HAVRE, Nov. 27th, Noon.-The General Transatiantic Company's steamer Pereire, which left New York on the 17th inst., ar-rived at this port early this morning. London, Nov. 27, Evening.—The Morning Herald believes that the Government of the

United States will endeavor to defeat the Fenian plots at the proper time. LONDON, NOV. 27.—A marked sensation is manifested here at the prospect of an im-mediate outbreak in Ireland

mediate outpreas in Ireland. All the London papers to day, except the *Post*, simultaneously use strong and bitter language against the Fenians, and warn them that they will receive no mercy. The London *Times* says the rebellion must be stamped out as was stamped out the cat-tle place

tle plague. The News says England must put down

relentlessly the sedilious movement which her misrule has suirred up. The *Telegraph* declares that measures

must be taken which will render it certain that the very first symptoms of revolt will be stamped out with an iron heel.

The Star says Englishmen dread the odious necessity of crushing any rebel movement.

The Standard says captured robbers should certainly be left to the just rigor of the law, and there should be no hope for them from the United States;

The Morning Herald, referring to the condemned Fenians in Canada, says there should be no loop-hole to escape for fature offenders.

orienders, Troops are being sent to Ireland, and gun-boats are sailing for Irish ports, LONDON, NOV. 27, Noon.—The Fenian troubles in Ireland have assumed considera-ble proportions, and there is no doubt that a serious outbreak has occurred. Two regiments of the national troops were urgently ordered to Ireland yesterday afternoon, au-transports were being prepared all night a Portsmouth. A large detachment of ma-rines was also sent over to Queenstown by the war steamer Plymouth.

A gunboat, at Chatham, has been ordered to sail for Queenstown immediately. Much alarm was felt at Cork, and, indeed, throughout Ireland.

The London Times, of this morning, be lieves that the Chief Organizer, Stephens will soon arrive on the scene, if indeed, he

has not already. The Liverpool *Globe* editorially hints that a more serious trouble with the United States is really at the bottom of the Fenian outbreak. A telegraphic despatch was re-ceived yesterday from Washington by the minister of the United States, at Paris. The despatch was very long, occupying many hours in transmission, and it is believed in relates to the Mexican question,

The Morning Herald of to-day says that the United States Minister, Mr. Adams, has revived the Alabama claims. A Cabinet meeting will soon be held, when the case will receive the consideration which its importance deserves. It is officially announced that the Go-

vernment has peremptorily refused the use of the parks for trade reform demonstrations.

The Lampedo, it will be remem-bered, put in here several days ago, from Savansah, bound to New York, leaking very badly and having 10½ feet of water in her hold. A steam pump was sent down from New York on the steamer Silas O. Peirce, which soon pumped her clear. She started for New York yesterday, but was obliged to return, the weather being too rough to proceed up the coast. The steamship San Francisco, from New York for Greytown, Nicaragua, with over six hundred passengers, including three bundred and fifty recruits for the 8th United States Cavalry, stationed in California, put in here on Saturday, as previously reported. On last Saturday night, when sixty miles south of Hatteras, her holler gave out, dis abling the steamer, she not being able to make more than four miles an hour instead of twelve, her usual rate. The steamer Santiago de Cuba leaves New York to-night to take the place of the San Francisco, and will arrive here some time to-morrow. She will transfer her passen-to fright to the Santiago de Cuba

gers and freight to the Santiago de Cuba, which will probably sail for Greytown on Wednesday. The steamer Moses Taylor, which was to

connect with the San Francisco on the Pacific side, will await the arrival of her Pacific side, will await the arrival of her passengers at San Juan del Sud. This delay to the passengers on their passage to the Golden State has produced considerable dis-satisfaction among them, and many have as-serted their belief that the steamer's boilers were known to be defective when they left New York but they all express their an New York, but they all express their ap-preciation of the extreme god fortune they had in not being caught out in a storm, when their return to port might have been a question of serious doubt and misgiving. During the war the San Francisco, was purchased by the Government and transformed into a gunboat, and made several cruises after the pirate Sumter, and was very successful in
