The Trial of the Fenian Prisoners. Thy the United States Associated Press.]
SWEETSBURG, C. E., Dec. 5, 10.80 A. M.— The Court has just opened and resumed the murder trial. There are some circumstances connected with Madden's attempt last night to set fire to the jail which indicate the presence of confederates outside. The vessel which Madden had filled with live coals was not one of the jail drinking cups, as previously telegraphed, but in a tin box with a cover, which could not possibly have been in the possession of the prisoners when admitted to the jail, as all of them underwent a minute search. It is certain that it must have been conveyed to them in jail. Another circumstance also indicates outside confederates. On Monday, P. M., a person residing in the district was discovered in the jail yard, conversing with the prisoners. The police allowed him to escape, but he is known. Guards are now posted at every point outside where it would be possible to hold communication with the prisoners. Madden is to be kept in his cell for 48 hours, on bread and water to allow him to meditate on the failure of his incendiary scheme.

MONTREAL, Dec. 5.—It is reported here that the Fenians are holding meetings in St. Albans, and subscribing funds and arms for some special undertaking.

The military authorities are fully advised of all their movements and proceedings, and are taking measures to prevent any serious trouble arising therefrom.

A large number of French Canadians are returning here from the States, for want of employment,

The Victoria Rifles, of which the late Col. Coward had command, purpose raising a

monument to his memory. A private letter received here to-day states that the only surviving descendant of Columbus will shortly visit this country.

A cavalry school of Instruction is to be

established here, under the supervision of the officers of the 13th Hussars. A man named McDevitt was arrested yesterday P. M. on a charge of using seditious language. He will be brought before Court

The New York Money Market. The New York Money Market.

New York, Dec. 5-230 P. M.—The stock market is unsettled. Governments are firmer without much activity. Railroads depressed by rumors of a possible stringency and disinclination of the public to operate in stacks. Guidhas sold down to 139% ou rumors of heavy sales making and to be made by Government. The loan market is more active at 6@7 cents—not so much easiness. The change however is not positive, bisc unts dull at 7-for cheice names at short dates. Lougdate paper is regarded with dislike and passes slowly. After the stock board the market was dull and drooping.

### CASIOR WHEELS. OR HEALTH AND STRENGTH USE CAPE WELL & CO.'S PATENT GLASS CASTON WHEELS.

GOR HEALTH AND STRENGTH USE CAPR
WHELL & CO.'S PATENT GLASS CASTOI
WHEELS,
These wheels are designed for Planos, Bedsteads, &c
We claim that they give to Planos a greathy increase
force of sound, without detracting from the harmon
and melody of the instrument, rendering every not
more distinct to the est. This is so apparent that they
are now being applied by many to these valuable mu
sical instruments. Dr. Valentine Mott, previous to hit
death, pronounced the Glass Castor Wheels an in
valuable invention for bedfast invalids, who an
guaded figuiest the damp floors after undergoing the
process of clenning, or where dampness is produced
from any other cause. Aside from this Housekeeper
are relieved from the dread of having their carpets out
or torn, as frequently happens from those now in use
often caused by a rust, which adheres with glue-like
tenacity. No such annoyance can possibly proceed
from the Glass Castor Wheels, sat we all know that
glass is non-corrosive. There are no rough or unfinished, will soon rust, from the dampness of the atmost
phere, if nothing eight, producing roughness on the sturface, or edge, whilf hee former will always maintain
the smoothness of glass, just as they are finished.

By sleeping upon glass wheels you retain all the electricity you had in your body on retiring, and you get
up in the morning feeling as fresh and active as young max. Glass being a non-conductor, the electricity gained while is bed cannot pass off. Ask your
doctor what he thinks of the Glass Castor Wheels.

Ask him if all diseases, with the exception of chronic
diseases are not caused from the want of electricity
we have a man in our place whom the dectors pro
nonned past curing, with the infammatory rhen
maitsm. The wheels cured him in less than four
facts which can be proven on application at our office.
