# Quixotic Plan of New Orleans Filibus-ters to Avenge Maximilian---Slow Filling Up of the Expeditionary Ranks.

Namks.

New Obleans, July 12, 1867.—Some additional lacts in the budget of absurd rumors have cozed out, or rather have been elicited, concerning the formation of the new filibustering expedition to Mexico, and that several exconfederates and excentions of Welker are endeavoring, with more followers of Walker are endeavoring, with more enthusiasm than money, to fit out an expedition of the sort, is now placed beyond a doubt.

of the sort, is now placed beyond a doubt.

The first attempt at organization was made by General Henningsen, of Nicaragua notorioty, propped up financially by Colonel Pickett, late of General Lovell's staff, who won some little distinction in the Confederate service. The expedition set on foot by these gentlemen proposed to tion set on foot by these gentlemen proposed to rescue Maximilian, and retiring into northern Mexico, compel either Juarez or the house of Hapsburg to pay liberally for possession of the princely prisoner. This was three or four days before the rumor of Maximilian's execution artified leaves and analysis of the princely prisoner. before the rumor of Maximilian's execution arrived here, and volunteers were not enlisted or equipped with, however, any great degree of celerity. Money was not liberally subscribed even among those who were anxious to get rid of the vagabonds enlisted, and generally the affair progressed unfavorably, until the embers of enthusiasm were suddenly stirred by the tidings of the Emperor's death.

Emperor's death. There are now engaged in the engineering of the enterprise several ancient followers of Walker, well-known about town, and some half a dozen restless Confederate officers, who have a dozen resuess Confederate officers, who have far more fancy for conquering an empire than laboring legitimately for a subsistence; and, though the Mexican fever is subsiding, and re-cruits of the right sort come in slowly, the matter may give some trouble before it is ended.

The Texas Sam Patch—A Frightful Leap from the Yard-arm of a Ship. [From the Galveston News, July 2.]
At 6 o'clock, P. M., last evening, the time fixed

for Sam Patch, Jr., to take a leap from the yard-arm of a ship in the bay, a concourse of people began to assemble. By half-past 6 the crowd was oegan to assemble. By nan-past 6 the crowd was immense, and every nook and corner was jammed to see the Sam Patch, Jr., take his fall of 120 feet. Even the rigging of all the shipping in the vicinity was occupied by the devil-may-care sort, and little boats were hovering around in the tidal stream. At twenty minutes to 7 the obthe tidal stream. At twenty minutes to 7 the object of all eyes was seen ascending by means of a rope around his body, with pulley attachment. His legs were bare to the thighs, and a loose flannel blouse or shirt covered his shoulders and body. Up, up, up he was hauled until the yard-arm had been reached. On to the arm he half clambered and was hall hauled. So soon as he attained the apright attitude, meanwhile holding to the ropes, his blouse was removed, and he stood three-and-a-half parts the tidal stream. At twenty minutes to 7 the obwas removed, and he stood three-and-a-half parts naked before this immense auditory. His appearance was haggard, and as he held indifferent heart and appearance to the rough the superconduction of the rough the supercond pearance was haggard, and as he held indifferently and swaggeringly to the ropes, he appeared the very picture of despair. He smiled a ghastly smile or two, and once raised his hand towards heaven, whether recklessly or reverently we couldn't tell. When least expected, he tottered to the little platform on the end of the yard-arm, and leaded. One law was thrown out at right to the little platform on the end of the yard-arm, and leaped. One leg was thrown out at right angles from the body, and his arms were sprawled out like the wings of a crippled goose. In this fix, and in obeyance to the law of gravity, he came sailing down. Before reaching the water he had performed a graceful gyration, and struck like a slapjack flat on his back. The tide was rapidly running out at the time, and the apparent lifeless body, with face under water, the back of his head and shoulders only being perceptible, he floated away. A little dinky, with three men in it, flew toward the body, and after some unimportant maneuvring picked the lifeless form of Sam Patch, Jr., up. He was put on the deck of a sloop in the harbor, around which the crowd portant maneuvring picked the liteless form of Sam Patch, Jr., up. He was put on the deck of a sloop in the harbor, around which the crowd congregated in dense masses. A general rubbing of the body commenced, and the spark of life returned. Spon-the-restoration of breath whisky was offered the unfortunate man, and he smiled as upon meeting some dear friend. We got one sight at the bloodless, haggard features one look at the blackened, contused and bruised back, and feeling that we had the full worth of our money, came back to the News office to write up our back to the News office to write up our

hasty account.

It is to be noted that no collection was taken up owing to the great excitement. And it is also to be noted that Mr. Patch's face was under water long enough to have drowned any man, but couldn't breathe, and consequently couldn't drown. How fortunate, then, that the fall knocked the breath out of his body! We are at a loss to say whether we felt more pity or disgust over the imbeelle proceedings.

The suicidal victim was reported dying at 9 o'clock last night.

CITY NOTICES. COMFORT FOR HOT WEATHER.-E. G. White man & Co., No. 318 Chestnut street, below Fourth, are directing special attention to the manufacture of summer confections. These refreshing dair-

ics are put up in neat boxes in the most compact, convenient and elegant form, and the traveling basket of the tourist or the country resident would lack a great essential to comfort were it deficient in a supply of E. . Whitman & Co.'s daintles. It is not necessary to enumerate the delicious articles of confectionery manufactured by E. G. W. & Co. "Their name is legion," and their merits and their excellencies are unques ioned and unquestionable.

THE American Buttonhole Sewing Machine is the only perfect one offered to the public. It is the only nigehine by which an entire dress can be made. No dress can be perfect without buttonholes, and no other sewing machine can make them. In this last last best machine the same needle is used for tucking, remming, felling, stitching, cording, plain and fancy sewing, and making buttonboles. The world is chalenged to produce its equal. It is one of the home manufactures of Philadelphia, and the demand for it in Parisian circles has sprung up as though by magic. Call and leave your orders at the reception and salesrooms, corner of Eleventh and Chestnut streets.

Mr. Wood has benefited mankind by the invention of his excellent "American Kitchener," for sale by James P. Wood & Co., at No. 41 South Fourth street. This very superior cooking range has many advantages not possessed by any other, and it is fast becoming a household necessity. One of these articles amply repays its cost by increase of domestic comfort, and saving of fuel.

IN THE FRONT RANK .- There is no better offering either of peace or thanks, than a box of Haines & Leeds' delicious sugar plums, from No. 906 Market street to take to the country, to the pic-nic, or the sea-side, they are indispensable. Country people taste them with wondering delight. The fact is, that Haines & Leeds, using only the purest and most-reflued materials, and having all the new French machinery, are in the very front rank of the profession. Their caramels and bon-bons are beyond all praise.

THE ELLIPTIC, instead of making a variety of seless stitches, rendering complicated machinery necessary, makes but one stitch, i. e. the lock stitch, the only one suitable for the varied work of the family. KEEN & WALMBLEY.

A little of Brown's Ginger soon counteracts any injurious effects from it. With children it is an invaluable remedy against the effects of green fruit, which we all know they will indulge in. "1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and lifty million dollars in its own bonds practically guaranteez it. One fourth of the work is already done, and guarantees R. The fact that the U.S. Government considers a second lieu upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which to them a third lieu), may well inspire confidence in a eth. Although it is not claimed that there can be any
