## CITY BULLETIN.

DEATH OF A MERCHANT,-Mr. George A McKinstry, the agent of the New York, Philadelphia and Liverpool line of steam-ers, died suddenly on Wednesday morning. The fact was announced to the Corn Exchange Association this morning, by Nathan Brooke, Esq. after which Mr. J. P. Bankson submitted the following preamble and resolutions, which were unanimously

and resolutions, which were unanimously agreed to:

Whereas. The hand of death has suddenly removed from our midst a member of this association, whose manly quaities and smisbility of disposition have endeared him to all who came in contact with him, either in a business or social way: therefore.

Besolved, That in the death of George A. McKinstry the mercantile community has lost a valued member, and society at large an honest and worthy man.

Essolved. That our sympathies be tendered to his bereaved family, and that the members of the Association participate in the funeral services.

Besolved, That a Committe of five be appointed to carry into effect the latter resolution.

Messrs. J. P. Baukson, Hugh Craig, Duke Murphy, Oharles Knecht and Thomas O'Neill were appointed on the committee.

RAILROAD TRAIN ON FIRE.-Yesterday afternoon about four o'clock some barrels of oil on a platform car of a train on the the Pennsylvania Railroad took fire near Athensylle, which is eight miles from the Athensyille, which is eight miles from the city. The fiames, of course, spread rapidly among the oil, and soon communicated to two other cars. The train was stopped at Athensyille and assistance was procured. Before the fire was extinguished, however, the three cars and their contents were entirely destroyed. The conflagration caused a dense black smoke, which was visible in the Twenty-fourth Ward. The West Philadelphia Hose Company's steamer was taken to the spot and rendered efficient service in saving a lot of lumber which took fire from the burning oil. One or two other companies also reached the ground. The firemen were all brought back to the city on a train sent for that purpose by the Pennsylvania Railroad Company.

DERANGED MAN MISSING,-Dr. Joshua H. Worthington, near Frankford, or George Abbott, Salem, N. J., desire information o Charles T. Abbott, nineteen years of age; about 5 feet 10 inches in height; light hair and eyes, with a slight stoop in his shoulders, and downcast look; slow of speech, and expressing himself with difficulty, who left his home while in a state of mental depression. He was well dressed, in dark clothing, marked with his name, and had ou a dark straw hat; was accustomed to farm-work, and may have hired himself to some farmer in the neighborhood.

A MATCH FOR A NOBLE OBJECT.-The friends of the late Mr. Francis A. Frazer intend giving a grand Base Ball entertain-ment, on the grounds of the Athletic Club, Fifteenth and Columbia avenue, on Wednesday next, for the purpose of procuring a monument, to be erected in the Cathedral Cemetery, over the remains of their lamented friend. Six of the Atlantic Club, of Brooklyn, have signified their intention of being present to participate, and the rest of the players will be made up of some of Philadelphia's best men. As the affair is for a worthy object, there should be a full

CALIFORNIA WINE .- Gold is not the only important production of the giant young State on the Pacific. Its wines have attained a high degree of public favor, and they have already greatly lessened the demand for imported Champagnes, &c. Mr. P. J. Jordan, No. 220 Pear street, below Walnut, has lately received an invoice of "Sparkling Angelica," a brand of domestic Champagne, which is famous for its pure quality and its delicious bouquet. Judges of the article consider it equal to the higher grades of European wines; while its cost is greatly below them. Mr. Jordan's "Sparkling Angelica," "needs no bush." important production of the giant young

UNPROVOKED ASSAULT.—Patrick Mc-Fadden was arrested, last night, for assaulting a young woman at Eleventh and Chestnut streets. The woman had taken supper to her brother, who is a watchman at a new building at that place, and was standing en gaged in conversation with him. McFadden gaged in conversation with min. Meratitein came along, and, without any provocation, struck her a violent blow in the face, causing a black eye. He had a hearing before Alderman Jones, this morning, and was committed to answer.

PAINTINGS.-We dropped in Scott's Art Gallery last evening, and found a crowded audience, occasioned by the commencing sale of the Paintings from the American Art Gallery, New York. The bidding was somewhat spirited, but the prices obtained were of medium average. B. Scott, Jr., the auctioneer, sold 125 numbers. The sale will be continued this evening, at 7½ o'clock, when, about the same number will be disposed of. Sale without reserve.

