From the evidence elicited before your jury it appears that the material and workmanship was good; we also are of the opinion that the disaster was caused by the strong current washing away the foundation, and undermining the outer rows of piles along the sluiceway, causing them to give way."

VIOLATING THE LIQUOR LAW .- Frank Mahedy, the proprietor of the McClellan Hcuse, on Coates street, near Twenty-first, was before Ald. Pancoast yesterday upon the charge of violating the liquor law. The complainant was a woman, who testified that she had notified the defendant not to sell liquor to her husbard—that her hus-band sells and pawns the things in the house to get money to buy whisky, and that he got liquor at Mahedy's place after her notification. The accused was held in \$400 bail to answer at Court. A GREAT SWIM .- Frederick Piper swam across the Delaware this morning for a wager of \$100. He started from Green street wharf and landed THE UNION PACIFIC at Market street, Camden. A boat accompanied him in case he should give out. When he reached the other side of the river he was nearly ex-hausted. This extraordinary feat was witnessed by quite a number of persons who had assembled on Green street wharf.

The Court overruled the objec-tion, and the counsel addressed the jury, referbreaking jail. NEW YORK, Aug. 8 .- An accident took place a Blauveltville, on the Northern Railroad of New freight cars were left standing upon a heavy grade with broken brakes. They were accidentally set in motion and rapidly run towards an ag proaching freight train. The brakesman upon the detached cars saved himself by jumping from them while running at the rate of 30 miles per hour. A moment after the cars met the engine changed. with a terrible shock. Two freight cars were broken in pieces and the lumber was scattered on either side of the road. The engine was demolished.

RAILROAD COMPANY.

THE FIRST-MORTGAGE BONDS.

INTEREST.

SIX PER CENT. IN GOLD.

Are offered for the present at Nincty Cents on the Dollar and accrued interest at Bix per Cent. in Currency from July 1st. . pany is \$5,000,000. The nid received from the U. S. Government in con structing this portion of 425 miles is: 1. A donation of 12,800 acres of adjacent lands to the mile (nearsy all very valuable), amounting to 5,440,000 acres. 3. U. S. Six per Cent. Currency interest bonds, which are a second lies, at the rate of \$16,600 to the mile, amounting, for 425 milee, to \$7,800,000. The amount of the Company's own First Mortgage Bonds on 425 miles is 86,800,000. It will be seen that, exclusive of the land grant, the First Mortgage Bonds represent only about one third of the value of the property on which they are secured. The Company is also restrained by its Charter from issuing its bonds except as the work progresses, and to the same amount on the various sections as are issued by the Government. The mortgage which secures the bondholders is made to Hon. E. D. Morgan, U. S. Senator, from New York, and Hon. Oakes Ames, Member of the U. S. House of Representatives, from Massachusetts, as Trustees, who alone can issue the Bonds to the Company, and who are responsible for their issue in strict accordance with t terms of the law. A statement of the carnings for the last quarter will be published in detail at an early day; but the accounts are already sufficiently balanced to show that the net amoun is much greater than the gold interest on the bonds the can be issued on the length of road operated. It should be remembered that these earnings are only upon a way be sincss in a new and undeveloped country, and are no in dex of the vast traffic that must follow the completion of the whole line to the Pacific in 1870. These facts are only intended to show that these Bonds are strictly one of the safest as well as one of the most profitable securities, an are fully entitled to the confidence of the public. The Company make no appeal to the public to purchase its londs, as the daily subscriptions are large, and fully equ to their wants. Many parties are taking advantage of the present high price of Governmentstocks to exchange for these Honds, which are over 15 per cent, cheaper, and, at the current
