RAILROAD ACCIDENT.

Collision on the Morris and Essex Railrond—One Man Killed.

Monday afternoon the mail train on the Morris and Essex Railroad, which left the New York terminus at 3.30 o'clock, came in collision with a coal-train on a curve a little east of Chatham, causing the death of Robt. Osborne, a brakesman. A passenger on the mail train states that at the time of the accident a train of empty coal cars was backing down upon a "Y," upon which it is the practice to run both empty and loaded coal cars. The shock given to the mail train occasioned great excitement among the passengers, and after recovering from their fright they immediately set to work to assertain the except of the injury. The engine of the mail train was found to be continued to the langer of the mail train was found to be continued to the langer of the mail train was found to be continued to the langer of the mail train was found to be continued to the langer of the mail train was found to be continued to the langer of the lan to work to ascertain the except of the injury. The engine of the mail train was found to be considerably damaged, as was also the baggage car, which crushed its way through the tender. Under the debris Robert Osborne, a brakesman, was discovered with both legs fearfully mangled. An engine was at once despatched to Madison for medical aid, and returned as soon as with with Drs. Gray and Vanyagan. On ex-Madison for medical aid, and returned as soon as possible with Drs. Gray and Vanvagan. On examining Osborne, they pronounced him past assistance. The injured man expired at 11 o'clock on Monday night. Thomas Keenan, the engineer of the mail train, says he did not see the flag. Keenan was arrested, and lodged in the Morristown jail. A report that some of the passengers were injured was not confirmed at the office of the Company. The matter, it is stated, will be thoroughly investigated.

WAYTI.

Sainave Still in Hot Water—No Funds—No Trade—Plenty of Fighting.

Pout at Prince, Sept. 11, by way of Havana, Oct. 1, 1867.—Sainave's position is becoming daily more dangerous, and the recent insurrections are attributed to the machinations of Cabral. Sainave is reported to be favoring the schemes of Baez at Port au Prince. The Concordat is annoying the government very much, as the latter is unable to support the clergy.

All commerce is paralyzed; no products whatever are arriving, and some vessels have been lying here since June. Currency has fallen to the rate of forty Haytien dollars for one Spanish.

CITY NOTICES.

THE GREAT AMERICAN COMBINATION BUTTON-What does it combine? All that is desirable in that kind of mechanism! It combines two beautifully constructed machines in enc, making with equal tacility and perfection the Button-hole and Overseaming stirch, and doing all other kinds of sewing with a beautiful Lock-stitch. It combines simplicity with certainty in its move-ments, easily managed, and rarely missing a stitch under any circumstances. It combines the useful with the agreeable—eminently useful in the great variety of work it will do, and most agreeable in the manner of its performance. If you would see it, call at the

southwest corner of Eleventh and Chestnut streets. THE GOLD MEDAL RANGE.—To-day, in making our annual autumnal visit to the various stove and range manufactories for which Philadelphia has long een noted, we called at the extensive establishment of Mr. J. S. Clark, No. 1005 Market street, above Tenth. Last autumn we called at Mr. Clark's com-modious and attractive Salesroom, and examined with attention and satisfaction his newly invented Gold Medal Hot-Air Cooking Range, which was rapidly coming into successful use. To-day we were granfied to learn that this justly celebrated range has stradily pursued its progressive and popular career until it has attained a higher degree of public favor than any other

range yet introduced. Mr. Clark now daily sells a large number of his Gold Medal Ranges, which, being perfect and efficient in their construction and operation, all who use them bestow upon them the highest commendations. Manufacturers of other kinds of ranges purchase of Mr. Clark the Gold Medal Range for their customers.

The great and leading merits of this excellent and justly popular range are its plain / practical arrangement, convenience of management, perfection of operation, and its great economy in the consumption of fuel. While perfectly performing the important pro-cesses of cooking and baking. It will heat two rooms above and heat the water form bath-room.

Mr. Clark sells the Gold Medal Range with the guarantee that it is as fepresented, which, from a manufacturer and dealer who has maintained a strictly honorable reputation daying the last thirty years, is a highly important consideration to the purchasers of this superior and celebrated range.

We respectfully resommend housekeepers, merchants and others to call af Mr. Clark's extensive an tive establishment No. 1008 Market street, where he is rapidly selling the Gold Medal Range at prices so low as to enable all to purchase who wish to obtain the best range ret offered to the public.
