The ordinance from Common Council authorizing the erection of an additional market house on Gleard avenue was concurred in, sho the ordinance on along an appropriation to the sinking fund for 1887; also the ordinance making a transfer to pay the spring Garden House Company for services prior to the location of the company as a steam fire englic ecompany.

The ordinance from Common Council fixing the tax raise was taken up.

Air. Free man moved to fix the rate at \$4.75 instead of \$4, 38 adopted by Common Council. He contended that even with \$4.75 it would be necessary to keep the estimates down to the lowest figures. He deprecated the policy which would increase the debt or the city by funding \$1.500,000, instead of paying the current expenses of the year by the taxation of that year. A proper rate now will lead the people to insist upon a petter assessment of real estate. He knew of property at Chestnut Hill valued at \$1.25,000, assessed at \$5.000, assessed at \$5.000, and the only way to secure a change is to make the people teel that it is necessary to after the basis of assessment. anseament.

Mr. Hodgdon opposed the increase to \$4.75. The people were already aufficiently taxed by the General Government, without adding this burden, and to drive capital from as and interfere with the improvement of the city. He denied that the funding of the loan would increase the city delt. The outstanding warrants row hear interest it the loan is created to pay these warrants we merely pay the interest on the loan instead of the interest on the warrants. If we go on increasing the rate of faration, we will discourage improvements, and thus materially affect the prospert, of Philadelphia.

in Philadelphia, within a quarter of a century when real estate was more promisable than during the past year.

The argument was continued at some length by Messrs. king, Smith, Page and others, the improper assessments being referred to as the cause or all our financial troubles. It was suggested that the only remedy for this is to make the people understand that they are interested, and then they will correct the areassments and feet the result in occreased taxation. The amendment to fix the rate at \$4.75 was not agreed to. Yeas—Bamm; Freeman, Gray, Page, Sheiman and Spering—6. Nays—Barlow, Hoogdon, Hopkins, Jones, Ki. g., Marcus, Manuel Ricone, Shaheres, Smith, Van Cleve and Wagner—12.

CONTROLLERS OF THE PUBLIC SCHOOLS.

—A stated meeting of the Board of School Controlters was held yesterday alternoon. Among the communications were the following: From the Second Sebitin asking that Councils be requested to purchase the lot of ground on Carpenter strees, north side, above Sixth, for school propess; from the Twentieth ection, requesting the establishment of a Boys' and Girl's Secondary of five divisions each, on Warnock street, above Oxford, the number of applicants walting admission warranting the same; from the Twentyscand Section, asking that Councils be requested to purchase a lot of ground for school purposes, on Boysl street, in the village of Pituville; from the Twentyscand Section, asking that the balance of the million loan unappropriated, apportined to that section, be applied to the building of a Grammar School-house thereon. The communications were appropriately referred.

A communication was received from the male principals of the Public Schools asking favorable action upon the proposition to increase their salaries. They say that they deem it unnecessary to present in detail all the constiterations which urge them to make the application, inasmuch as their claims were acknowledged last year, not only by the action of the Controllers, but also by the members of Councils and the citizens of Philadelphia. Reference is made to the increase in the prices of the nace and other cities. They ask that the salaries of the mate principles be increased from fifteen hundred to eighteed hundred dollars, and those of other leacues appropriate recommendation.

The Committee on Accounts reported that they had approved of bills amounting in the whole to \$1.9.727 04, for which warrants were directed to be drawn.

A memorial was received from the female teachers of the public schools, asking for an increase in their salaries, the amounts now paid, they say, being "abso lutely insufficient for a proper maintenance in life." They refer to the fact that \$450 per annum is the large est amount paid to any of the female teachers, exception they principals of the Grammar Schools.

The communication was referred to Councils with a favorable recommendation.

Mr. Shippen offered the following:

Whereas, A gents and others interested in the sale of books and supplies have been in the habit of visiting the public schools, with a view of interesting teachers in their books and other supplies, and obtaining their inducence for the introduction of the same in schools of this district, thus consuming the valuable time of the teachers, which belongs to the public, and not to the book agents; therefore
