for the purpose of taking steps towards securing immediato relief for the surferers by the recent caplosion at
Reese, Graff & Dull's smills, in this city. There was a

Decrease of Population in Hayti. The Evening Post has a letter from Mr. G. H. Harding he commercial agent of this country at St. Marc, Hayti tis dated tuctober 4. the commercial agent of this country at St. Marc, Hayti It is dated October 4.

Mr. Harding begins by expressing his opinion that Hayti is perhaps the mest barren country in the world for the statistician. President Geffrard, indeed, ordered the taking of a census, but the results were not published. Mr. Harding thinks these results were suppressed because they established the alarming fact that the population is either decreasing or at best stationary. This is not due to emigration, but to the want of capable physicians and a great mortality among the children. The few physicians are in the large towns. In the farming districts the people either dector themselves or employ quacks. When any one is taken ill in the town his relations rush into the street and yell at the top of their volces. In the back country it is usual to prepare a dish of the sick many favorite food and place it before him. If he has no appetite for it, it is taken as a sign that his time has come, and no further efforts are made to cure him.

GRAND POPULAR MOVEMENT

TO ERECT THE

GETTYSBURG ASYLUM

Invalid Soldiers.

UNDER A SPECIAL

Charter from the State of Pennsylvania, Passed March 6, 1867.

AN APPEAL TO THE AMERICAN PEOPLE.

The object of this Association is to provide, by public exertion, a NATIONAL HOME for our Disabled Seddiers, to erect an asylum for those, who, in their patriotism have served their Country at the expense of their health and happiness: who, in the battle for the Nation's life were maimed, and are new incapable of working for their own maintenance. France has her Hotel Des Invalides where rest the sahes of the great Napeleon; Engisud her Greenwich and Cheless Hospitals, the former being one of the finest architectural structures ever devoted to Charity. Russis, Prussia, and in fact, nearly all European Countries have magnificent retreats for the unifortunate Seldiers—Menarchies revide for the alleyiation of the suffering caused by war, but free, prosperous Enrusulcan America has no place for her crippled and sick seldiers but the county peorheuse, or the sidewalks of her crowded Cities. These neble patriots left happy homes to save our common Geuntry in the hour of her deep distress. We pledged to them our lasting gratiud, and now those who are dependent look to us in their utter need to redeem those pledges—they have performed their part—we enjoy the result of their sacrifices—we must not be recrean to sure chigations. Let us each devote but a sinkle dollar to this purpose, and the flettysburg Asylum will afford the Soldiers a Home and our Country will be howered by the noble Institution.

THE LAND HAS BEEN PURCHABED

THE LAND HAS BEEN PURCHASED By this Association, and Ten Thousand Dollars have already been paid towards the preservation of the Battle-fround—about thirty acres (adjoining the site of General Meade's Headquarters) have been set apart for the uses of Meade's Headquarters) have been set apart for the tages the Asylum.

LEXINGTON AVENUE, NEW YORK, Octot 1 t. 1867.

Having labored for three years to creet a Home for our Crippled Veterans, and having passed a bill for that purpose in the New York Legislature incorporating some 100 of our best citizens as Directors,—but under which bill naction has been had, from that time to this,—and knowing the great and crying necessity of the case, the shame of leaving our disabled veterans to starve or beg, I hereby most cordially endorse your enterprise, and it shall have all the aid of my tongue, pen and influence. Very truly yours,

CHAS. G. HAL-PINE.

Fully sympathizing with your great object, I tender you, gratuitously, the services of my Full Orchestra, on the occasion of your Festival, at Irving Hall.

THEODORE THOMAS. [From the Postmaster-General of the United States.] I recommend to all Postmasters that they shall aid this truly benevolent and patriotic enterprise.

A. W. RANDALL

Being satisfied with the integrity of your enterprise, we cheerfully consent to display your diamonds at our establishment.

BROWNE & SPAULDING, 583 and 570 Broadway.

In order to promote public confidence in the highest degree, and for the furtherance of this great object, the Association has decided to place the \$300,000 Worth of Diamonds on public exhibition at the Large Jewelry Establishment of Messra, Browne & Spaulding, under the Met ropolitan Hotel, in the City of New York. The world renowned Yacht "Henrietta" has also been purchased. amount of this lien. The claims against the Government

By its charter the Company is permitted to issue its ewn First Mortgage Bonds to the same amount as the bonds issued by the government, and no more, and only as the road progresses. The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

The Union Pacific Railroad Company has a land grant to the mile on the line of the road, which will not be worth less than \$1 50 per scre at the lowest valuation.

THE MEANS SUFFICIENT TO BUILD THE ROAD. Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible rarties (who have already finished over 500 miles) at the average rate of sixty-eight thousand and fifty-eight dollars (\$68,668) per mile. This price includes all necessary shops for construction and repairs for cars, depots, stations, and all other incidental buildings, and also iccomotive, passenger, baggage and freight cars, and other requirite rolling stock, to an amount that shall not be less than \$5,000 per mile. Allowing the cost of the re-

ne less than \$5,000 per mile. Anowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be \$50,000 per mile.

The Total Cost, of Eleven Hundred Miles will be as follows:

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not a part of them for sale. Within them whole value will be to available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from \$6 to \$12 per acre, and other land grant companies in the West are receiving equal prices for simi-

FUTURE BUSINESS.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it as the only railroad con-necting the two grand divisions of the North American continent, will be one of the wonders of railway trans-portation; and as it will have no competitor it can always charge remunerative rates. The Pacific Mail Steamship Company, of New York, is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioncer of other lines and Japan, which is doubters the planter of that will traverse the Pacific occan laden with teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles of comparatively low values, shortness of time decides the direction of freights, and

shortness of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a doubt track so necessary. California and Oregon must not only be supplied with means of transport for their passengers, mail, treasure and other freights, but the inhabitants of Dakotah, Colorado, Ufah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which is only waiting this to all the great mining district, which is only waiting this ready, means of communication to receive a population that will develop its vast mineral and other resources, and which, of itself, would furnish ample business for a

Interest in sold three months, at 6 per cent., on this sum, is \$78,000; add 40 per cent, premium, to correspond with currency earnings, is \$109,300,—showing that the net earnings for this quarter were more than four times the interest on the First Mort-
