cian, who attended to his injurage.

Till: TAPPING.—Jane Gibson, hailing from New York, was arrested yesterday and taken before Ald. Heins, upon the charge of having robbed the money drawer of a store on Columbia avenue, near Germantown drawer of a store on Columbia avenue, near Germantown road, of \$\vec{\vec{\vec{v}}}\$. Upon searching her the money was found in her stocking. After it had been taken away from hor, she anatched the money and threw it into the fire. She was committed for a further hearing.

BOARDING-HOUSE THIEVES .- A man who engaged boarding at No. 907 Bouth Seventh street, yester-day, left suddenly, taking with him two pairs of pants day, left suddenly, taking with him two pairs of pants and a coat belonging to so mebody else. A similar robbery was committed at No. 708 Pine street. The thief at the last named place it described as twonty-four yours of sgc, five feet seven inches in height, light complexion and light moustsche,

ROBLED IN A CONCERT SALOON. - A young man named Robert Thompson had his pocket picked of man named Robert Thompson had his pocket picked of \$150 last byening, while in the Palace Varieties, a concert salon on Chestnut street, below Sixth. Two men were arrested on suspicion of having c minitted the robbery, but as they could not be identified by Mr. Thompson, they were discharged.

Fire.-Last 'evening, about half-past seven o'clock, the counting house of H. R. Deacon, lumber merchant, No. 2014 Market street, was damaged by fire. The flames are supposed to have been the work of fan in

THE ATTENTION of our gentlemen readers is called to the card of Mr. Bartiett, in another column. His customer made Boots and Shoes are of the finest in the city. Every person whe desires a good fit should call and examine his new Hox Toes. THE LATE DR. ENGLES .- A memorial discours

will be delivered by Rev. Dr. Shields, of Princeton Col.
lege, on the life and services of Dr. Engles, at the Penn
Square Presbyterian Church, on Sunday afternoon, at
half-past three o'clock. SELLING LIQUOR ON SUNDAY .- Nicholas Meade, proprietor of a tavern at Seventeenth and Callowhill attests, was before Ald. Pancoast yesterday, upon the

charge of selling liquor on Sunday. He was held in \$400 bail for trial. PLAYING CARDS.—Frank L. Moore, 129 South Eighth street, has received the latest style of the best finished round-cornered playing cards. The design is new and neat, and is decidedly superior to the old style.

PERSONAL, -- Major-General D. E. Sickles, who is now on a visit to this city, paid his respects to Mayor McMichael this morning.

## NEW JERSEY MATTERS.

An Important Movement.—A party of enterprising gentlemen, of means and influence, have been
canvasting, for some time past, the practicability of constructing a ship canal, to extend from Gainden to some
point on the Little Egg liarbor or Millicariver, where it
would be available for vessels of quite heavy tonnage to
enter. Application will be made to the next season of
the New Jersey Legislature for a charter incorporating a
Company for that purpose. This is a project of considerable magnitude, but it is thought to be feasible. Such an
improvement would be of great advantage to the Eastern
coasting business, by saving at least one hundred miles
in the dis ance between New York and Philiadelphia.
The cut of construction would also be comparatively
light, the soil being of such a character as to be easily excavated and made ready for use. The enterprise deserves encouragement.

cavated and made leady for use. The enterprise deserves encouragement.

New City Hall.—Some of the enterprising rithers of Camdon, leaded by John S. Rord. Esq., are at last taking active and decided measures towards securing the erection of a City Hall. Petitions are in circulation, and have already been signed by gentlemen representing about three millions of deliars' warth of property, urging the City Council to take the matter at once in hand. The buildings now occupied are of the most insignificant character, totally inadequate for the convenience of the public business, andsunsafe for the city records. The present insil, occupied by the Council and the two offices for Mayor and clerk, is so dilapidated and old logyish, that it is a disgrace to the city. It should have been torn down and rebuilt years ago; and an attractive building given to the city in which to preserve its records and tranact its business. The efforts put forth by these gentlemen can exacely tail of success.

Suspended.

