A postponement until to-night was ordered by the Committee, who have made every preparation to render this the most agreeable jest the Society and its friends have ever enjoyed. More than 3,000 tickets for this evening's entertainment have already been sold, and it is thought that, with propitious skies overhead, Paul Falk's Lion Park will to-night echo the hilarity of at least 5,000 good-natured and order-loving Teutons. and order-loying Teutons.

GEORGIA

A Colored Candidate for Congress. Ellick Mahaly, a colored man, has issued the following address to the voters of the IVth Geor-

ria Congress District:
Crawford Co., Ga., Aug. 22, 1867.—At the solicitation of many of my friends, both colored
and white. I have determined to announce myself a candidate for Congress in this District. In soliciting your suffrages for the position to which soliciting your suffrages for the position of a spire, it may not be amiss for me to give you a history of my life, and the principles which will guide my official conduct in the event I shall be honored by the suffrages of my fellow-citizens. I was born a slave on the plantation of Benj. Lockett, Warren county, Mississippi. I remained with my old master until 1861, when I was brought to Georgia and sold to Mr. Isaac Dennis. My old master raised me as well as slaves are usually raised, giving me the rudiments of a common English education, and instilling into my youthful mind the principles of honesty and virtue.

And I will say here, that I have never departed from them. In the event I am elected, I shall use the utmost of my feeble powers to bring about a reconciliation between the two sections. We have had war enough and strife enough. While I am free to confess that my greatest efforts will be directed to the interest and welfare of my own race, I shall do all I can to ameliorate the condition of the whites, believing that the interest of the two races are identical here in the South. I shall do all in my power to repeal the unjust discriminaall in my power to repeal the unjust discrimination against the products of my section, to with the tax on cotton and tobacco. I will give one instance of the hardship of the tax on cotton. Last year I rented a small farm of Dr. Simmons of this county. After paying him the rent I had five bales of cotton. On them I paid a tax of \$15 a bale, making \$75. It is needless for me to tell poor men how much I have needed that money this year. It would have breaded my tell poor men how much I have needed that money this year. It would have breaded my family the whole year. I have felt its hardiness. I wish it repealed. You may wish to know my position on Reconstruction. I am in favor of reconstruction urder the Military bills; though, if I am elected, I shall use my influence to have the disqualifications removed from all.

Yours, very truly, ELLICK MAHALLY. Yours, very truly,

Malignant Fever in Jamaica Trada inc suvices from this island via Hayana are to the 8th inst. A malignant fever had appeared almost simultaneously in different parts of the island, and many persons had fallen victims to it. It first showed itself at a place called Newport, in the parish of St. Elizabeth, where it took off in a few days several members of one family living in the same house. Dr. Simpson, who attended them at first, and two black persons who were employed to clear a trench in the neighborhood, were next seized with it, and died after a few days illness; and Dr. Kelley, who was engaged to attend the family after Dr. Simpson took sick, and who remained with them for some time, on his return home became ill of the fever, and died in three days. About the same time, the fever broke out in the parish of St. Andrew, distant over one hundred miles from St. Elizabeth, appearing first in the family of the Hon. P. A. Espent, whose son, aged seventeen, fell a victim to it, followed the next day by the governess of the family, aged twenty-seven years. The appearance of this disease has created great alarm, the medical men being at their wits end to know how to treat

it, not being able to identify it.

Trade continued very dull, and there had been another heavy mercatile failure—that of a house of over twenty years good standing. The crop of coffee had quite closed, and there was none offering. The seasons were favorable for the wet onering. The seasons were rayorable for the wet coffee crop, but more rain was required to bring forward the young canes. The pimento crop would be a failure, as very few planters were taking the trouble to pick the berry. The stock of provisions on hand continued ample, with the exception of flour, which was rather in small

The reciprocity treaty between the Hawaiian government and the United States has been approved by the King in Cabinet Council, and the Legislative Assembly has been called together to ratify it and alter the laws so far as necessary, and the text of the new treaty will be published in a few days.

The text of the treaty is understood to be that

Hawaiian sugars of not higher grade than No. 12, Dutch standard, rice, cotton, iruits and some other export products are to be admitted free of

other export products are to be admitted free of duty, and that some of the principal products and manufactures of the United States are to be duty free at the Hawaiian ports.

The Hawaiian government is about sending an Envoy Extraordinary to Jeddo to negotiate a commercial treaty with Japan. Daniel C. Waterman is named as Envoy.

Dr. F. Hutchinson, Hawalian Minister of the

Interior, has been seriously injured by a mad ox. His condition is precarious.

The United States steamer Lackawanna had sailed from Honolulu on a cruise. Her destina-tion is not known, but it is supposed to be to lo-cate and survey islands in the North Pacific, and to take possession in the name of the United

MEXICO.

The Treatment of Santa Anna. The Washington correspondent of the Boston Advertiser says this Government has taken an active interest in saving the life of Santa Anna, and has sent despatches to our acting Minister in Mexico to urgo President Juarez to deal with him liberally. In addition to this, a special every has been sent to Mexico with instructions to secure, if possible, lenient treatment of Santa Anna while "YOUNG" TURKEY.

Sentences of the Revolutionary Con-spirators.

The Courrier d'Orient publishes the following account of the sentences passed upon the persons accused of participation in the Young Turkey

accused of participation in the Todag Tutacy of last spring:

The writer says: The conspiracy said to have been discovered two months ago, and about which so much noise was made at the time, has just reached its closing state. On Wednesday last the Imperial Government decided upon the extenses to be passed on the sequent sentences to be passed on the accused, twenty of whom have been condemned to extle for having in the words of the accusation, formed part of a secret society. The sentences are: Fifteen years' exile in the Island of Cyprus, Fifteen years' exile in the Island of Cyprus, Mehemmed Bey, Nourri Bey and Rechad Bey, all three absent; and to ten years' exile in the same island, Asmi Bey, Tarsin Effendi, Nourri Bey, Safih Agha, Hassan Effendi and Izzet Bey; elight years' exile in the island of Rhodes, Guerekli Djemil Effendi, Hadja Velid-din, Munedjim Ali Effendi, Said Bey, Mehemmed Galib Effendi, Raouf Bey and Selim Effendi; four years' exile in the same island, Mahmoud Effendi, Hodja Ibrahim Effendi, Tcherkess All Effendi and Cadousli Omer Effendi. All these men belong to the most Omer Effendi. All these men belong to the most honorable families in Constantinople. If rumor is to be believed the difference in the periods of the sentence is to be attributed to the more or less ready character of the replies of the accused on heir examination.

A great number of persons implicated in the same charge have been passed over. Tchërkess Hussein Pasha, general of division, is one of these, not having been examined a single time. This officer at once resumed his functions at the Dari-Choura (council of war), of which he is one of the most useful and enlightened members.

SHORTSIGHTED INDIVIDUALS make a grand aistake in circulating the report that the great Ameri can Sewing, Over-seaming and Button-hole Machine will not make buttonholes in muslin. It will make buttonholes in all kinds of fabric, from thick heavy cloth to fine cambric linen, and besides this it will do all sorts of plain and fancy sewing—and more than this, it will do more than any other sewing machine and still more, it is the only perfect sewing machine offered to the public; and another thing in its favor, it is the pride of the home manufactures of Philadelphia.
