the world. In comparison to its "blows" the dreaded Simoom is only Simoonshine. The elements are combined to form a monster ear trumpet, the little end of which is inserted into the public ear, and through it all Chicago blows the praises of that wonderful city, until it makes the public's head ache—actually "splitting the ears of the groundlings." waiting to get it! ears of the groundlings."

The people up there are surprised and indignant that the shore end of the Atlantic for Buenos Ayres.

Cable is not fastened in Chicago, and think steamers for California, Europe, &c., would do better to sail from there. Great town.

AN AUCTIONEER'S STORY .- The Boston Commercial Bulletin tells a story of Leonard, the book auctioneer. Some twenty years after his school-boy days in England, ne was selling a lot of second-hand books in Boston at his salesroom, by auction. Among others was a little old-fashioned grammar that caught his eye which seemed to wear a familiar aspect. He opened it, and lo! inside the cover was his own youthful auto-graph and other hieroglyphics, inscribed by himself nearly a quarter of a century before. By some curious coincidence the little book, lost in boyhood's day, had during that length of time, like its owner, crossed the Atlantic, and in the course of events, come back to his very hand. It is almost unnecessary to add that the little volume, o only waste-paper worth to the public, was of greater value to the auctioneer than many more costly works; that it was bid in by bim as a relic, and rescued from the paper-mill.

PRICES OF STOCKS IN NEW YORK.

(By Telegraph.)

Finance and Business-Nov. 17, 1866. There was but a small business effected at the Stock Board this morning and prices were weak and greatly nsettled. Money is cheap enough for speculative purposes, but the outside public are pursuing a very onservative course, and manifest no disposition to enter into any new ventures. Trade was never more stagnant, and the general tendency, except for Breadstuffs, is downward. Among the concessions of the week we notice a fall of 3c in Cotton; 5 to 15 per cent. in Cotton Fabrics and other Dry Goods: 1/2 per cent in Sugar; 10c Feathers; 5c. in Indigo; \$1 in Rosin; 5c in Spirits of Turpentine; 5c, in Fish and Lard Oils: 6c. in Linseed Oil; 1c. in Petroleum; \$3 in Pork; \$3 in Beef Bams; Ic. in Bacon, Green Meat and Lard; 2c. in Butter; %c. in Cheese, and 1 cent in wool. This decline has not led to any increased business, which indicates a disposition on the part of consumers to purchase only such an amount as the exigencies of the moment would seem to warrant. Government Loans were weak and lower. 113% was the best bid for the Coupon Sixes. '81: 10814 for the old Five-Twenties; 10614 for the 64s; 106% for the '65, and 105% for the June and July Seven-Thirties. State Loans were dull, and all other Loans are affected unfavorably in consequence of the decline in Gold. Reading Railroad told down to 56-a decline of 11/4; Pennsylvania Railroad at 54%@55-e decline of &: Lehigh Valley Railroad at 66%-a decline of %, and Camden and Amboy Railroad at 134. 58 was bid for Mine Hill Railroad;49% for Northern Central Railroad, and 321/2 for Philadelphia and Erie Railroad. Canal stocks were neglected. Passenger Rail

way shares were inactive.
