Depths of the Sea.

A French journal says that the soundings for the new transatlantic cable have enabled comparisons to be made of the depths of the different seas. Generally speaking, they are not of any great depth in the neighborhood of continents; thus, the Baltic, between Germany and Sweden, is only 120 feet deep; and the Adriatic, between Venice and Trieste, 130 feet. The greatest depth of the channel between France and England does not exceed 400 feet, while to the south-west of Ireland, where the sea is open, the depth is more than 2,000 feet. The seas to the south of Europe are much deeper than those in the interior. In the narrowest part of the Straits of Gibraltar the depth is only 1,000 feet, while a little more to the east it is 3,000 feet. On the coast of Spain the depth is nearly 6,000 feet. At 250 miles south of Nantucket (south of Cape Cod) no bottom was found at 7,000 feet. The greatest depths of all are to be met with in the Southern Ocean. To the west of the Cape of Good Hope 16,000 feet have been measured, and to the west of St. Helens 27,000. Dr. Young estimates the average

depth of the Atlantic at 25,000 feet, and of the Pacific at 20,000 feet. SINGULAR ACCIDENT.—The Tidioute Journalsays: A singular occurrence took place this morning at the Hague well, from which oil-men may learn a lesson. One of the tanks (in which were a few inches of oil) tanks (in which were a few inches of oil) leaked and a man jumped in to caulk it; he had been in but a few minutes when, overcome by gas, he fell backward. Mr. Hague and another jumped in to rescue him, but believing him dead, and feeling sick, speediy sought to escape when they found themselves took weak to drag themselves out and commenced shouting. Mr. Granger and others happening in the neighborhood, heard their ories, and getting ropes hauled them out, when all three recovered.

COLD WEATHER.—The Omaha (Nebraska) Herald of the 4th instant, says that a snow Herald of the 4th instant, says that a snow storm and cold, freezing weather lately visited that place. The Platte was filled with floating ice. The Leavenworth (Kansas) Times of the 11th says, that Sunday night was the coldest of the season. The mercury early Monday morning was within four or five degrees of zero. During the evening it had grown decidedly milder. BEQUEST.—James Parker, who died recently in Litchited, N. H., left by will twenty thousand dollars to the Presbyterian church in that town.

COAT.

NIST PRIUS—Justice Thompson.—Merrick & Son vs. The Germania, Hanoyer, Fulton and Scotland Fire Insurance Companies of New York. This was an action to recover new York. This was an action to recover upon policies of insurance on the Southwark Foundry which was partially destroyed by fire in the early part of 1865. Plaintiffs claim that their loss was \$61,801,

which included the machinery of the Chat-tanooga and other vessels that they were building, and which loss was proportioned among all the insurance companies. Defendants claim that their policies did not cover the machinery of these vessels, and that its value ought to be deducted from the full amount, and that they then should be charged with their respective proportions of the loss on the balance. Defendants have already paid \$3,029 each on their policies, which they say cover the pro-portions of all they agreed to insure. Plain-tiffs claim a balance of \$1,117 39 from each

company. On trial.

QUARTER SESSIONS—Judge Peirce.—The case of James Falby, charged with riot and assault and battery, is still on trial.

THE CHOLEBA IN TURKEY.—The Hon. E. Joy Morris, our Minister resident in Turkey, in a letter to the Secretary of State, dated Nov. 15th, 1866, says: "I regret to be obliged to announce the reappearance of cholera at Constantinople. It broke out a few days since at Octakem, a neighboring village on the Bosphorus, and out of twelve cases reported from that locality up to this date, eight have terminated fatally. Four cases and two deaths have also occurred at the arsenal, on the Golden Horn, whence it extended itself in the summer of 1865 over the whole city. One death from apoplectic cholera is reported from Bebek. The disease at present threatens to ake an epidemic form. If it should become

epidemic, it must be very fatal, as the winter here is generally mild in temperature, and much suffering exists in consequence mong the population, the great bulk of which live in miserable tenements, and are cantily clad and ill provided with the necessaries of life. It is to be heard that it ressaries of life. It is to be hoped that we are not to witness a repetition of the horrors of 1865, when fully 50,000 people were swept off in six weeks by this scourge of humanical.

