If the temptation to steal were removed,
many a conductor's soul might be saved; and
the Board of Presidents ought to unite and

himself under somewhat similar circumstances. It is to be hoped that the egotistical ingrate of the White House will not imistate the example of the eminent traitor just

There would thus be very little money put into the hands of conductors. The expense of these offices, divided among the companies in proportion to their capital stock, or the number of their cars, would not be heavy upon any one of them. This plan, or something like it, is not impracticable, and it is worthy of the scrious consideration of that argust body, the Board of Presidents.

CAPE ISLAND, N. J. Since the close of 1868 much enterprise has been displayed at this celebrated sea-shore resort. New and magnificent cottages have been erected; the Hotels have been remodeled; a fine park, with a well made one-mile drive, has been insugurated; and in all the essentials of a popular summer resort, a spirit of improvement is largely manifested. & Co. Schr J S Hewitt, Foster, Boston, Schr C S Carstairs, Price, Boston, captain, Schr Isaac Rich, Crowell, Boston, Caldwell, Gordon manifested.

The geographical position of Cape Island is in itself a popular feature, when properly understood: Situated at the extreme southern portion of the State, and occupying a neck of land at the confluence of the Delaware Bay with the Atlantic Ocean, it becomes entirely surrounded by sait water, hence favored by condanual breezes from the sea.

The bluff furnishes a beautiful view of the Ocean, Delaware Bay and heturesque back country, taking in Cape & Co. Schr S Castner, Jr, Robinson, Boston, Castner, Stickney & Wellington. beach is acknowledged to surpass any other point upon the
Atlantic coast, being of a smooth, compact sand which declines so gently to the surf that even a child can bathe
with scurify. cinics so genity to the surr that even a chint can be with security.

Added to these attractions is the fact that the effect of the Gulf Stream upon this point renders the water comparatively warm—a point not to be overlooked by persons seeking health from coean bathing.

The distance from Philadelphia to Cape Island is 31 miles by rail, and about the same distance by steamer down the Bay, and by either route the facilities for travel promise to be of the most satisfactory character. The Island has Hotel and Boarding-house accommodations for about ten thousand persons. The leading Hotels are Congress Hall, with J. F. Cake as proprietor; Columbia House, with George J. Bolton as proprietor, and United States, with West & Miller as proprietors, all under the management of gentlemen who have well-established reputations as hotel men.