SUSPENDED.—The Trunning of trains on the Suspender.—The Trunning of trains on the Suspender.—The Trunning of trains on the Suspended, the Company on Wednesday having housed and withdrawn all their rolling etock from Canden and intermediate places. This action is taken in consequence of the Court of Errors deciding that the Company had transcended the provisions of their charter by running trains to Canden, contrary to law. This order of the Court etops all operations on this road, and yesterday the workmen sought their homes. ST. PETER'S BENEFICIAL SOCIETY.—At the recent meeting of this Society, held for the purpose of electing officers for the ensuing year, the following gentlemen were chosen: President—Sohn Hoey, Vice President—Heary Curley; Secretary—Patrick Hefferman; Tressurer—John McNulty; Steward—Owen Tracey and Thomas Kennedy; Messenger—Michael McNulty

nennedy; messenger—michaet menuity.

LECTURES.—The second lecture of the course which is to be given in the First Baptist Church, Camien, is to come off on the evening of the 23d instant, and vill be delivered by the Rev. A. A. Willets, D. D., on the 'Model Wife."

## CITY NOTICES.

Bower's Gum Arabic Secrets impart great comfort in brenchial irritations, soothe and quiet coughs, relieve hoarseness and a tough morning phlegm. What they contain: Gum Arabic, Squills, Paregoric, Extract of Elecampane, Comfrey, Coltsfoot, &c. How they are made; Combined with sugar, solidified by careful evaporation and formuli into a pleasant and agreeable medicinal confection. Made by Rower, Sixth and Vine streets. Solid by druggists. Price, 25 cents.

Bower's Infant Complat is a certain; safe and speedy cure for Choic, Pains and Spasms—yielding great relief to children Teething. Laboratory Sixth

TO THE CONSUMPTIVE. - J Let those who languish under the fatal severity of our climate through any pulmonary complaint, or even those who are in decided consumption, by no means despair. There is a safe and sure remedy at l, and one easily tried. Wilbor's Compound of Cod Liver Oft and Lime, without possessing the very namesting flavor of the article as heretofore used, is endowed by the phosphate of lime with a healing property which renders the oil doubly efficacions remarkable testimonials of his efficacy can be exhibited to those who desire to see them. For sale by A. B. Wilbor, Chemist, No. 166 Court street, Boston Philadelphia by Johnson, Holloway & Cowden,

SOMETHING "NEW UNDER THE SUN."—We commend a careful perusal of the following to every intelligent housekeeper in the United States. Leading lournals throughout the country will confer a great favor upon their readers by copying it:

That which the public have long desired I am now properly that the public have long desired I am now properly that the public have long desired I am now properly. The properly that the public have long desired I am now properly that the public have long desired I am now properly that the public have long desired I am now properly that the public have long desired I am now properly that the public have long desired I am now properly that the public have long the pub

prepared to offer—A PERFECT HEATING STOVE, FREE FROM DUST, DIRT OF SMOKE.

I have spared nother pains nor expense in perfecting this great desideration.

The stove is constructed with a cast-iron cylinder, is perfectly air-light, and is supplied with a Patent Anti-dust Poker, by which the fire cam be raked and the grate dumped without opening the stove. It is also supplied with a Patent Damper at the pipe, by which the draught can be regulated without throwning out the gas, thereby saving a large percentage of fuel.

It is a Gas-nurner of the first observe.

THE A GAS-HUENER OF THE FIRST QUALITY.

The cylinder is opinioulan, and, like the sun, throws out its rays in all adirections. The current of rays which h, throws discelly upon the floor heats the latter for several yards around the stove, so that persons suffering with cold feet are not obliged to indulge the habit of putting them on the stove in order to warm them—which is the case with all other stoves in use—a habit, by the way, which is at once detrimental to

habit, by the way, which is at once detrimental to health and ruinous to stoves.

health and ruinous to stoves.

That the Spear Anti-Dust Orbicular Stove is destined to become

A UNIVERSAL PAVORITE,
may be inferred from the following characteristic dialogue, reported without as it occurred last winter at one of the principal railway stations on the Pennsylvania Central Railroad, while the passengers were waiting for the train: waiting for the train:
"Mother, is this not a delightful stove? My feet are not near it, and yet they have already become as warm.

not near it, and yet they have already become as warm as toast."

"Yes, dear; and I see it is one of Mr. Spear's latest improved stoves. His stoves certainly are the 'best in the world,' as the newspapers say; you know we have one of his Anti-dust Cook Stoves, and it is such an elegant baker! We find no such bread and biscutt anywhere as we make at home. Thanks to Mr. Spear; how I would like to see him! Pop says that after five minutes' conversation with the man you have more faith in his stoves than ever. But I was mader the impression that he only manufactured the Anti-dust Cook Stoves and the Anti-dust Parlor Stoves."