DEFACING PROPERTY.—A boy was arrested yesterday, in the neighborhood of Seventeenth and Arch streets, for defacing houses by making chalk marks on their fronts. He was held to keep the piece by Alderman Jones. This should be a warning to other inveriles who may be inclined to amuse themselves in a similar manner.

SUDDEN DEATH .- Mr. John J. Chapron, a prominent member of the bar, died suddenly this morning at his residence, No. 3917 Locust street, of hemorrhage of the lungs. He was 44 years of age. He was well known and highly respected among the members of the bar.

THE FIRST SNOW.—This morning, about eleven o'clock, snow commenced falling. The white flakes came down quite lively for a few minutes, and were then followed by rain. The atmosphere is raw and chilly, and altogether the weather to-day is decidedly disagreeable.

House Robbery.-The dwelling of Mr. J. C. Eckert, No. 1612 Chancellor street, was entered last night, by forcing open a back window. The thief carried off clothing val-ued at \$50, one dollar in two cent pieces and the key of Mr. Eckert's office.

RECEIVING STOLEN GOODS.—Martin Gavin, residing at No. 733 Shippen streets, was arrested yesterday and taken before Alderman Lutz on the charge of receiving stolen goods. He was committed in default of \$1,000 bail for trial.

A NOBLE INSTITUTION.—The Industrial Home at the corner of Broad street and Columbia, is now open for the admission of Friendless Girls, and we hope the public will sustain this admirable institution, as it

deserves. See the advertisement. SALE OF FINE OIL PAINTINGS .- B. Scott Jr., auctioneer, will make a sale of fine oil Paintings, at the Art Gallery, 1020 Chestnut street. Parties wishing to contribute must have the paintings in the Gallery on or be fore Wednesday next, 28th inst.

An Interesting Item .- Our readers. especially the ladies, will be gratified with the perusal, in snother column, of the advertisement of Messrs. Grange & Son, importers of, and dealers in first class Plain Gold Band China, Tea, Dinner and Tollet Setts; French and American Cut and Pressed Glassware of every description, etc. They have completed the erec-tion of their new and elegant three story building containing three spacious and beautiful salesrooms, each one hundred and twelve feet long and twenty feet wide, constituting one of the most attractive and commedious business edifices in Philadelphia. The supe Flor and rplendid goods sold by Messrs. Grange & Son are perfectly in keeping with the magnificence of their

THE HARRISON BOILER A SAFE STEAM

HOILER.—

This new Steam Generator combines essential advantages In Absolute Sapery From Explosion. In firt cost and cost of repairs, durability, economy of incl., iscility of cleaning and transportation, not possessed by any other boiler.

It is formed of a combination of cast-iron hollow spheres—each eight inches in external diameter, and three eighths of an inch thick, connected by curved necks, and rebate machine madejoints, held together by wrought-iron boits with caps at the ends. The form is the strongest known; its strength to resist internal pressure very great—unweakened as it is by punching or riveting, which lessens the strength of the wrought-iron boiler plate about forty per cent. Every boiler is tested by hydranlic pressure at 800 pounds to the square irch. It cannot be belief to the wrought-iron boiler plate about forty per cent. Every boiler is tested by hydranlic pressure at 800 pounds to the square irch. It cannot be Burst under any property of the inthis becomes a safety valve. No other steam generator possesses this property of relief under extreme pressure without injury to itself, and thus preventing disaster.

It is not serlously afficed by corrosion, which so soon impairs the strength of the wrought iron boiler. It has economy in fuel equal to the best boilers. It gets up steam quickly, and with little fuel—produces super-eated steam without separate a pparatus, and is not lisble to priming or foaming.

It is easily transported, and may be taken apart so that no piece need weigh more trans eighty pounds. In difficult places of access, the largest boiler may be put through an opening one foot square. It is readily cleaned inside and out. Under ordinary circumstances it is kept free from permanent deposit by blowing the water entirely out under full pressure once a week. It requires no special skil in its management. Injured parts can be renewed with great facility, as they are uniform in shape and size. When renewed the entire boiler remains as good as n
