## CITY BULLETIN.

CHARGED WITH BURGLARY.—A colored CHARGED WITH BUBGLARY.—A colored man, named Ransom Jones, who lives at Seventh and St. Mary streets, was arrested, this morning, for burglary. It seems that about three o'clock Officer Buckins, in passing the house of Chas. Lockey, S. W. corner of Fifteenth and Summer streets, discovered the gate open. He went into the yard and then found the back window open. He got through the window and found Jones in the kitchen. The thief had got a shawl and apron and wrapped up in them several pounds of corned pork which was taken from a barrel in the kitchen. The articles were on the table ready for removal. Jones was then taken into custody. He was held in \$1,090 bail, by Alderman Jones, to answer at Court.

Young Incentiaries.—Two boys, named George Latch and Charles McFarland, were arrested yesterday upon suspicion of having set fire to some shavings in Bickley's icehouse, on the west side of the Schuylkill, above Fairmount Dam. The youths were in the house, and a few minutes after they left the flower were discovered. Fortunate. in the house, and a few minutes after they left the flames were discovered. Fortunately no damage was done. The boys were taken before Alderman Allen, and were committed for a further hearing. McFarland is said to be a bad fellow. He has been arrested several times, and the last time he was in custody he was charged with horse

STEALING CORN.—For several weeks past the drovers have been annoyed by the abstraction of the corn given to the cattle at the Avenue Drove Yard, at Lancaster avenue and Forty-fifth streets. A few minavenue and rorry-inth streets. A few min-utes after the corn was put into the troughs it was removed by somebody, and in this way some thirty or forty bushels have been stolen every Monday morning. A watch was set this morning and five parties were prisoners gave their names as Pat Bigeley, Michael Brannon, Hugh McDonald, Richard McCarty and Johanna Braum. They were all committed by Alderman Allen.

ATTEMPTED ROBBERY IN A POLICE STA-TION,-A man named John Welsh, who measures about six feet three inches and was respectably dressed, went into the Fifth Ward Police Station on Saturday night and asked for lodging. He was sent down stairs to the cell appropriated for lodgers. Yesterday morning about two o'clock he came up, went into the turnkey's room and put on a new overcoat belonging to the turnkey. The latter came in about the time Welsh was departing and stopped him. He was then put into a prisoner's cell, and after a hearing before Ald. Butler, was held in \$800 bail for larceny.

A ROUGH COUPLE. -Two men went into a tavern at Twenty-fourth and Coates streets, yesterday afternoon, and raised a row.
When they got on the street again, Officer Edwards undertook to arrest them, when
he was turned upon and assailed. A new no was tuned upon and assence. A new overcoat, worn for the first time, was torn into two pieces. The men were secured, however. Their names were Michael McGorran and James Kellum. They were committed by Alderman Hutchinson.

DIRECTORS OF THE SCHOOL OF DESIGN,-The following gentlemen have been elected officers of the School of Design for Women for the ensuing year: President, Wm. P. Wilstach; Vice President, Wm. Bucknell; Secretary and Treasurer, P. P. Morris; W. J. Horstmann, David S. Brown, James A. Wright George Whitney, James H. Orne Wright, George Whitney, James H. Orne, A. J. Drexel, J. G. Fell, E. W. Clark, Jay

SUNDAY BALL PLAYING.-By playing ball on Sunday afternoons a lot of juveniles have been annoying the residents of Ninth and Market streets for several weeks past. Yesterday the police made a raid on the youngsters and captured five. The boys were all held to bail to keep the peace.

JAPAN.-Dr. McGowan recently delivered a lecture in San Francisco upon "Japan and the Ja-panese," in which he said: "The geological formation of the mountains is generally igneous in character, with the superimposition of limestone, sandstone, and coal measures." An interesting series of lectures on the Pennsylvania coal fields could be delivered, with a special allusion to the excellence and cheapness of the coal sold by W. W. Alter, 957 N. Ninth street, and Sixth and Spring Garden streets.

