MONA'S SONG. Al) day yesterday as I spun, The knots came into my thread, And the sound of my wheel went "h "Hum-a-drum," in my head Last night when I milked my cows and sung Of the insiden all folorn, While the moon came up, a little star Leading by the horn,

that time no larger were manufactured in the world, as mirrors constitute one of the prin-tipal ornaments in that imperial palace. It will be remembered that it is expected by the Commissioners that the dress man by the Commissioners that the dress, man-ners and customs and general fashions of each of the countries represented at this Exposition will be kept up by those who speaks English readily. by the Commissioners that use uters, man mean of customs and general fashions of be acked of the countries represented at this is of large, powerful frame, fine-locking, and peaks English readily. Strategy morning, by invitation from one of delegation from Japaa is composed of a delegation from Japaa is composed of the garden. When within three feet of one another, all hars comeand in the second ward, leave anion and the the partnent of the garden from Maxico, maay of the islands of the different motion and all ots traitice. Then all reised them solves, and No. 3 went down again, while No. 3 straighteened hisself, eturned the same of different kinds in gold, silver, iron, a minute (but it really seemed nuch longer No. 3 straighteened hisself, curned the same of different kinds in gold, silver, iron, solves, and 2 stood erect, smilling. In abour the various clothes made by pations of far-efficient files from Maxico, made and worn by to whoth distifting. In the wand coffice from Maxico, made and worn by the va mmed their walk. try this salutation on Wall street, some Saturv afternoon, about 3 o'clock. Would there

ot be a sudden "descent of the celestial ] in the French department there is to be seen a most interesting exhibition, and one which, for the amount of useful knowledge In the French department there is to be seen a most interesting exhibition, and one which, for the amount of useful knowledge conveyed to all, cannot be exceeded in this or any other civilized country. It is the sys-tem of demonstrative anatomy, so recently perfected by the celebrated Dr. Awzoux, who has spent half his life in this work. The doctor has now reached his four score years, and is no longer able to endure the labor of public lecturing from home. He-ing, however, a most able assistant and "co-perateur" in Dr. Lemercier, a thorough now been, for seventeen years, a successful

**ECholar** and practical physician, who has now been, for seventeen years, a successful teacher and lecturer in this department. His style of speaking is easy, graceful and im-pressive, and the collection of subjects in his pressive, and the most extensive and varied in France or the world. He has not only the human form anatomically displayed, but also the gorilla, the horse, animals, birds, fishes and serpents, and much in the insect class, together with vegetables and flowers, all the latter in forms magnified more than a thou-stured of a light and durable material, of which paper pulp is the basis. It is then colored exactly to nature, and each form can be taken apart and explained by the lecturer. The human form is exhibited in one hundred, and fifty parts, the horse in a hundred, and all the animal and vegetable kingdom in a like the animal and vegetable kingdom in a like or something of that kind, and saw in numeral manner. I am aware that we have had some letters two X's, a V, and other symbols, which,

off countries, axes and arrow-neads, pipes, fishing utensils, and the Lord knows what. I was tired of looking, at the end of two hours, and withdrew. How he ever gathered this wonderful collection is a mystery to me. It must have cost him thousands of dollars. Right in the midst of it, almost touching him on all sides, is his writing desk, where he, no doubt, feels more at home and can write a better article than in any other spot. What will become of his collection at his death is a