ONE HUNDRED DOLLARS A MILE.-The ONE HUNDRED DOLLARS A MILE.—The case of George W. Hauk, against the Pittsburgh, Fort Wayne and Chicago Railroad Company, in the Richland county, (Ohio), Court of Common Pleas, resulted in a verdict for the plaintiff of \$400, at the last term of the Court. Major Hauk, in traveling from Mansfield to Crestline, failed to purhase a ticket before entering the cars, the price of which was fifty cents. The conductor, in collecting the fare, demanded eighty-five cents, which is the rate fixed by cighty-five cents, which is the rate fixed by the company between the points when the passenger has no ticket. Mr. H. refused to any the extra thirty five cents, whereupon the conductor rang the bell, the train stopped, and he was put off. Before leaving the large Mr. H. offered in the hearing of the ars, Mr. H. offered, in the hearing of the passengers, to pay the eighty-five cents de-manded, but the conductor told him it was roo late, and that he must get off, which he did, and was compelled to walk to Crestline, a distance of four miles, for which he now receives \$100, or \$100 a mile for the distance.

THE KEEPER of the lighthouse at Calais was boasting of the brightness of his lan-tern, which can be seen ten leagues at sea, when a visitor said to him, "What if one of the lights snould go out?" "Never! imthe lights should go out?" "Never! impossible!" he cried, horrified at the bare thought. "Sir," said he, pointing to the ocean, "yonder, where nothing can be seen, there are ships going by to all parts of the world. If to-night one of my burners went world. It to-night one of my burners went out, within six months would come a letter —perhaps from India, perhaps from Ame-rica, perhaps from some place I never heard of—eaying, on such a night, at such an hour, the light of Calais burned dim, the watchman neglected his post, and vessels were in danger. Ah! sir, sometimes in the dark in stormy weather, I look out to the sea end feel as if the eye of the whole world was looking at my light. Go out? Burn dim? Oh, never!"

A Fossil.-Mr. Elliott, of the Montana Post, is the fortunate possessor of a remarkable fossil, which was accidentally discovered by some miners in Bivin's Gulch, Montana, and for which Mr. Elliett has already refused one thousand dollars. It is a molar tooth, taken from a fragment of jawbone five feet in length, and weighing fifty-seven pounds. The tooth itself weighs three pounds, and is described as "of curions configuration, not unlike a cluster of four beavers' claws overlying each other. It is believed in Denver city to be the largest fossil of the kind yet discovered.

FORGERY.—Sheriff Bysher, of Montgomery co., Pa., has been made the victim of a forgery to the amount of \$331, the discovery of which was made only a few days ago. It appears that in October last, a check for that amount, payable to the order of one Gleason, purporting to have been signed by the sheriff, was cashed at the Montgomery National Bank. On last Thurs-day it was discovered that this check was a forgery. It had every appearance of genu-ineness, the signature being a perfect fac simile of the sheriff's, and it is not surpris-ing that the bank officers were deceived. The loss is, of course, borne by the bank. SOUTHERN TEA.—Southern tea is spoken of by the Southern Cultivator as something

worthy of attention. It has tested a sample raised by Mr. W. Jones, of Liberty county, Ga., and pronounces it to be in fragrance and flavor precisely the same as a fine article of black tea. ENLARGEMENT OF FOREST COUNTY.-The Warren Mail says that Governor Curtinhas signed the bill attaching part of Venango to Forest county. Tionesta is to be the county seat of the now respectable looking

county of Forest.

This machine combines all the excellencies, but none of the defects of other Sewing Machines with which we are acquainted. The great variety of work that can be accomplished by its four different stitches, the reversible feed motion, the self-acjusting tension, the rapidity and quality of the work done by it, clearly demands of us the award of the Society's highest premium—its silver medal."

At the NEW HAMPSHIRE STATE FAIR, held at Nashua, Sept. 1865, the "FLORENCE" was awarded the highest premium given to Sewing Machines.

At the MRCHANICS' ASSOCIATION FAIR, held n Boston, September, 1865, the "Florence" received a silver Medal and Diploma, together with all other ewing Machines on exhibition.

At the late STATE FAIRS of Pennsylvania. Ohioud California the Florence was awarded the highest oremism over all competitors. The verdict of the copie is unanimously in favor of the Florence on account of its many advantages over all others. Must be seen to be appreciated. Cali at the office, 630 Chestnut Street.
