The pension act of July 14, 1862, is the most comprehensive and munificent ever made by any government for
similar purposes. The administration of its provisions

and one rendering the sufferer entirely and permanently
shelpiers, were each rated at the maximum sum. The act
in this regard has been wisely changed, and it would be
difficult to suggest a more equitable rule than that which
now exists, aithough it is subject to the infirmity of all
general enactments, and occasionally fails to make full
provision for an individual case.

The act of 1623 was enacted in reference to the then exsating war. It was confined to diseases contracted or
wounds received in the military or naval service, and in
the line of duty, after March 4, 1861, and deaths resulting
therefrom. Hostilities have ceused. Selerctary Browning
submits that an amendment should be made excluding
the allowance of a pension by reason of feath, the result
of disease hereafter contracted, except upon the occurrence of a future war.

The Secretary recommends such an amendment of the

the allowance of a pension by reason of death, the result of disease hereafter contracted, except upon the occurrence of a future war.

The Secretary recommends such an amendment of the law as will exclude from its benefits the wide wor children of an officer of the army who shall die of disease not contracted, or from a cause not occurring during war and in the line of duty. The same provision should be applied to the navy, with such meditications as the arduous and peculiar character of the service may, in the opinion of Congress, require. Our legislation will then be in harmony with that which preceded the enactment of a law stemed expedient, during a civil war in which the contry needed the services of all her sons, and offered the highest rewards to these who, on the field or on the deck, imperiled their lives in saving her from dishoner and death. cleath.

Our Indian relations have assumed a new and in-teresting aspect. The steady approach of emigration to the grounds heretofore devoted to the chase, and the rapid progress of railroads pointing towards the ractic and traversing the country over which the in-dians from time immemorial have roamed, imperi-cusly demand that the policy of concentrating them the policy of concentrating them

dians from time immemoria have consentrating them every estations should, whenever practicable, be adopted.

Anc estimated number of Indians is about three hundred thousand, spreading from Lake Superior, to the l'acific Ocean. Those east of the Mississippi, with a few exceptions, are on reservations; so also are the tribes in Annas north of the Arkansas, and those located between the Western border of Arkansas, and those located between the Western border of Arkansas and the country known as the "leased lands." Treaties were nogdiated last winter with the Kansas tribes, and submitted to the Sennte for its constitutional action. If ratified and in good faith executed, these tribes will be provided with vinenes, where they will soon become self-sustaining, as they have already adopted the habits of civilized life and pecome familiar with sgrieultural pursuits. They will then require from us little bytond protection against the itrusion of the whites, and slike faithful performance of our stipulations.

The unoccupied country west of the Missouri is of such vast extent that large regions, if properly selected, at points remote from the great lines of travel, may be reserved without detriment to any public interest. Long before the tide of emigration will reach them, they can by equitable arrangements with the Indians, be reduced to the dimensions required by the actual wants of an agricultural population.

No consideration of the time or expenditure likely to be required should be suffered to defeat an object of such surpassing importance. The cost will be very inconsiderable compared with that of an Indian war. Had a tithe of our outly is military operations against the Indian during the prezent year been honestly and judiciously applied to purpass of peace, the necessity of a resort to force would have be en avoided. It is more humane and economical to subsist Indians than to light them.

On the gain of October last Government accepted, upon the report of the govern ment commissioners, a section of twenty mile of the Central Pacific Railroad of Califor-nia, terminating at a point ninety-four miles distant from bacramento nis, terminating at a point ninety-four miles distant from bacramento.

A report upon this road, dated October 7, 1867, has been received from the government commissioners. They etate that it croses the Sierra Nevada mountains one hundred and five miles from sucramento, at an elevation of seven thousand and forty-two feet above the rea. From the point where it was then built nine fundred and eventuen feet only must be covercome to reach the summit, a distance of eleven miles. Between the 77th and 137th nile boost there are fitteen tunnels of an aggregate length of five thousand one hundred and vixty-six feet. Si ce the commencement of business operations the Company represent that they have paid to the United States Government for taxes, stamps, so, the sum of two hundred and eighty-eight thousand dollars (\$23,000.) At the date of the last annual report the Union Facilic-Railway Company, eastern division, had constructed its road to Fort Biley, one hundred and thirty-five (125) miles west from the initial point on the line dividing the States of Kansas and Missouri. Since that date this company has constructed one hundred and fifty miles of its road, which have been receipted. The Government commissioners are now examinum; an additional section of twenty miles, completing the road for a distance of three hundred and ive miles from said initial point.

The aggregate carnings of the company for ten months and diffeer days, from October tota, 1886, are represented to have been one million two hundred and twenty-six thousand four hundred and eighty-three dollars and eight cents. It is also represented that during the same period the business done for the government amounted to the Lundred and fifty-eight thousand nine hundred and forty-nine dollars and eight cents. It is also represented that during the same period the company during tru months and fifteen days, six thousand one hundred and eighty-nine dollars and fifty-three cents and the submitted eleving that the amount retained herein and the large of the days as ix thousand one hundred and eighty-nine dollars and fifty-three cents.

A table is submitted showing that the amount retained by the United States Treasurer from that due the company on the governa cut business, for the month of August last, is nearly eight per cent per annum of the principal of the bonds issued to the company on account of the construction of the road. This would repay the principal at no distant period by the government business alone, should it be continued to the same extent. The payn can of the bonds at maturity is therefore considered by the company to be fully assured, and the road is being built, so as as the government is concerned, simply by by the company to be tuny assured, and the road is being built, go isr as the government is concerned, simply by the logh of its credit for a term of years upon unpile so carrity, and without the actual expenditure of a single dollar from the public treasury.

It appears from the company's report, dated the lith of October last, that the road has been definitely located for one hundred miles, and terminates in the valley of the Little Blue river, near the mouth of Coon creek, in township four, range els. cast of the sixth principal meridian, in biarchail county. Kaness.

Commissioners examined the road of the Ban Francisco and Ban Jose Bailroad Company, and reported under date of Pebruary 9, 1886, that in its construction and equipment, it fully attained the standard of excellence prescribed by the Pacific railroad acts.

The Northern Pacific Railroad Company report that two enveying parties from Lake Superior and two from the Pacific coast have been actively engaged in the field. Explorations have been made, and the company are of opinion that a practicable toute will be found. No portion of the road has been constructed.

The Atlantic and Pacific Railroad Company, by a resolution of its board of directors, passed November 28, 1866, accepted the terms, conditions, and impositions of the act approved July 37, 1866, granting lands to aid in the construction of a railroad and telegraph line from the Btates of Missouri and Arkansas to the Pacific coast.

CHIEF ENGINEER OF THE FIRE DEPARTMENT. Meetings of the various fire companies were held lest evening to vote for Chief Engineer for the unexpired term of David M. Lyle, deceased. There are 88 companies in the department. The Fairmount Fire Company and the Phonix Hose Company declined to vote. In the Lafayette Hose Company the vote polled was a tie between Terrence McCusker and George Hensler. As reported, the vote of the other 85 companies was

cast as follows: For Terrence McCusker..... Geo. Downey..... H. A. Cook..... Wm. Yerger...... Wm. A. Delaney.....

According to the law, the candidate who receives the highest number of votes is elected.

The official returns will be made this evening, at the meeting of the Board of Directors, and the name of the successful candidate will be re-ported to City Councils for confirmation.
