Mexican Affairs. It is stated by parties authorized to speak for the Republic of Mexico, that it is the firm intention of President Juarez to order an election in accordance with the Constitution for a President and members of Con-gress, as soon as it shall be practicable to do so. They further assert that President Ju-arez is not, as his enemies have endeavored to represent him, an ambitious and unscru-pulous man, whose only object is to keep himself in power, but that he has remained in office after the expiration of his term because this was the only way in which he thought the National Government of Mexico could be preserved. It is doubtful whether he will allow his name to be used as a can-didate for re-election, even should his friends urge him to become a candidate.

CASTOR WHEELS.

TOR HEALTH AND STRENGTH USE CAPRIVELLIA CO.'S PATIENT GLASS CASTOR WHEELS.

These wheels are designed for Pianos, Bedsteads, &c. We claim that they give to Pianos a greatly increased force of sound, without detracting from the harmony and melody of the instrument, rendering every note more distinct to the ear. This is so apparent that they give are now being applied by many to these valuable musical instruments. Dr. Valentine Mort, previous to his ceath, pronounced the Glass Castor Wheels an invaluable invention for bedfast invalids, who are guarded against the damp floors after undergoing the process of cleaning, or where dampness is produced from any other cause. Aside from this, Housekeepers are relieved from the dread of having their carpets cut or torn, as frequently happens from those now in use, often caused by a rust, which adheres with glue-like tenacity. No such annoyance can possibly proceed from the Glass Castor Wheels, saw we all know that plass is non-corrosive. There are no rough or unfinished, will soon rust, from the dampness of the atmosphere, if nothing else, producing roughness on the surface, or edge, while the former will always maintain the smoothness of glass, just as they are finished.

By elsephing upon glass wheels you retain all the electricity gained while in bed cannot pass off. ask your occor what he thinks of the class Castor Wheels. Ask him if all diseases, with the exception of chronic diseases, are not caused from the want of electricity. We have a man in our place whom the doctors pronounced past curing, with the inflammatory rhammatism. The wheels cared him in less than four weeks. He is to-day a stout healthy man. These are lact which can be proven on application at our office, No. 225 Patent Glass Castors. A sample set (4) of the Wheels sent to any part of the United States, on relept of § 150.
