Saturday, November 16, 1867. THE NEGRO CAR DECISION.

An interesting decision has recently been made by the Supreme Court of this State. affecting the relations between public carriers and the public who are carried. The case tried was one in which a colored woman med the West Chester Railroad Company | works of living German, Dutch, Flemish a for compelling her to take a seat in a partiz- French artists. And again: "The question is one of difference, not of superiority or inferiority. Why the Creator made one black and the other white we Creator made one black and the other white we know not; but the fact is apparent, and the races distinct, each producing its own kind, and fol-lewing the peculiar law of its constitution. Conceding equality, with natures as perfect and rights as sacred, yet God has made them dissimi-lar, with those natural instincts and feelings which the always imparts to his creatures when He intends that they shall not overstep the natural boundaries He has assigned to them." Further on, Judge Agnew reiterates this

main idea of his opinion, thus: "But to assert separateness is not to declare in-feriority in either—it is not to declare one (Blave and the other a freeman, that would be to draw the illogical sequence of inferiority from differ-ence only."

a week ago, and to correct the false impres-sion thus wilfully given, we publish the opinion complete in to-day's paper. Another most important fact was sup-pressed in the mutilated copy of this deci-sion. The concluding paragraph, which deprives the whole opinion of all practical bearing upon cases which may hereafter arise runs thus. runs thus:

"It only remains to add that this cause arose, before the passage of the act of 22d March, 1867," declaring it an offense for railroad companies. to make any distinction between passengers on account of race or color, and our decision pro-nounces the law only as it stood when the case arose, leaving the act to operate upon auch nounces the law only as it stood when the care arose, leaving the act to operate upon such cases as shall fail within its provisions. The whole decision is a calm, lawyer-like, The whole decision is a calm, lawyer-like, dignified and impartial view of the precise case presented for adjudication. It is in ac-cordance with the laws existing at the time the case occurred, and it denies, most em-ter the case occurred and it denies, most emphatically, the right to discriminate against the negro on the ground of alleged inferiority. What its effect will be upon new cases remains to be seen; but there is in it such a kind and just spirit toward a race upon whom our modern Democracy so delight to trample, that it is not remarkable that The Age hesitated to lay it in full before its

Scott's Art Gallery, 1020 Chestnut street, the evenings of Tuesday, Wednesday and Thu day of next week. The pictures, over two hu dred in number, have been selected in the chief cities of Europe with Mr. D'Huyvetter's wel known taste. They include some of the b

sible to the colored race. We give, to-day, the opinion in full, and it is well worth reading. Judge Agnew bases his decision, first upon the right of the public carrier to divide his living freight in such a way 25, in his judgment, will promote the way 25, in his judgment of all. This is

ence, in fact, between the races, but that that difference implies no inferiority on the part of one or the other. Thus he says: "This question must be decided upon reasonable difference to base it upon, separation cannot be justified by more projudice. Nor is merit a test. The negro may be proud of his scrvice is a the field as a defender of his country. But it was not thought indefensible to separate even while soldiers from other passengers. PORTO BICO. The Late Storm --- Whole Streets in Euins--The Loss Incalculable. HAVANA, Nov. 15, 1867.-Later advices from Porto Rico are received. The late tempest was more severe than the two terrible gales which visited the ill-fated island previous to 1850. All

the towns have been terribly declated. One thousand houses have been laid in ruins and three thousand have been severely damaged. In some instances the houses along entire streets have been demolished and the roadway no news whatever has been received regarding the effects of the storm in the central portion of the island, where, on the savannahs, numerous herds are pastured, but elsewhere the cattle have been killed and the fields swept entirely bare. The loss is incalculable. The merchants of the island have demanded onr, corn, provisions, &c., shall be entered

重音 法法国和提高 的现

Running West from Omaha

ACROSS THE CONTINENT ARE NOW COMPLETED

. .

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was over built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly essiward from Bacraments by the Central Pacific Company of California, and it is expected that THE ENTIRE GRAND LINE

To the Pacific will be open for buildess in 1870. More than one-third of the work has siready been done, more than one-third of the whole line is now in running order and nore laborers are now employed upon it than ever befor the strength add.

FORTY MILLION DOLLARS IN MONEY Have already been expended by the two governi, com-panies that have undertaken the enterprise, and there is no lack of funds for its most vigorous proceedulon. The Union Pacific Company therefore office their First Mortgage Bonds to the public with the samurance that hey represent one of the largest and most valuable cor-wrate properties in the world. The first question asked by an investor in "Are the bonds safe?" The second. "Are they profitable?" To answer, in brief: 1. The early completion of the whole line is as certain as any future business event can be. what promises to be one of the most profitable lines of railroad in the country. For many years is must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remnerative rates. 8. The net earnings of the sections already finished are

several times or rate than the gold interests upon the First Mortgage Bonds upon such sections, and if not an-other mile of the road were built, the part slready completed would not only pay interest and expenses; but h profitable to the company, 4. The Union Pacific Railroad Bonds can be issued only as the road progresses, and therefore can never be in the mark of unless they represent a bona side property. 5. Their amount is strictly limited by law to a sum qual to what is granted by the United States Government, and for which it takes a second lien as its security This amount upon the first \$17 miles west from Omsha

only \$16,000 per mile. e. The fact that the U. S. Government considers a second lien upon the read a good investment, and that some of the shrewdest railroad builders of the country have already raid in five million dollars upon the stock (which is to them a third lien), may well impire confience in a first lien. 7. Although it is not claimed that there can be any better securities than Government, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Go-vernments to re-invest in these bonds-thus securing a

greater interest. 8. As the Union Pacific Railroad bonds are offered for the present at ninety cents on the dollar, and accrued in terest, they are the cheapest security in the market, being more than fifteen per cent. less than the United States 9. At the current rate of premium on gold, they pay
