PHILADELPHIA, AND 600 BROADWAY, NEW YORK EVENING BULLETIN. Friday, November 8, 1867.

PHILADELPHIA AS IT WAS AND AS IT IS.

Although "the ancients" may have been "very pretty fellows in their day," their day was not a very enlightened one in respect to our local affairs, and some of the moderns could have taught them wisdom in respect to comfort. When William Penn laid out Philadelphia he looked forward to the time when it would cover the two square-miles of plot allotted to it. His views were comprehensive and far-reaching, although the city has out-grown the wildest dreams of its founder; but the majority of the early colomists were not so far-sighted. Most of them came from London, and from other old cities in England. where people were believers in the efficacy ot stout walls to protect them, and who, from the force of habit derived from their ancestors who lived in "troublous times," clustered to keep out the aggressive Danes or the through thick and thin, in the rear of the audience that any through the through thick and thin, in the rear of the audience that any through the compactly within city walls that were built to keep out the aggressive Danes or the raiding Scots, and at a later period did service during the Wars of the Roses. With such traditions as a guide it is no wonder that the early Philadelphians crowded themselves into the narrowest possible space, that they penned themselves up in narrow streets and the fire of blazing ornhan asylums and penned themselves up in narrow streets and in the summer of 1863, through close courts and alleys near the Delaware the fire of blazing orphan asylums and front of the city, while ample space could the horrid burnings of human beings, under the leadership of Fernando Wood and dred rods farther west. Manv modern Philadelphians are ignorant of ginia," and with the rank and file made up of Your patronage solicited. the fact that it was not until 1793, when the yellow fever made such sad havoc in Water banner into the hands of Kennedy, in New street, that that narrow and uncomfortable thoroughfare ceased to be the retail business hotels and crowded theatres; they entrusted quarter of the city. nounced adverse. In the first place, the occurrence of the war of the rebellion would. it was expected, seriously interfere with the growth of the city; but experience showed that while thousands of Philadelphians were drawn from their homes to fight the battles of the Union on Southern fields, there was an influx of new elements of population which more than supplied the drain which the war had caused, and an enlarged growth of the city was necessary to keep pace with the demands of a greatly increased population. Then, croakers admonished capitalists to be careful how they engaged in enterprises, anticipating a crash and a fall in real estate when the war should come to a close, when "shoddy" would find his profits lessened, when the extraordinary wants when Southern refugees would be working their way back to their old homes. But the croakers were mistaken, and the capitalist, who kept on adding block after block and row after row to the aggregate of the build-ings of the city, found his profit in his ven-tures. growing out of the war would cease, and

ventilated homes, with commodious gardens, m most of the newer sections of the city. The ever-ready gas has taken the place of the ancient tallow candle, and water-pipes bring into chambers and kitchens the precious fluid which had to be carried from the town-pump, or husbanded in the rain cask, less than three-quarters of a century ago. It is only by comparison that we can ap-preciate the rapid progress of the city in respect to extent, as well as in regard to increased comfort and elegance. During the past seven years Philadelphia has had an unparalleled growth in spite of circumstances that all human calculations would have pro-nounced adverse. In the first place, the will probably be equivalent to a legalizing of the running of Sunday cars, Judges Wood-ward and Thompson expressly declare that the persons engaged in thus running them are liable to a fine of four dollars under the law of 1794, for pursuing upon Sundays a

The object of the Society is to take up precisely such young men, and enable them to prepare by furnishing them with the ne-cessary means. I am surprised at the success of the So-ciety thus far. It is a siven material assistance to a hun-dred young men in the very first year of its existence. The work it has done is but a proof of what it can do. It is an fo to predict that when the Society has done so much A in its infancy, it will do much more in its maturity. There is a great need for laborers. We want young men who will come and say. "Hiere am I, send me where I can whork for Christ." But money is not so much meeded for our enterprise as prayer. Take this Society into your closets, and entrest God to bless it. Bishop Stovens spoke with a decree of vigor that indi-cated a most gravitying improvement in Result. stock of Superi FAMILY CARRIAGES Of latest styles, with all the most recent improvements of The undersigned invite the attention of the Ladies t ELEGANT LANDAU, Just completed. Ladice in mourning will find handsome articles in PE SIENNES and SIMIAS, the latter a most beautiful F The acd result was then offered by the Rev. Mr. Pratt, thanking the members and vestry of the Church of the Epitshapy for the kindness extended to the Society during its sessions. The citizens of Philadelphia were also thanked for their sbundant heogitality. Rev. Phillips Brooks then delivered the closing address. He said that now sur homes were flooded with religions books, which in a great degree took the place of the proacher. But on this account should the churches be closed and preachers not heard? Certainly not. There is a sort of personal contugion attach-ing to the minister which can never bo dissociated from the pulpit. The great characteristic of the ministry is this power of personal contugion attach-ing to the officier which can never bo dissociated from the pulpit. The great characteristic of the ministry is this power of personal contuging attach-ing to the officier which can never bo dissociated from the pulpit. The great characteristic of the ministry is this power of personal contuging it could to do away with the idea of dependence by the student to pulpit the idea of dependence by the student student is pinched in his daily living, his very soul is cramped. We should then give liberally. The number of students is constantly increasing, and we must provide impress. If pray God to fill our hearts with wil-ing the wants. York on the 80th, for the purpose of pursuing practitioners by the English and Dutch physicisns, on whose recommendation it was employed in Europe, and has now come into general use.

It is given shiefly in gravel, chronic catarrh of the blad-Dyer, Chief of Ordnance of War Department, was examined to-day; also, a man named Taylor, male weakness and debility, for prolapsus and bearing down, or prolapsus uteri, diseases of the prostrate gland, retention or incontinence of urine, and all diseases re-Taylor as the inventor. Parties in the Navy | quiring the aid of a diuretic arising from a loss of tone a the parts concerned in its evacuation. It is also recommended in cases of dyspepsis, chronic rheumstiam cutaneous affections and dropsy.

> To cure these diseases we must bring into action the muscles which are engaged in their various functions. To neglect them, however slight may be the attack, it is sure to affect the bodily health and mental powers. Our fiesh and blood are supported from these sources. Persons at every period of life, from infancy to old age, and in every state of health, are liable to be subjects of these diseases. The causes in many instances are unknown. The patient bes, however, an admirable remedyin
