THE DAILY EVENING BULLETIN PHILADELPHIA, TUESDAY, DECEMBER. 3, 1867.

THE DALLY EVENING BULLETIS.—PHILADRIPHIA, TUSSDAY, DEGRAI

FAIRS, Albridge, an indeed of mistered by a finder of the control o

countries.

The report of the Acting Commissioner of Agriculture concisely presents the condition, wants and progress of an interest eminently worthy the fostering care of Congress, and exhibits a large measure of useful results achieved during the year to which it refers.

The re-establishment of peace at home, and the resumption of extended trade, travel and commerce abroad, have served to increase the number and variety of questions in the Department for Foreign Affairs. None of these questions, however, have seriously disturbed our relations with other States.

The Republic of Mexico, having been relieved from foreign intervention, is earnestly engaged.

The Republic of Mexico, having been relieved from foreign intervention, is earnestly engaged in efforts to re-establish her constitutional system of government. A good understanding continues to exist between our Government and the Republics of Hayti and San Domingo, and our cordial relations with the Central and South American States remain unchanged. The tender, made in conformity with a resolution of Congress, of the good offices of the Government, with a view to an amicable adjust ment of peace between Brazil and her allies, on one side, and Paraguay on the other, and, between Chile and her allies, on the one side, and Spain on the other, though kindly received, has in neither case been fully accepted by the belligerents. The war in the Valley of the Parana is still vigorously maintained. On the other hand, actual hostilities between the Pacific States and Spain have been more than a year suspended. I shall,

ful habits without which States and Nations cannot, in this age, well expect material prosperity or social advancement.

The Exposition of Universal Industry at Paris has passed, and seems to have fully realized the high expoctations of the French Government. If due allowance be made for the recent political derangement of industry here, the part which the United States has borne in this exhibition of averaging age at may be regarded with very derangement of industry sorts, the part which the United States has borne in this exhibition of invention and art may be regarded with very high satisfaction. During the Exposition a conference was held of delegates from several mations, the United States being one, in which the inconveniences of commerce and social intercourse resulting from the diverse standards of money value were tuly discussed, and plans were developed for stablishing, by universal consent, a common principle for the comage of gold. These conferences are expected to be renewed, with the attendance of many foreign states not hitherto represented. A report of these interesting proceedings will be submitted to Congress, which will no doubt justly appreciate the great object, and be ready to adopt any measure which may tend to facilitate its ultimate accomplishment.

On the 25th of February, 1862, Congress declared by law that Treasury notes without inter-

in 1884. These remittances, since the passage of that act, have been paid in such notes. The claimants insist that the Government ought to require payment in coin. The subject may be deemed worthy of your attention.

No arrangement has as yet been reached for the settlement of our claims for British depredations upon the commerce of the United States. I have felt it my duty to decline the proposition of arbitration made by Her Majesty's Government, because it has hitherto been accompanied by reservations and limitations incompatible with the rights, interest and honor of our country. It is not to be apprehended that Great Britain will persist in her refusal to satisfy these just and reasonable claims, which involve the sacred principle of non-intervention—a principle henceforth not more important to the United States than to all commercial nations.

The West India Islands were settled and colonized by European States simultaneously with the settlement and colonization of the American continent. Most of the colonica planted here became independent nations in the close of the last and the beginning of the present century.

Our own sountry embraces communities which, Our own sountry embraces communities which.

world are entertained. Under these circumstances it becomes a question whether we shall not propose to Her Majesty's Government a suspension or discontinuance of the stipulations for maintaining a naval force for the suppression of

AMERICAN COMBINATION

hostilities between the Pacific States and Spain have been more than a year suspended. I shall, on any profer occasion that may occur, renew the conciliatory recommendations which have been already made. Brazil, with enlightened sagacity and comprehensive statesmanship, has opened the great channels of the Amazon and its tributaries to universal commerce. One thing more seems needful to assure a rapid and cheering progress in South America. I refer to those peaceful habits without which States and Nations cannot, in this age, well expect material prosperity

On the 25th of February, 1862, Congress declared by law that Treasury notes without interest, authorized by that act, should be legal tender in payment of all debts, public and private, within the United States. An annual remittance of \$30,000, less stipulated expenses, accrues to claimants under the Convention made with Spain in 1884. These remittances, since the passage of that act, have been paid in such notes. The claimants insist that the Government ought to
