The future historian of the Decline and Fall of the Mexican Empire may have some supplementary chapters to write, descriptive of events growing out of the tragic death of the poor be-fooled victim Maximilian. One of these may be devoted to the enterprises of those discontented Americans, chiefly unreconstructed rebels, who style themselves Maximilian's avengers, and purpose a "revel in the Halls of the Montezumas," and a spoliation of the public and private property of the Mexicans. These men may cause the United States some trouble, but it may be safely predicted that they will meet the fate of former ambustering parties, and that their leaders will suffer as Lopez, Walker, Raousset-Boulbon, and finally Maximilian, suffered. For these were all filibusters, engaged in attempts to revolutionize governments with which they had no right to meddle.

Nothing has been given out by the Government as to the course it intends to pursue with regard to the filibustering schemes agitated in New York, New Orleans, Mobile, and on the Rio Grande. But as soon as President Johnson and Mr. Seward can spare time from the highly congenial business of making a vain resistance to Congress, it is to be hoped that they will take into consideration the danger that threatens us on the Mexican in Mexico that the United States pursued the policy which resulted in the French evacuation and the fall of Maximilian.
