The Emperor has had, on the whole, a very successful reign; no party in France desires his downfall; the Bourse trembles with agitation when so precious a man is even falsely reported to have a headache; and he, his wife, and his son are personally very popular, mix on the most please, and sociable terms with Frenchmen and French women of all ranks, and are the object of quite as much general interest at Biarritz or Compeigne as our Queen is at Balmoral or Osborne.

And yet Louis Napoleon is a man on whom a dark cloud of care and anxiety is obviously settling. But his sorrows come not from his failure, but from his success. From an amusing and instructive article in Once he must have been very handsome; but now his face is furrowed and a little fallen. There is beauty enough in it, however, when the ever ready enthusiasm is kindled. Mr. Alcott began life as a traveller through the Southern States—mere book-peddler we should have to call him, except that he was then as now sublimely indifferent to all then, as now, sublimely indifferent to all Britain, but still keep to many of the cusworld's business. To see men and women he used the style and trade of a peddler, and by mere chance, got a living. He saw many families of English descent and manners, and gathered great store of observations and reflections. Of course he saw slavery. The result of all in his own mind was the most profound sense of entire wrong in human society. Socialism attracted him, but none of its experiments attracted him, but none of its experiments met his ideal. He determined to establish old Paradise again, a state of life as indeplication of Adam in Edge. Fixing pendent as that of Adam in Eden.
