[To the New York Associated Press.] HAMILTON, Dec. 5.—The Provincial Government has purchased in this city, to be forwarded to the Paris Exhibition, a collection of native stuffed birds, said to be the best on the continent. The government has also purchased a splendid set of furniture for the same destination.

Extensive improvements are being made in the military buildings, to accommodate the new artillery equipments. In addition to guns and harness of the newest pattern, the field batteries have been supplied with the Spencer rifle.

MONTREAL, Dec. 5 .- A private letter states that the only surviving descendant of Columbus was shortly to visit America. A large number of French Canadians are returning from the States for the want of

employment. It is reported here that a secret Fenian meeting has been held at St. Albans, but nothing serious is anticipated.

TORONTO, Dec. 5 -A man named James McDevitt, hailing from New Brunswick, has been arrested here for using seditious language, daring the Government to hang the Fenians, &c. He will be examined to-

[To the N. Y. Associated Press.] WASHINGTON, Dec. 5.-General J. M. Thayer and T. W. Tipton, Senators elect from Nebraska, have arrived here. The former has brought with him the constitution of the new State. T. M. Marquette, the Representative elect, will arrive shortly. It is ascertained that the population of Nebraska is nearly 90,000. The memorial and constitution will soon be presented to Congress. An act will have to be passed before these Senators and the Representative can be admitted to Congress.

The heads of the various bureaus of the Treasury Department have joined in a leiter to the Committee of Ways and Means of the House of Representatives, urging the passage of the bill prepared at the last session for the re-organization of the Treasury Department, or one similar. In this letter they recommend an increase of salaries, owing to the fact that experienced clerks, in consequence of the small salaries received, are forced to resign to accept positions with better pay, very much to the inconvenience of the Department.

CITY BULLETIN.

THE LITTLE WANDREER'S HOME.—Some of the reacers of the BULLETIN will remember a concustored the BULLETIN will remember a concustored the content of the reacers of the BULLETIN will remember a concustored the content of the reacers of the content of a wealthy firm, availed hims-if of his confidential relations with the firm to plunder the concern by whole sale, and finally, toconceal historime heat fire to the sale, and finally, toconceal historime heat fire to the counting-house in the hope of desiroying the books. The fire was extinguished, the evidences of Nicholson's double crime were discovered, and the galliy man was senter ced to a term of imprisonment, and died of disease while in confinement.

While Nicholson was at liberty and free from suspicion, he had built for his own use what was then deemed one of the finest mansions in the city. It was located at the southwest corner of Tenth and Shippen streets, and a great deal of expense was lavished in the embellishment of the spaceous spariments. The property pass of not the possession of the creditors of its dishonest builder, and in the evolution of events it has finally became a "Home for Little Wanderers," The structure, are ted by the profits of fraid, is now applied to the purposes of holy charity.

During last winter the BULLETIN took frequent opportunities to direct attention to this institution, which was then located in more contracted quarters, in Shippen street and a though the o. ganization of the concern was far from complete or satisfactory, it was the means of accomplishing a great deal of good during the jsevere weather. Since that time the institution has been entirely remodelled: trustworthy officers have been secured (Mr. G. B. Houghton having been chosen Superintendent), and the "House" is in reading the jsevere weather. Since that time the linsuitation has been entirely remodelled: trustworthy officers have been secured (Mr. G. B. Houghton having been chosen Superintendent) is an time the linsuitation.

The following is a brief summary THE LITTLE WANDSBER'S HOME.—Some

from every quarter. The Mission is not sectarias, for its Board and co labores represent the several leading denominations.

The children received are classified as follows:

Artic-Those given up to the Justitution to be provided with homes in Caristian families.

Second—I hose received into the Day School, and who enough the henefits of bath and wardrobe, who have a substantial dibner, and go home at night.

Third—Those left in the Nursery by poor mothers, who go out to work during the day, taking their little cores some at night.

Quite a number of children who would be without homes were it not for this institution; are now inmates of it, and the demands upon its charity will be largely increased when the inchement season sets in. The benevicient Managers are much in need of aid to enable them to go on in the good work which they have on dertaken, and they confidently appeal to the public for help. On Thanksgiving "ay a call that was made upon churches, Sunday schools, sterekeepers, and citizens generally, was most liberally responded to, and an all most er diess waiety of things to eat, drink or wear were sent in. Such contributions will be constantly needed by the Mission, and, of course, will be always acceptable. The charitably disposed should make a note of it.

Rapid Decline in Gold.

From Washington. [Special Despatch to the Bulletin.] WASHINGTON, Dec. 5.—The Special Committee of Ten, appointed by the Republican caucus to report a plan of business for the caucus to adopt to-night, are ready to report. Among other matters they unanimously recommend that a special committee be

Thus Doolittle, Cowan and Dixon, friends of Johnson, are deprived of their chairman-

TRIAL OF THE FENIAN PRISONERS.

The Trial of the Fenian Prisoners.

By the United States Associated Press.]
SWEETSBURG, O. E., Dec. 5, 10.30 A. M.— The Court has just opened and resumed the murder trial. There are some circumstances connected with Madden's attempt last night to set fire to the jail which indicate the presence of confederates outside. The vessel which Madden had filled with live coals was not one of the jail drinking cups, as previously telegraphed, but in a tin-

box with a cover, which could not possibly have been in the possession of the prisoners when admitted to the jail, as all of them underwent a minute search. It is certain that it must have been conveyed to them in jail. Another circumstance also indicates outside confederates. On Monday, P. M., a person residing in the district was discovered in the jail yard, conversing with the prisoners. The police allowed him to escape, but he is known. Guards are now posted at every point outside where it would be possible to hold communication with the prisoners. Madden is to be kept in his cell for 48 hours, on bread and water to allow him to meditate on the failure of his incendiary

scheme. Montreal, Dec. 5,-It is reported here that the Fenians are holding meetings in St. Albans, and subscribing funds and arms for scme special undertaking.

The military authorities are fully advised of all their movements and proceedings, and are taking measures to prevent any serious trouble arising therefrom.

A large number of French Canadians are returning here from the States, for want of employment.

The Victoria Rifles, of which the late Col. Coward had command, purpose raising a monument to his memory. A private letter received here to-day states that the only surviving descendant of Co-

lumbus will shortly visit this country. A cavalry school of Instruction is to be established here, under the supervision of the officers of the 13th Hussars. A man named McDevitt was arrested yesterday P. M. on a charge of using seditious

language. He will be brought before Court this morning. Fire at Providence.
