CITY BULLETIN.

Anniversally.—Washington Camp, No. 1, P. O. J. S. A., celebrated its twentieth anniversary last evening, by a pleasant re-union of the members, at No. 580 Callowhill street. There was a fair attendance of members, and several members of other Camps were present. A fine supper was partaken of, and a number of speeches were made. Mr. James S. Hallowell gave a history of the rise and progress of the Order. The organization was established in this city in 1847, and it spread rapidly until Camps were in operation in searly every State in the Union. During the war the meetings were suspended, as many of the members went into the service of their country. Recent efforts to effect a reorganization have been chartered, and 30 are now in active operation. The membership is large, and is daily increasing. The State Camps, organized under the act of incorporation of the last session of the Legislature, has already granted charters for about a dozen new Camps. Anniversage.-Washington Camp, No. 1, P.

be hoped that before many weeks the new building will be in course of erection.

Russia's Designs on Turker.—By the Atlantic cable we see that is believed that Russia intonds making some division of Turkey about Christmas. This may be news in Europe, but to us Americans it is nothing new for Christmas to witness a general runding of Turkey, to say nothing of the ducks and russian that share the same fate. But a part of the preparation for these festivities is that each male member of the further who intend participating procures a complete suit of Winter Clothing at Charles Stokes & Co.'s, under the Continental.

MANY COMPLAINTS have been made of some of the awards made at the Paris Exposition, but no one has questioned the fairners of the bestowal of the First gold Machines. To be suic, certain rival manufacturers, who, for reasons best known to themselves, did not enter into competition, have endeavored to pooh-pooh it; but the Wheeler & Wilson stands to-day with the stamp of the world's approval upon it. But the proprieters do not mean to stop here. Their motto is ever "Onward!" Already they have applied to their machines the Bruan Manufacturing Company's New Cloth Plate; by means of which three distinct and different sitiches are made; these are: 1. The Lock-Sitich alike on both sides of the fabric; 2. The Elastic Double-loop Stitch, which uses the thread directly from two spools without rewinding on the bobbin; and 3. The Three-Thread Ornamental Stitch, with which the most exquisite embroidery may be executed. This new Cloth Plate is a great improvement, and Messrs, Peterson & Little are now attaching it to every machine they sell; wirnour any extra onage. It may be applied to most of their old machiner, also, at a cost of \$10. They solicit a call at their salesrooms, No. 704 Chestaut street, and feet confident that an inspection will certainly result in the purchase of a Wheeler & Wilson.
