Charges of Cruelty Refuted

Interesting from Virginia.

RICHMOND, Va., Dec. 1 .- A meeting of the leading citizens of the Peninsula counties of Virginia, held at Williamsburg, have unanimously adopted resolutions declaring that the legislature, which meets on Monday next, should immediately call a Convention to frame a new Constitution adapted to the new order of society and relieve the people from their indebtedness in ratio that their present property possessions shall bear to the losses caused by the war.

It is understood that Gov. Pierpont will recommend the adoption of the Constitutional Amendment in his message.

Interesting from Baltimore.

BALTIMORE, Dec. 1.—The New Surveyor of the Port, William Wales, of the Commercial, entered on his duties, this morning, vice E. Fulton, of the American, removed. Deputy-Surveyor Parker has also been removed, and Robert Cathcart appointed in his place. There are indications of a general removal of subordinates.

Mr. Fulton was the last of the supporters of Congress in the Baltimore Custom house, and the above subordinates were all of the same class.

Considerable interest is manifested in the mercantile and newspaper world as to the telegraphic contest between the old Associated press and Mr. Craig's new organization. The course of the American in refusing to submit to the exclusive orders of the old association is highly approved, and the superiority of the despatches furnished by the new association generally admitted.

Their old fogy notions will not suit the present progressive age.

A colored artist named William H. Simpson has astonished our connoisseurs who think nothing good can come out of Africa, with a life-like portrait in oil of Judge Bond, for which he has had two sittings. The likeness is perfect, and the execution is very fine.

From Washington.

WASHINGTON, Dec. 1.—The Congressional Committee to investigate the Cotton and Sugar frauds in the New York and other custom-houses will, on Monday, ask leave to remove the seal of secrecy from their proceedings. It is rumored that their report will involve a number of high officials

From the Dry Tortugas.

The following interesting report has been kindly furnished to the United States and European News Association by the Secretary of War of the refutation of the charges of inhumanity against officers at the Dry

Tortugas:
The officer sent to investigate the charge contained in the article in the New York World concerning the treatment of prisoners and soldiers at the Dry Tortugas has just returned and made his report. The following is the concluding portion of

it: "The conduct of the officers in each individual case, mentioned in the World, has been grossly and maliciously misrepresented, but this is not to be wondered at, considering the course of the report immediately after the appearance of the article in question. A search was made in the quarters of the Chicago conspirator, Grenfel, and among his papers was found a draft of the same letter that had appeared in the World addressed to Bradley S. Johnson, who, it is presumed, forwarded it to the World for publication. Grenfel is represented as very unrellable, self-willed and rebelliously disposed, and would be anywhere else a dangerous man. His word cannot be depended upon even in the commonest ransaction of life, and having been deposed rom the position of gardener, he has since endeavored to place the officials in a very unenviable light before the world, by trumping up charges against them for inhuman treatment of the prisoners in their charge. The charges, which, taking their foundation from the most trivial circumstances, were enlarged and exaggerated to such distorted proportions, as only his low and sordid mind is capable of this diary shows that he has been in secret communication with the rebel sympathizers in the South, and that he has been led to believe that strong measures would be taken to effect his re-lease. His game was then to draw attention to the Dry Tortugas, and the supposed atro-cities there committed, and through the instrumentality of the influence thus acquired, secure his release, and enlist in his favor the sympathies of the public. He has mis-

erably failed.

I visited the cells of all the prisoners there, and their cleanly and or-derly appearance spoke well for the care and vigilance exercised by the commanding officer, for the comfort and well being of the prisoners. The prisoners receive the same rations as the enlisted men of the post, and are neatly and comfortably dressed, and the labors revuired of them are of a very light char-

The Fenians.

Buffalo, Dec. 1.—The Stephen's wing of the Fenians was organized here last evening and money and arms was donated for the cause in Ireland.

Roberts, and some of the Fenians present, thought the most feasible work was the in-

vasion of Canada, and opposed the sending of arms and money to Ireland, where they

had no confidence in success at present.

It was stated that officers of experience were required to be sent to Ireland. One man donated a horse and buggy worth \$300. There is some feeling between the two wings, but it is kept down and all seem animated to work in any way that their object can be obtained.

Mining Stocks.

SAN FRANCISCO, Dec. 1.—The following are the quotations of Mining Stocks: Savage, \$1,180; Belcher, \$135; Gould & Curry, \$590; Imperial, \$125; Yellow Jacket, \$1,170; Chollar, \$220; Ophir, \$125; Legal Tenders, 71.

Probable Respite of the Condemned Fenians.

TORONTO, C. W., Dec. 1.—It is understood that the Fenians recently sentenced to death will probably be respited for three months

to await the result of appeals in their behalf before the courts.

Justice Richards yesterday announced that judgment in the case of Slavin would be given to-day, this being the last day of the term, and decisions are expected in the other cases also.

New York Money Market.

New York Dec. 1: 2.15 P. M.—The Post says: The loan market shows symptems of growing ease as 10 call loans and of growing distrust in commercial credits "in ecurrent rate for Government securities is 8, and for choice bills 708. Governments are dull, except new 1865, which bave acvanced to 1885, in consequence of the change in the rule for conversion, which goes into effect today. Sixes of 1865 are more in demand as also 10-188. which goes into effect to day. Sixes of 1865 are more in demand as also 10-40s.

The six ck market is dud, and in view of the opening of Congress and general uncertainty in financial affairs, very little business is doing. Bailroads are irregular and lower. Gold at 2 o'clock was quoted at 10%. After boards stocks were dull and lower. The Bremen takes out 177,000; the Ville de Paris, \$185,000, and the City of Washington \$140,000.

CASTOR WHEELS.

CASTOR WHEELS.

FOR HEALTH AND STRENGTH USE CAPE WELL & CO.'S PATENT GLASS CASTOE WHEELS.

These wheels are designed for Planos, Bedsteads, &o We claim that they give to Planos a greatly increased force of sound, without detracting from the harmony and melody of the instrument, rendering every not more distinct to the ear. This is so apparent that they are now being applied by many to these valuable musical instruments. Dr. Valentine Mott, previous to his death, pronounced the Glass Castor Wheels an in valuable invention for bedfast invalids, who are guarded against the damp floors after undergoing the process of cleaning, or where dampness is produced from any other cause. Aside from this, Housekeeper are relieved from the dread of having their carpets out or torn, as frequently happens from those now in use often caused by a rust, which adheres with glue-like tensacity. No such annoyance can possibly proceed from the Glass Castor Wheels, as we all know that glass is non-corrosive. There are no rough or unfinished edges to the Glass (Basel, as we all know that glass is non-corrosive. There are no rough or unfinished edges to the Glass wheels, as we all know that glass is non-corrosive. There are no rough or unfinished will soos rust, from the dampness of the atmosphere, if nothing else, producing roughness on the surface, or edge, while the former will always maintain the smooth pess of glass, just as they are finished.

By sleeping upon glass wheels you retain all the electricity yen had in your body on retiring, and you get up in the morning feeling as fresh and active as young mas. Glass being a non-conductor, the electricity gained while in bed cannot pass off. Ask your doctor what he thinks of the Glass Castor Wheels Ask him if all diseases, with the exception of chronic dleases, are not caused from the want of electricity we have a man in our place whom the doctors pronounced past curing, with the inflammatory rhee matter.
