me, when he return med out upon me again, the cover of the door aimed out upon me again. Follard and others were there in the passage with him, and seeing that I could not fire a second time without endangering the lives of innocent persons, I concluded to desist. As he threatened a third shot at me from the door, and as I was exposed without the ability of returning his fire, as just explained, I stepped to the door of a confectionary near at hand.

I have thus given as succinct an account of the whole affair as it is possible to give consistently with the object in view, namely, the vindication of Mr. John S. Wise and of myself.

Respectfully, GEORGE D. WISE.

SAFETY RAILROAD SWITCH MAIN TRACK UNBROKEN.

I am now prepared to furnish railroads throughout the United States with my Patent Railroad Switches, by the use of which the MAIN TRACK IS NEVER BROKEN, and it is impossible for any accident to occur from the mispherman of writches. misplacement of switches.

misplacement of switches.

The saving in rails, and the great saving in wear of the rolling stock, which is by this means provided with a level, smooth, and firm track at switches in place of the usual movable rails and the consequent severe blows caused by the open joints and battered ends, is a matter deserving the especial attention of all Railroad Companies.

AS A MATTER OF ECONOMY ALONE this invention needs only to be tried to insure its adoution; but tion needs only to be tried to insure its adoption; but beyond the economy THE PERFECT IMMUNITY FROM ACCIDENT caused by misplaced switches is a subject not only of importance in respect to property saved from destruction, but it concerns THE LIFE AND LIMB OF ALL TRAVELERS UPON

RAILROADS.

I refer to the Phitadelphia and Reading Railroad Company, and to the New York and Haarlem Railroad Co.

I am now filling orders for various other Railroad Companies, and I will gladly give any information in detail that may be desired. WM. WHARTON, Jr., Patentee,
