FINANCIAL

500 MILES

UNION PACIFIC RAILROAD

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by anyother company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

To the Pacific will be open for business in 1870. More than one-third of the work has already been done, more than one-third of the whole line is now in running order and more laborers are now employed upon it than ever before.

THE ENTIRE GRAND LINE

FORTY MILLION DOLLARS IN MONEY Have already been expended by the two powerful comanies that have undertaken the enterprise, and there is The Union Pacific Company therefore offer their First Mortgage Bonds to the public with the assurance that

Mortgage Bonds to the public with the againance that they represent one of the largest and most valuable corporate properties in the world. The first question asked by an investor is, "Are the bonds safe?" The second, "Are they profitable?"To answer, in brief:

1. The early completion of the whole line is as certain as any future business event can be.

3. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of

railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates 8. The net earnings of the sections already finished are screen times greater than the gold interests upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only pay interest and expenses, but be

profitable to the company.

4. The Union Pacific Railroad Bonds can be issued only as the read progresses, and therefore can never be in the market unless they represent a bona fide property. 5. Their amount is strictly limited by law to a sum equal to what is granted by the United States Government, and for which it takes a second lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000 per mile.

only six 600 per linie.

6. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien), may well inspire confi-

dence in a first lien.
7. Although it is not claimed that there can be any better securities than Government, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Go vernments to re-invest in these bonds-thus securing a greater interest.

8. As the Union Pacific Railroad bonds are offered for

the present at ninety cents on the dollar, and accrued in-terest, they are the cheapest security in the market, being more than fifteen per cent, less than the United States stocks.

9. At the current rate of premium on gold, they pay

Over Nine Per Cent. Interest.

FIRST MORTGAGE BONDS. Whose principal is so amply provided for and whose in-

terest is so thoroughly secured, must be classed among the sayest investments. THEY PAY SIX PER CENT. IN GOLD.

And are offered for the present at NINETY CENTS ON And are onered for the present at National Per Cent. in Currency from July 1. Subscriptions will be received in Philadelphia, by DE HAVEN & BROTHER, No. 40 S. Third street. WM. PAINTER & CO., No. 36 S. Third street. J. E. LEWARS & CO., No. 29 S. Third street.
