GOOD-NIGHT. BY W. A. KENDALL.

Good-night-good-night! The hour of parting brings the hour of dreams;

Be thy sleep calm and deep. A spell of down on silky eyelids laid; Retween our pillows distance only seems. Darkness is a transparent shade, And sweetest speeches silences inclose, Like roses perfume folded in the rose— Growing intense as silence deeper grows: Still nearest and dearest, Thy heart and mind will keep;

Through the dim startime, into the far clime. Down Slumber's fathomless stream, We shall float together, in balmy weather, With thoughts of bliss agleam; Good-night!

Good-night-good-night! Those parting words are but a tender cheat; We know whether we go Beyond arms' reach or wide as worlds

Together we shall throb at each heart-beat;
Thrilled by the same electric dart,
Shot from the arch god's arched bow,
Through either bosom's wall of snow— Forever and forever be it so!
Though far as star from star,

Twin souls will interflow; All the dusks between are a flimsy sheen, But silver threads the tides, And every "good-night" is a well of delight, Where Love transfigured hides; Good-night!

OFF BULLETIN.

THE REORGANIZATION OF THE FIRE DE-PARTMENT.—A meeting of the City Council Committee on Trusts and Fire was held last evening, in the Common Council Chamber, to consider the bill lately offered by Mr. Evans, of the Ffteenth Ward, to reorganize the Fire Department of this city. Delegates from various fire companies were present, and protested against the proposed ordinance. A free interchange of opinion was had among the members of the Committee and the fire delegates; after which the fire-men were requested to withdraw. The sec-tions of the bill offered by Mr. Evans were

then taken up separately.

The first section, providing for the appointment of the Mayor, the Chief of Police, Fire Marshal, and the Presidents of Select and Common Councils, as a Board of Fire Commissioners, was amended by striking out the Chief of Police and inserting a Fire Commissioner, to be elected by the Directors of the Fire Department, to be chosen from the Department.

The second and third sections were

adopted as previously reported. They are as follows:

That all complaints or charges shall be presented to said Board, and said Board shall have power to suspend or disband any fire company for riotous or disorderly con-duct, on finding them guilty of the charges preferred, and said decision shall be final. The Chief Engineer of the Fire Department, and his assistants, shall be subject to

such rules and regulations as the said Board may prescribe; and charges being preferred against the said Chief, or his as-sistants, for misconduct in office, or neglect of duty, the said Commissioners shall proceed at once to hear and determine the same and, if found gullty, the Commissioners shall dismiss them, and their salaries shall cease from the date of their dismissal.

CARNIVAL BALL, AT THE ACADEMY OF Music.-Our readers should take note, that Mesus.—Our readers should take note, that Messrs. Abel & Risley, so popularly known for their various Carnivals and Fancy Dress Balls, the past four seasons, have opened their sucception books for "La Cotarie Fancy Dress and Bal Deguise," to come off at the Academy of Music, on Monday, Jan. 14th. 1867. The list was commanded some 14th, 1867. The list was commenced some three weeks since, and already numbers over 800 names of some of our most prominent and estimable citizens. The good taste ent which have marked their former exertions to please the fashionable and amusement-loving public, will, we feel certain, from what we have learned, be exceeded by the splendor, lavish outlay, and beauty, which they are determined shall make this an even greater success. beauty, which they are determined shall make this an even greater success. All that art can accomplish, or money produce, will be achieved in the Ball, by their united efforts, and we counsel all who wish to share in the pleasure of the gala night, not to delay entering their names upon the subscription books. Otherwise, they may find that, large as the Academy is, the number of tickets required to fill it, may have been disposed of, and the three obliging gentlemen we have named may be compelled. disposed of, and the three obliging gentlemen we have named may be compelled, greatly against their wishes, to avoid selling any more to scores or hundreds of the disappointed. The books are open for subscribers, and tickets ready, at Peterson's Book Store, 306 Chestnut street, and Risley's News Depot, at the Continental Hotel.

CHURCH IMPROVEMENT. - For some months past the First Presbyterian Church, months past the First Presbyterian Church, Northern Liberties, on Buttonwood street, below Sixth, has been undergoing very extensive improvements, which speak well for the taste and vigorous life of the congregation worsniping there. The interior has been entirely remoddled, a new marble pulpit of beautiful design and admirable size has been constructed, the ceiling and walls have been finely frescoed, the pews have been richly upholstered, and the floor elegantly carpeted. Walnut inside shutter blinds have been put up, unique gas fixtures introduced, etc., while the exterior has been repainted and the front altered so as to correspond with the improvements as to correspond with the improvements within. The whole cost we understand is about \$13,000. This edifice, now one of the most handsome churches in the city, will be re-dedicated next Sabbath (Dec. 9th). The sermon in the morning will be preached by the pastor, Rev. T. J. Shepherd, D. D., and in the evening by Rev. Daniel March, D.D. These services will no doubt be very interesting and fully attended.

