WENDEROTH, TAYLOR & BROWN,

CARBON MEZZOTINTS. PERMANENT PICTURES.

914 Chestnut St.

Attention is called to the new Carbon Mezzotints just introduced by WENDEROTH, TAYLOR & BROWN, Artists, 914 Chestnut street and 603 Broadway, New York.
This new style of portraiture, which is making such a stir in the art abroad, is produced by no other establishment in Philadelphia.
The merits of these pictures are:

Absolute Permanence.	As that used in Steel Engravings, they are free from chemical changes.
Softness.	They present no such hard lights and intense shadows as are common in the ordinary chemical photographs, but the lights are soft and the shades transparent, as in nature.
Finish.	From the nature of the materials used in these pictures, they have an artistic finish which is unattainable by the former method of printing.

The public are invited to examine specimens at the only Gallery where these pictures are furnished.
