## OFTY BULLETIN.

THE BOARD OF TRADE.-The stated meeting for November was held last evening, President Welsh in the chair. The first business in order was the report of the Committee of the Month on referred

and new business. In response to a communication from the San Francisco Chamber of Commerce, the

following preamble and resolutions were adopted and ordered to be made known to

that association by the secretary: Whereas, This Board have received from the Chamber of Commerce of San Francisco a communication treating of several im-portant subjects—among them, the changes of trade currents, under the influence of railroad and steamship transportation: the need of further naval facilities and naval protection to Asiatic countries, particularly the Empire of Assam; the defects of our consular system, and the desirableness of a consular system, and the desirableness of a further extension of the electric telegraph, particularly the proposed Russo-American line, designed to bring America into con-nec ion with the great ci les of eastern Asia— all of them subjects of great interest and im-portance; and whereas, the interests of the Pacific States, and especially Calfornia, the pioneer among them, and San Francisco, its conited are descripted to the most segregions capital, are deserving of the most sagacious and generous treatment in reference to all their great interests on the part of the Ge-beral Government of the United States;

therefore, be it Resolved, That the Philadelphia Board of Trade, for themselves and for the business community they represent assure the Cham ber of Commerce of San Francisco of their deep interest in all that may tend to the development of the vast resources and capaci-ties of their State, and pledge to them a cordial co-operation in every measure calculated to promote that end.

The committee also proposed a plan for securing the importers throughout the country the advantages of direct importa-tion by providing for the immediate de-livery and forwarding of imported merchandise from the ship's side, by the first and most expeditious means of transportation, to any port of entry and custom house de-signated in the manifest and bill of lading; the transportation companies giving an annual bond for the faithful delivery of the articles to the custom house named, under the seal of the inspector of customs at the port of arrival, without bonding storing or any delay at such port. The proposal me universal approbation, and was referred t a special committee of five, to be named by the president, who should be charged with the duty of pressing the plan to a successful consummation.

Mr. Fraley, Mr. Souder and Mr. Weth-erill spoke decidedly in favor of the project, and showed that the business interests of the city would be greatly benefited thereby. Mr. Sparhawk proposed the following re-solution.

solution:

Resolved, That the Committee on Inland Transportation be instructed to open a cor respondence with the Merchants' Express Company, with a view to procuring for this city the advantages of a direct connection with the West by means of that Company, and that an appropriation not exceeding one hundred dollars be made for the purpose of

covering the expenses of promoting the connection. Mr. Sparhawk, in supporting the resolu-tion, said that at no time within his recol-

lection had the Western trade of Philadel phia reached such imposing dimensions as this season, and it was only necessary to present cheap and rapid means of transport to secure her share of it permanently here. The discussion developed a radical differ-ence of opinion as to the utility and policy of the whole system of express companies and fast freight lines as at present conducted.

On motion of Mr. Fraley the resolution was amended and referred to Messrs. Sparhawk, Wetherill, Coates and Perot, as a spe-

cial committee. Committee of the Month announced;

Urmie and others, was boarded at Cape St. Lucas, Oct. 23, while on her way from La Paz to San Francieco, by Gaston D'Artois and two others, armed with pistols. They demanded the captain's papers, de-claring the captain to be a Mexican pirate, and themselves authorized to search the vessel for articles contraband of war. When D'Artois was called upon to produce his au-thority for the seizure of the vessel, he showed them a copy purporting to be from Corona, and said the original order was lef-on shore. Four more armed men subsa-Corona, and said the original order was left on shore. Four more armed men subsa-quently joined D'Artois, when the captam and passengers were robbed of everything valuable, and the vessel plundered. The brig was released the next day, after giving bonds for \$10,000, and arrived here last wight night.

Message of Gov. Marvin, of Florida.

Augusta, Ga., Nov. 20.—Gov. Marvin, of Florida, in his message to the Legisla-ture takes ground against the constitutional amendment, presenting at length the reasons which call forth the opposition of the people of the State to its ratification. He also alludes to the conflict between the military authorities and the President's policy, as shown by the interference of the former with the civil tribunals, in disre-gard of the President's proclamation, and setting up special judicial tribunals in vio-lation of the United States Constitution,

and who desire to be examined for admis-A. S. ROBINSON able who desire to be examined for admis-sion to the regular navy, as provided in the act of Congress approved July 25th, 1866, will at once make application addressed to Commodore S. P. Lee, Hartford, Conn., who will notify them when to appear. Those who do not present themselves when noti-fied will be considered as having waived their claim for examination. Candidates will take with them, when summoned, their official papers showing their naval record. A PARTY from Dorn's gold mines, Abbe-ville, S. C., represent that the discoveries promise large results. An old mill, of one battery, in nineteen hours' work, gave 17 dwis. of gold from less than one and a quarter tons of reduced ore.

ANOTHER ASTRONOMICAL SENSATION.— An interesting astronomical event will occur on the 6th of December, 1866, viz: The Sun, Mercury, Venus, and the Earth, will be in conjunction, a fact that will not occur in several centuries.

This Flour is put up in the very best round hoop packages and will be sold in lots to suit.
