WASHINGTON, Dec. 12.—Official advices received at General Grant's Headquarters. from General Sheridan, add nothing of importance in reference to affairs on the Rio Grande to the newspaper reports already published. A detailed report in reference to recent occurrences in that quarter, is expected from General Sheridan, by mail, in a few days, and it is not deemed advisable to anticipate it by the publication of his telegraphic despatches.

### Interesting from New Orleans.

[By the U. S. and European Associated Press.]
NEW ORLEANS, Dec. 12.—The City Councils last night adopted resolutions setting aside a room in the City Hall and all its conveniences for the accommodation of the Congressional Committee to investigate the New Orleans riots.

Important from Mexico. NEW ORLEANS, Dec. 12.—The New Orleans papers contain to-day additional Mexican news, furnished by Col. John G. Fisher. Gen. Castelnau arrived at Vera Cruz, just Gen. Castelnau arrived at Vera Cruz, just as Gen. Donaly, with his troops, (in the latter part of October), was about embarking. The troops immediately returned to the city of Mexico, and left for Oaxaca on the 26th of November, recapturing that place from Diaz, who had taken from the Austrian troops about 3,500 men in brigades, on the march to Oaxaca.

march to Oaxaca.

Maximilian has about 2,000 Belgians. 15,000 Austrians, 30,000 Mexican Imperialists, and 25,000 French troops, armed, clothed, fed and paid (including officers), fifteen

days in advance.
On the 3d of December, Maximilian issued a proclamation declaring his intention to remain in Mexico.

A great inducement for Maximilian to re-

main was the arrival of Miramon and Marquez from Europe. They pledged themselves to a war with Mejia against the Lib-Marquez's headquarters were at Puebla,

and Miramon's at Guanapuata. Mejia was at San Luis Potosi, where he now is. General Vidaurri has been appointed Special Commissary of the Department of Monterey.

The States in Mexico are no longer known

as such, the imperial rule having converted them into Departments, several States to compose a Department.

The statement that General Sherman has denied admission in Vera Cruz is untrue. It was supposed that he wished to hold a

conference with Castelnau, and orders were given to the Prefect to put an extra train at his disposal, and afterwards a guard coach from the railroad terminus, with a hundred French, soldiers, and thus conduct him to the city of Mexico.

The Susquehanna anchored about six miles from Vera Cruz, but did not go into

the harbor.

Instead of the troops going away, there was good reason for believing that more are on the way. The prospects of Maximilian were improving.

St. Louis, Dec. 12.—A number of the merchants of this city contemplate calling a convention of manufacturers and business men of the Mississippi valley, for the purpose of establishing a Bureau, through which all necessary information may be acquired in regard to the crops, manufacturing operations, shipments and stocks, grain and flour at different points and periods.

Nathaniel Paschall, Sr., editor of the Missouri Republican, died at four o'clock this morning, aged six-four years.

He commenced the printing business as an apprentice at the Republican office, 52 years ago, and was the oldest editor west of the Mississippi river, if not the Allegheny Mountains, and was regarded as one of the most influential citizens of St. Louis and

SWEETSBURG, C. W., Dec. 12.—The Court met at 9.30 A. M. Mr. Devlin proceeded to argue the second plea to the jurisdiction, the Court contending that the [m-perial statute 11 and 12 limiting punishment for such offences as are charged against the prisoners to transportation or imprisonment is in force in this Province, and that his clients should have been indicted under this act. He has now commenced to argue his clients should have been indicted under this act. He has now commenced to argue his plea in bar, that the prisoners cannot be tried under an expost facto law, which he contends is the character of the act under which the indictment is laid.

CASTOR WHEETS.

CASTOR WHEELS.

FOR HEALTH AND STRENGTH USE CAPR WELL & CO.'S PATENT GLASS CASTOR WHEELS.

These wheels are designed for Pianos, Bedsteads, &n. We claim that they give to Pianos a greatly increased force of sound, without detracting from the hardnony and melody of the instrument, rendering every note more distinct to the ear. This is so apparent that they are now being applied by many to these valuable musical instruments. Dr. Valentins Mott, previous to his ceath, pronounced the Glass Castor Wheels an invaluable invention—for bedfast invalids, who are grarded against the damp floors after undergoing the process of cleaning, or where dampness is produced from any other cause. Aside from this, Housekeepers are relieved from the dread of having their carpetagui or torn, as frequently happens from those now in the offen caused by a rust, which adheres with gine-like tenacity. No such annoyance can possibly proceed from the Glass Castor Wheels, as we all know that glass is non-corrosive. There are no rough or unfinished edges to the Glass Wheels, such as we often find in those of iron, and the latter, though smoothly inshed, will soon rust, from the dampness of the atmosphere, if nothing elsa, producing roughness on the surface, or edge, while the former will always maintain the amoothness of glass, just as they are finished.

By sleeping upon glass wheels you retain all the electricity you had in your body on retiring, and you get up in the morning feeling as fresh and active as a young mas. Glass being a non-conductor, the electricity gained while in bed cannot pass off. Ask your doctor what he thinks of the Glass Castor Wheels Ask him if all diseases, with the exception of chronic diseases are not caused from the want of electricity weeks. He is to-day a stont healthy man. These as if facts which can be proven on application at our officion.