In Europe the use of Silver Ware for the household is confined almost entirely to the wealthy classes, but in this country there are comparatively few families too poor to possess some articles made of the precious metal or placed with it. As the country has grown prosperous, so have the middle classes advanced, and with that advance indulged in the luxary of plate, until now silver is more universally used in this land than in any other country on earth. With the increase in the consumption of silver, we have made a sleady advance in the artof working it. Since the days of Benevento Cellini, Europe has nosated its great silver working artists, but whatever the condition of the art in Europe, the fact remains that it has made less progress there during the last 50 years than on this continent.

The most celebrated establishment in this country, for the mrantacture of Silver Plated Ware is that at N. E. corner of Minih and Chestnut streets; the finest and most expert artist are there engaged in producing new beautiful and unique designs. All the members of the old firm o. John O. Mead & Son are here, and integoods are n annifactured under their immediate supervision. Special attention is given to the planing of hard metal goods, which for durability and beauty are fully equal to the far famed Sheffield ware, while, when the large amount of slaver used is considered, they are much cheaper.

Persons who desire articles of Silver Plated Ware for holiday and weedding presents, or for household use, will serve their own interests by calling at the N. E. IN EUROPE the use of Silver Ware for the

holiday and wedding presents, or for household use, will serve their own interests by calling at the N. E. corner of Ninth and Chestnut streets.

MR. GEORGE WALKER, of 47 Beach MR. GEORGE WALKER, of 47 Beach Lock Stitch Machines, testified before the Commissioner of Patents in a recent case as follows:

Q From your knowledge of the leading Sewing Machines in general use what is your opinion as to the merits of the Grover & Baker Machine?

A. I. consider it an 'A No. 1" Family Sewing Machine, simple in its construction, and easy of operation—the work that it does is more substantial than any other machine. That comprenents all I can say, I think; it is less liable to get out of order.

Q. As regards the stitch made by this machine, what are its relative merits as compared with the lock stitch?

A. It is less liable to rip If the stitch becomes broken stitch?

A. It is less liable to rip if the stitch becomes broken and is more elastic than the lock stitch and if the seam requires to be ripped, it is more easily unraveled than the lock stitch. Pe sons who make themselves equally familiar with both (the lock stitch and Grover & Baker stitch) would give the Grover & Baker the preference.

rice. Gum sole boots, very durable. Cerk sole boots, different styles, Quilted soled boots, very good. Loys' boots and shoes always on hand and made to

Gum soles put on old boots.

New Jersey Matters. APPLICATIONS.—From present appearances the number of applications which will be made from South and West Jersey, to the next Legislature, for special acts, will be unusually large. One will be made ask be unusually large. One will be made asking for an act chartering a ferry company to run from some point or points in the county of Camden, to some point or points in the city or county of Philadelphia. Another application will be made for a supplement to the act entitled "An Act to Incorporate the Gloucester and Philadelphia Ferry Company," approved February 25, 1861. Another for a supplement to the act incorporating the Gloucester Turnpike Company. Another to incorporate a company to construct other to incorporate a company to construct a passenger or street railway from Gloucester City to some point in Woodbury. Another

City to some point in Woodbury. Another for an act to incorporate a company to construct a railroad from some point on the West Jersey Railroad near Westville, to Williamstown Camden county, with a capital of \$250,000, and authority to alter the same. Another for the passage of an act incorporating Camden Lodge, No. 15, F. A. M., with a capital not exceeding \$50,000. Another for an act to incorporate the Camden Dispensary. Another to incorporate the Camden Philotechnic University, with a capital of \$50,000. Another for a supplement to the "Farmers' Marl Company" of New Jersey. Another asking for an act reducing the capital of the Camden Woolen. ducing the capital of the Camden Woolen Mills. Another incorporating the "Easter-brook Steel Pen Manufacturing Company," with a capital stock of \$300,000. cial acts generally occupy more than three-fourths of the time of the Legislature.

