THE TRIAL OF FIRE-PROOF SAFES. CHALLENGE ACCEPTED.

Mr. M. CNSadler, Agent of Lillic's Safes in this ity, having published in the city papers an offer to burn in a test fire, on the 22d inst., one of Lillie's Chilled Iron Safes with one of our make, of like size and thickness, containing Sanborn's Steam Improvement, the test to be "fairly made." wethereby inform him and the public that we accept the challenge, the details of the trial to be as follows:

1. The committee to direct the trial and report the result, to be chosen, three members' by each party, and another by these six. 2. The Safes to be of the size burned at Norristown, and to be made in the usual way of their respective manufacturers, with walls six Juches

in thickness from outside to inside. 3. The trial to be made in an open space, the safes standing the thickness of one brick above the ground, and the fire made with dry wood placed around the safes, and as hot as either party may desire, and to be continued until one or the other safe shall fail; the committee to see that the wood is equally distributed and the safes exposed alike to the fire: the party whose safe fails first to pay the whole expense of the trial, and the winning party to have the safes after

they are burned. We will add that we are willing and ready to go into a trial of Safes with Messrs. Marvin & Co., Farrel, Herring & Co., and any other parties on the same conditions, and desire the businessmen of Philadelphia to be present and see for themselves that the test is fairly made. As to the accusation of M1. Sadler, "that we have conspired to cheat, deceive and humbug the community," we consider the source whence it

came, and regard it unworthy of notice and doubtless the officers of the Inter-State Fair, and the honorable gentlemen of the committee who superintended the trial at Norristown, who are also included in the accusation, will consider it in the same light. We have no desire to deceive the community.