THE FALLING OF A BREWERY AT BEL-MONT.—The Coroner held an inquest yes-erday, on the body of Charles Morris, a stone mason, who was killed by the falling of a brewery, in the course of construction at Belmont, in the Twenty-fourth Ward, on Wednesday last. Mechanics at work at the building were examined as witnesses, and the carpenters testified that the stone walls were not properly tied together; while the stone masons testified that the cause of the fall was not the want of a proper continuous. struction of the walls, but was due to the lintels over the window heads not being of sufficient thickness, to the joist placed on them extending too far through the wall, and to an attempt to wedge the wall up

when it began to settle.

The jury rendered the following verdict:—

That the said George Morris came to his death by the falling of a building at Belmont, Dec. 5, 1866. From the evidence before us, we censure Messrs. Grace & Carlin, contractors for the stone work for the had contractors for the stone work, for the bad workmanship in the construction of said building, as it was in evidence that the walls were not properly tied, and using mortar of an inferior quality."

FAIR.-During Wednesday, Thursday and Friday of next week, there will be a sale of useful and fancy articles at the Church of the Covenant, on Filbert street, above Seventeenth. The sale will be for the benefit of the church, and the ladies of the congregation have made extensive prepara-

ions for it. CUT WITH A HATCHET.-William Peterson, a little boy of five years, living at No. 2038 Green street, while playing with a young companion, yesterday afternoon, had his nose nearly cut off by a hatchet in his playfellow's hands

A Model Paper.-The Watchman and Reflector, of Boston, has an enviable reputation for ability and enterprise. It has not been surpassed in merit by any religious journal in the country. But it aspires to higher excellence, and proposes to become, with the opening of the New Year, one of the most comprehensive family papers in the world. It will be greatly enlarged, and published on a double sheet; one sheet devoted, as hitherto, to religious matter, the other to literary, social, monetary, and agricultural articles. This latter department will be new and peculiar, with a rich variety of contents, embracing articles on current moral, social and political on stions; on the leading men of the age in thought and action; reviews of important books; tales for the family circle; agri-cultural and gardening matters for farmers; and moretary articles and reports of the markets for busi-

ness men.

No Journal in the world certainly has a more com I rehensive plan to meet the wants of all families and of all the members in a family; and as the editorial staff will consist of nine men, all able and experienced in the several departments, who will be assisted by thirty contributors, many of them having a national reputation, the Watchman and Rejector must become s model family paper, unequaled in merit and in circu. lation. Its enterprising conductors deserve the largest success. We refer our readers to advertisement in an other column.

Indian Delegation to Paris .- It has been definitely settled that a large delegation from the Aorthwest tribes of Indians are to be sent to Paris as a contribution from the United States to the Exposition. The Indian Bureau and Colonel Rowland, the Commissioner of the Northwestern States and Territo rica, have extended every facility in their collections. Mr Henry C.Jarrett will take the management of the party. They will carry with them their various cos-tumes, wigwams, war and agricultural implements, and will form the only contribution from the United States to the tenth group within the limits of the Ex-position. There will be some interesting products of the United States at the Exposition, and none more important than samples of the expellent Pearwallent mportant than samples of the excellent Pennsylvania coal sold by W. W. Alter, 957 North Ninth street, and Sixth and Spring Garden streets.

EVER VICTORIOUS.—Wherever the Wheeler & Wilson Sewing Machines are exhibited for compelition, they are crowned with victory. They are adapted to all kinds of work, easily operated, as idom if ever get out of order, and with care last a lifetime. Hundreds of persons have called upon their niethe. Hundreds of persons have called upon their agents for their sale in this city (Messrs. Petersoff & Little, No 704 Chestnut street); with a view to secure a Wheeler & Wilson for other machines.

THE daily sessions of Congress are very dull. We have had a session of several days, and no fight. Is Mr. Morrissey going to sit by and see this thing go on, or has he some of the leaders of the Republican and Democratic parties in training, so as to get ready for an exciting debate. We know things will hereafter be carried on on scientific principles, it is by science that we are enabled to dress so nicely and chearly as we do—those of us who deal at Charles Stokes & Co. Sirst-class Ready-made, under the Continental.

ELEGANT CONFECTIONS.—At this season ELEGANT CONFECTIONS,—At this season of the year the mind naturally reverts to confectionery and the steps of appreciative humanity as naturally tern in the circuit of the famous establishment of E. G. Whitman & Co., No 315 Chestnut street, below Fourth. Their stock was never in better condition: choice, elegant and delicious, and what is quite as important, unquestionably pure and unimpeachably wholesome. E. G. W. & Co. are making the most extensive preparations for the holiday season, and a visit to their extensive establishment would richly compensate the visitor.