At which remark the conversation was continued by Mr. B.:

'In that, madam, you are mistaken. Mr. Spear is

At which remark the conversation was continued by Mr. B.:

"In that, madam, you are mistaken. Mr. Spear is one of the largest stove manufacturers in Philadelphia, and, I begin to think, in the world, as I have traveled largely, and almost the first thing to strike me, on entering the cars of nearly all the well-managed roads, has been to find them heated and ventilated by Mr. Spear's Stoves. I have found them from the best roads in New England to the Pacific Railroad, on my way to California; and last winter, when we should be reason in New England to the Pacific Railroad, on my way to California; and last winter, when we was a strength of the min his palace as the greatest luxury in his dominions. Spear's stoves have undoubledly a world-wide reputation,"

Col. L. here joined in—

"I suppose Spear has made a large fortune."

"Not he," responded another, who seemed to know; "Spear is not rich, and the reason is, he gives more for the same amount of money than any other stove man in America. Every stove that leaves his establishment must be as perfect in every particular as a chronometer; he uses only the best imported Russia iron in the manufacture of his parlor stoves, and the same care and expense pertain to every other branch of his business. Ho deeptses humbugs, whether they have two large or four; and on these principles a fortune in the stove trade is not squickly made; as stoves only sell freety for about three months in the year, and besides this, few persons have any idea of the enormoss expense attending the constant introduction of valuable and inventions, which seems to be Mr. Spear's peculiar province, For instance, the getting up of stove patterns is extremely costly. I have no doubt that the pattern of this very stove, which hat had was speaking a few minutes ago, cost him over we thousand dollars. Faitures in the stove trade, under these circumstances, are not to be wondered at. One of the best friends I ever had sunk a fortune in the plagued business, by getting up patterns that wouldn't work wh

1: HEATS THE PEET WITHOUT PUTTING THEM ON THE BEOVE, AND THUS PERVENTS, BOILING THE STOVE AND SURRING THE SHOPS; A GAS CONSUMER OF THE FIRST QUALITY; A GAS CONSUMER OF THE FIRST QUALITY;

\*\*ERAT ECONOMY IN FUEL;

In most stoves made it is exceedingly inconvenient
to remove the ashes. In many of them the base of the
stove is so shallow that when the grate is dumped into
the pan beneath, the latter cannot be withdrawn at all,
involving the tedious and disagreeable necessity of
using the hands in removing the ashes and cinders.
These shallow bases are made in order to economize
in the cost of the stove, but it is false economy, as too
namy have learned to their sorrow.

In the stove above referred to, the inconvenience
spoken of is entirely avoided. The base is deep, and
so arranged that the work of removing ashes is performed with the utmost case, and without the escape
of a particle of dust. of a particle of dust.
There Stoves can be had from any and all of the prin-

ve dealers in the towns and cities throughout The sole place to obtain them, in this city, is at my own establishment. Inventor, Patentee and Sole Manufacturer, Nos. 1116 and 1118 Market street, Philadelphia, Pa.

anna., December, 1867. THE BUNDLE SEASON.—The merry time has now come around when half the town is engaged in carrying bundles. There are large packages and small ditto, all papered and twined to keep out prying young eyes, but to gladden young hearts when the great half-directions around. It is well understood that a very large proportion of these mysterious packages contain delicious dainties from the great pupular confectionery of E. G. Wahtiman & Co., No. 318 Chestnut street, below Fourth. This firm leave no efforts untried for plessing their customers, and they are now selling at their cantomers the most attractive dainties that were ever offered to an appreciative public. 525 MILES

UNION PACIFIC RAILROAD.

Running West from Omaha

ACROSS THE CONTINENT.

ARE NOW COMPLETED.

This brings the line to the eastern base of the Pocky mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is no

slope will continue through the winter, and there is no reneen to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from \$16,000 to \$49,000 per mile, for which it takes a second lien as security, and receives payment to a large if not to the full extent of its claim in survices. These Bonds are issued as each claim in services. These Bonds are issued as each twenty-mile cetion is finished; and after it has been ex twenty-mile ection is inistica; and arter it has been year amined by ted States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres

of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the

Government and no more. Hon E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been

paid in upon the work already done. EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more then sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and l'aci fic States will be large beyond precedent, and as there will

be no competition, it can always be done at profitable It will be noticed that the Union Pacific Railroad is, in at win be nonced that the omion racine kallroad is in fact, a Government Work, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar accurity is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the
