THE TALLOW TREE.—The tallow tree of The Tallow Tree.—The tallow tree of China, which gives rise to a vast trade in the northern parts of that empire, has been introduced into India. It grows with great luxuriance in the Dhoons and in the Kohistan of the North-western Provinces and the Punjab, and there are now tens of thousands of trees in the Government plants. the Punjab, and there are now tens of nou-sands of trees in the Government planta-ticns of Kowlaghir, Hawul Baugh, and Ayar Tolie, from which tons of seeds are available for distribution. Dr. Jameson prepared from the seeds 100 pounds of tal-low, and forwarded 50 pounds to the Punjab Beilway in order to have its properties as low, and forwarded 50 pounds to the Punjab Railway, in order to have its properties as a lubricator for railway machinery tested. For burning the tallow is excellent; it gives a clear, bright, inodorous flame, and is without smoke. The tree fruits abundantly both in the Dhoons and plains, and grows with great rapidity, many trees raised from seeds introduced eight years ago being now six feet in circumference at three feet from the ground. The timber is white and close grained, and well fitted for printing-blocks. The leaves, too, are valuable as a dye. a dye.

"THE RULING PASSION."-A good illustration occurred a few days since of the strength of "the ruling passion" even in death. An old man in his last illness was death. An old man in his last illness was admitted into one of the metropolitan hospitals. He was without relations, friends, or apparent means of subsistence; but when undressed and put into bed a bag of money was found suspended by a string round his neck. To this he clung with tenacity, refusing to part with it to any one, and wearing it about him by day and night. As his end approached the treasure became a matter of anxlety to those tending him; for the sum was evidently large, and it was feared that it might offer temptation to some patient in case the moment of and it was feared that it might offer temptation to some patient in case the moment of his death should be unobserved. At length the hour arrived, and when death had apparently claimed him a nurse geatly unfastened the string and removed the bag. At the same moment the old man opened his eyes and felt instinctively for his treasure, which was no longer in its place. He uttered the word "Gone!" and died. The money, which was found to amount to £174, was handed over to the hospital authorities.

FROM BALTIMORE, SLAVERY NOT YET DEAD.

4,428,396 Four Negroes Sold at Auction.

Death of the Portuguese Minister

Slavery in Maryland.

[To the U.S. Associated Press.] BALTIMORE, Dec. 24.—Four negroes, two men and two women, were sold as slaves for one year before the court house at Annapolis, on Saturday last, having been onvicted of larceny; one of these an old negro named John Johnson, boldly bid himself in, and was struck off at \$37; another man was bought by his brother for \$35, and one woman for \$25, another girl for \$27. They were sold by order of Judge Magruder, who is so extreme in his pro-slavery and State rights views that he is straining the law in every case. These negroes are of the worst class of blacks, and were all anxious to be sold, preferring either to buy themselves in or serve a year as a slave than go to the penitentiary. He is anxious to make a case to go before the Supreme Court, to test the civil rights bill, holding with Judge Taney that the black man has no rights which the white man is bound to respect. Magruder has been indicted by the grand jury of the United States Court for disregarding the civil rights bill, and refusing negro testimony, and pleads guilty to the charges,

wishing to push them before the Supreme Court. As these sales take place within sight of the executive mansion, it is presumed hat Governor Swann approves of the course of the Judge, who is also enforcing the negro apprentice law to the fullest extent of the law, and even straining it against the negro:

Suits have been brought against fathers, orharboring apprentices who have been released by other courts, and writs of replevin got out against the children, and they seized as chattels, the judge maintaining that under the laws of the State, the black man is a chattel.

The negroes sold on Saturday would probably have brought higher prices, but for the presence of Captain Vanderlip, of the Freedmen's Bureau, who it was thought would have seized them as scon as the sales were over.

A warrant was issued this morning by U.f S. Commissioner Brooke, on the oath of Captain Vanderlip, of the Freedmen's Bureau, for selling the above-mentioned negroes on Saturday. The case will probably be heard this morning.

Death of the Minister of Portugal. [To the New York Associated Press.] YORK, Dec. 24.-J. C. Fiquaniere, Minister of Portugal, died at I o'clock this morning, at the residence of his son, in Brooklyn, at the age of 68. He was the oldest member of the Diplomatic Corps resident in this city.

From Texas and Louisiana.
[To the N. Y. Associated Press.]
BALTIMORE, December 24.—The Texas papers received here contain a statement that the Government sheds at Brazos had all been taken down and removed to Brownsville, where they will be turned into winter quarters for the troops in that locality.

Emigrants from Virginia are arriving in Texas with a view to settlement. The prices of all kinds of goods have

fallen materially at Galveston. Some of the pioneer emigrants to Brazil have returned to Texas, declaring that their own homes, after all, are the best for them. There are indications of an active demand for cattle in Texas for the California market. The Baton Rouge Gazette regards the recent rise in the river as only temporary.

The work of repairing the Baton Rouge and Opelousas Railway is rapidly progressing, and it is expected that it will be ready for business in the course of a month or two Sugar making in Louisians is progressing with energy, and the quality is represented as being very fine.

From Chicago.
[To the N. Y. Associated Press.] CHICAGO, Dec. 24.—The excavation for the tunnel under the south branch of the Chicago river, at Washington street, had on Saturday reached the depth of 40 feet. During Saturday night one side fell in, carrying away the engine and hoisting apparatus and filling the excavation to the depth of 25 feet with water. The cause of the slide was a defect in the temporary bank. The loss will reach \$5,000.

The shoe-store of John S. Brockman, at Rock Island was burned on Saturday; at 2 o'clock, and the adjoining buildings somewhat injured. The total loss was \$20,000, which was insured in Hartford companies
