SUPERB WEDDING AND HOLIDAY PRESENTS.—The word silver." in cousequence of the war, does not now sugg at the lingling of coin, as it did years ago, and consequently people do not recognize the immense quantities of the preclous metals now consouned, The quantity of silver annually produced is of almost fabulous worth. Some of this is used for coin, but a very large proportion is consumed for plating. A few years ago, when silver plate was adoken of, Entope was immediately suggested, with gay capitalists, courts and banquets, for in America comparatively little was in use, but now silver plates suggested in the secontry show a steady and rapid increase in the use of plate and plated ware. Our merchant princes use it as layishiy as the court princes of the Old World, and, indeed, persons in moderate circumstances in the country indulge in it to an extent u paralleled elsewhere, for shrewd common sense tells them that it is cheaper than china, in being more durable, and certainly being much more ornamental.

The most celebrated establishment in this country for the manufacture of silver plated ware, is that at the N. E. cerner of Ninth and thestinat streets, in this city. Here are employed the most finished and expert article, who constantly produce new, beautiful and unique designs. All of the old members of the firm of John O. Mead & Son are here, and the work is carried on under their immediate supervision. In this establi-hment particular attention is given to the manufacture of hard metal goods, which are fully equal in durability, beauty and finish to the far-famed Sheffield Ware. When the large amount of silver used is considered, these are actually the cheapest. Our readers, who desire to make acceptable wedding and he iday presents that will last as me ments of first shelp for a lifetime, should by all means purchase some article of silver plated ware at the establishment N. E. corner Ninth and Chestnut streets.
