we published yesterous a report of two extremely aggravated cases of unwarrantable interference with the processes of the Court of Quarter Sessions in this city, one on the part of the United States District Court for the Southern District of New York, and the other on the part of the Navy Department at Washington. The cases, briefly stated, are as follows: A minor, named George Gorm-ky, was enlisted in the United States Navy at the Navy Yard in this city, and yesterday, at the instance of Gormley's friends, a writ of habeas corpus was issued requiring that Commodore Selfridge produce the body of the boy in Court. This the Commodore posithe boy in Court. This the Commodore posi-tively refused to do, and gave as an excuse part of a pre-arranged plan. The N. E. CORNER TENTH AND CHESTNUT,

Brown's subordinates two hours after the writ was served, and had then been spirited away to New York. Brown was thereupon very properly committed to prison for con-tempt of court. The cost of Quiring the production of brown belove the contract of the sector of the New York court to testity. The act ex-pressly provides that prisoners can only be taken from jail upon this writ, in order to give evidence, and must then be returned to the custody of the party upon whom the writ was served. The writ was obeyed, Brown being accompanied to New York by one of our prison officers. No sooner had he arrived there, than a writ New York by one of our prison officers. No sconer had he arrived there, than a writ tation in the way of rogues. Now, everyone of habeas corpus was issued by the judge of who reads a newspaper should have learned a State Court, and Brown, instead of being held as a witness, was released entirely from custody, and placed for the time beyond the reach of our courts. Commodore Selfridge Refuses to Obe a Writ of Habeas Corpus—A Bouble Guard of Marines at the Navy Yard

Mr. Hirst suggested to the Court that this return was

Mr. Vinchize said he had nothing to dud to the return.
Mr. Hirst suggested to the Court that this return was nothing more or less than this: that the Connuodore of the Navy Yard refuses to produce the body of Michael Kelly, as commanded by this Court. In substance, the Commodore says that no matter what may be the decision of this Court, he will refuse to recognize its authority.
There is no denial of jurisdiction in the return—but a simple refusal to obey its mandate. I understand that since the issuing of this writ there is now stationed around the Commodore's house a double guard of marines, in order to protect him against any process issued by this Court. To recognize you have a state of atlairs is not in conformity with the dignity of this Court. Before any further proceedings should take place, the Commodore should be compelled to produce the body of Kelly in Court. In order to abide the decision of the Commodore of the Navy Y and to refuse to oney the process of this Court. In substance, the blackguard and the ruffian, and it becomes the duty of the locut the numbate if upon the level of the blackguard and the ruffian, and it becomes the duty of this fourt, he has place thim. Celly, the relator will issue an attachment against Commodore Selfridge. If your Honor intends to have the laws of this Commoweall's executed, now is the time. Kelly, the relator in this writ, is but 18 years of age, and has been in the service three years, and we should have an opportunity to show the Illegality of his enlistment.
