COASTOR WHEELS.

WELL & COASTOR COASTOR WHEELS.

These wheels are designed for Planes a greatly increased force of sound, without detracting from the harmony and melody of the instrument, rendering every note force of sound, without detracting from the harmony and melody of the instrument, rendering every note are now being applied by many to these valuable musical instruments. Dr. Valentine Mott, previous to his death, pronounced the Glass Castor Wheels an invaluable invention for bedfast invalids, who are spueded against the damp diors after undergoing the process of cleaning, or where dampness is produced in many other cause. Aside from this Housekeeper are relieved from the dread of having their carpets cui or torn, as frequently happens from those now in use, often caused by a rust, which adheres with gline-like tenacity. No such annoyance can possibly proceed from the Glass Castor Wheels, as we all know that glass is non corrosive. There are no rough or unflicible deges to the Glass Wheels, such as we often find in those of iron, and the latter, though smoothly finished, will sook rust, from the dampness of the atmosphere, if nothing eise, producing roughness on the surface, or edge, while the former will always maintain the smoothness of glass, just as they are finished.

By eleeping upon glass wheels you retain all the elevitricity you had in your body on retiring, and you get up in the morning feeling as fresh and active as a young man. Glass being a non-conductor, the electricity gained while in bed cannot pass off. Ask your doctor what he thinks of the Glass Castor Wheels Ask him if all disabese, with the exception of chronic diseases are not caused from the want of electricity. We have a man hi our place whom the doctors pronounced past curing, with the inflammatory free matism. The wheels cured him in less than four weeks. He is to-day a stout healthy man. These are facts which can be proven on application at our office. No. 203 Race street, Philade