THE BOYS IN BLUE,-This efficient body of veteran soldiers, who did such active service in the late political campaign, have resolved themselves into a military organiza tion. They number some three hundred men, have ordered their uniforms, and leased Campbell's Hall, at the foot of Market street, for a drill room. They have suf ficient-membership to form a veteran bat-talion, and the material is such that they can form one of the finest military organizations in the State, the members being those who have been baptized with fire, and earned for themselves honored names by their bravery on the field of battle.

SPEAKER OF ASSEMBLY.—Among the many gentlemen spoken of in connection with the next speakership of the New Jersey House of Assembly, the name of Hon. G. W. N. Custis, of Camden, stands conspicuous. It is claimed for him that the district be represents is entitled to that honor, and, as a matter of course, Mr. Custis stands a better chance than his opponents. He would make a judicious and efficient officer.

TOOK HIS SEAT.—Sheriff Sharpe, the re-elected Republican candidate, has entered upon the discharge of his duties. Notwith-standing the powerful efforts made to defeat him by the Cops., in inducing one of the constables to run against him as an independent candidate, he was elected by a very large majority.

PREPARING FOR WINTER.—The West Jersey Ferry Company are putting their ferry and boats into complete order for the winter season, in order to be prepared against the icy blockade which is approaching.

KICKED BY A MULE.-Joseph C. Stav. re siding near Haddonfield, at Stay's Landing, was kicked by a mule a few days since and very badly injured.

SAD ACCIDENT.-A few days ago a small girl, eight years of age, daughter of Samuel Fortiner, received a severe fall, by which one of her legs was broken.

COMMITTED.—Charles Diehl has been committed to answer the charge of stealing a horse and wagon.

AMUSEMENTS. The Walnut-Miss Effie Germon and the

strength of the company in "Jessie Brown" and "Pocahontas." The Chestnut-Mr. J. E McDonough and the full company in "The Long Strike." The Arch—Mr. and Mrs. Howard Paul in one of their most pleasing entertainments. The American—"The Black Crook." Assembly Building—Signor Blitz. The Eleventh Street Opera House-Carncross & Dixey's Minstrels.

The HARRISON BOILER A SAFE STEAM BOILER.—

This new Steam Generator combines essential advantages in Absolute safety from Explosion. In first cost and cost of repairs, durability, economy of tael, facility of cleaning and transportation, not possessed by any other boiler.

It is formed of a combination of cast-iron hollow spheres—each eight inches in external diameter, and three eights of an inch thick, connected by curved necks, and rebate machine made joints, held together by wrought-iron boils with caps at the ends. The form is the strongest known; its strength to resist internal pressure very great—unweakened as it is by punching or riveting, which lessens the strength of the wrought-iron boiler plate about forty per cent. Every boiler is tested by hodraulic pressure at 300 pounds to the square lich. It CANOT ER BUBST UNDER ANY PRACTICABLES EXAM PRESSURE.

Under pressure which might cause rupture in ordinary boilers, every joint in this becomes a safety valva. No other steam generator possesses this property of relief under extreme pressure without infury to itself, and thus preventing disaster.

It is not seriously affected by corrosion, which so soon impairs the strength of the wrought iron boiler. It gets up steam quickly, and with little fuel—produces superheated steam without separate apparatus, and is not liable to priming or foaming.

It is easily transported, and may be taken apart so that no piece need weigh more toan eighty pounds. In difficult places of access, the largest boiler may be put through an opening one foot square. It is readily cleaned inside and out. Under ordinary circumstances it is kept free from permanent deposit by blowing the water entirely out under full pressure once a week. It requires no special skil in its management. Injured parts can be renewed with great facility, as they are uniform in shape and size. When renewed the entire booler remains say good as new. The greater part of the boiler sull nev Any kind of fuel may be used under this couler, nom
the most expensive, to refuse coal dust.

Over two hundred of these boilers are now in operatien, some of them in the best establishments in this
city. For descriptive circulars or prices, apply to
JOSEPH HARRISON, Jr., Harrison Boiler Works,
Gray's Ferry road, adjoining U. S. Arsenal, Philadelphia.
