ACCEST 21, 1887. HERRING'S SAFES NINE DAYS IN THE FIRE. PLATTERURGH, N. Y., Aug. 30, 1867.

Messes Herring, Forrel & Sheeman, New York-Greats. We were among the sufferers by the terrible the of Tuesday, the 21st inst. Most of the contents had been removed from our Safe-one of your manufacture-and we did not go, the Safe out of the rulus notificoday, the ninth day after the fire. The rules of our building continued so hot that the workmen were compelled to throw water on the rubbish to give them a chance to work, and the safe was still hot enough to burn the hand if Isid upon it. After getting it open, we found in the drawer some paper money, much to our surprise. There was also some gold and silver, which was all right. We consider this wonderful, after such a long and terrine heat.

Respectfully yours,

Lowanne & Co. ANOTHERI Рымтени пон, N. Y., Ang. 23, 1867, Messes, Herring, Fairel or Sherman, New York Gentle: The Herring's Patent Champion Safe preserved my books, papers, and some money in the dis astrous fire which occurred here on Tuesday night, the 21st inst. My stock of goods, being a Druggist, added to the materials of the building, gave the Safe a good roasting. This was the longest and hottest fire that ever took place in this section, searcity of water preventing us from stopping its headway until half of the business portion of our town was destroyed. Truly yours,

G. B. Balon. AND ANOTHER!!

PLATTSBURGH, N. Y., Aug. 27, 1867. Mesers. Herring, Farrel & Sherman, New York-GENTS: The Herring Safe I had in use was subjected to a severe test at the very large fire which occurred here last Tuesday night, 21st inst. My office was on the second story of a brick building. The Safe fell with the floor and walls into the cellar. On Wednesday it was impossible for men to work on the ruins, the debris had become so hot. I got it out on Thursday, the second day after the fire, and opened it. The valuable papers, some small account books, also some notes, were preserved in excellent condition, every line and word legible. I consider this an excellent test of your Fire-Proof Safe, and assure you it was a surprise to me to find anything inside after such a terrible fire, no water having been thrown on the build-GEO. L. CLARK, ing. Truly yours,

Attorney-at-Law, etc. AND ANOTHER !!!

PLATTBURGH, N. Y., August 25, 1867. Messes. Herring, Marrel & Sherman, New York.... Genes: The destructive fire of Tuesday night, 21st instant, which burned up such a large number of buildings in its course, swept away the store I occu-pied araoag its victims. I was doing a jewelry business, had one of your folding-Joor Safes in use, which contained a large number of watches and other jewelry, I had it removed to the side-walk. The strong wind which was blowing at the time blew the fire upon the Safe like a blow pipe, the exterior was very hot, as it distinctly shows: the jewelry and watches are all well preserved, though discolored from the steam of the fire-proof composition, which can easily be cleaned. Respectfully yours,

STILL ANOTHER !!!! Flattshungh, N. Y., Aug. 28, 1867.
Messes. Herring, Furrel & Sheeman, New York-

GUATE: I had one of your Herring Patent Champion Safes in use, which was abjected to one of the hottest and largest tres that ever look place in a small town; the Leat was of the most intense character, lack of water preventing a stoppage of the fire until it had destroyed many buildings. I removed my Safe from the ruins the next day after the fire. When opened, the books, valuable papers, wills, and some money, were all preserved in good condition, no appearance of having been through such a dery ordeal. L. D. Впоок. Truly yeurs,

are now completed, and it is expected that the remaining 17 miles, to carry the track to the base of the Bocky Moun tains, will be finished early in October. Contracts have already been made for rock-cuttings beyond, to be done during the winter. The work is being pushed forward with equal energy on the California end of the route, under the direction of the Central Pacific Company, commencing at Sacramento, and it is confidently expected that the two roads will meet in 1870, thus completing the entire grand line connecting the Atlantic and Pacific occase, on which THICTY-FIVE MILLION DOLLARS in each have already been expended. From the liberal occair, on which THIETY-FIVE MILLION DOLLARS in cash have already been expended. From the liberal Government aid the wealth and energy of the stockholders, and the ready market for the First Martgage Bonds, the new want of funds for the goost vigorous procession. there is no want of funds for the goest vigorous prosecution of the work, and its early completion is as certain as any future business event can be.
