EVENING BULLETIN. Thursday, December 26, 1867.

ATLANTIC CABLES. ished affair, and people cease to wonder at it. Twice, at least, in every day, there are it. Twice, at least, in every day, there are despatches from London, only a few hours old, printed in Philadelphia and in every of their position, and efforts have been made processes, until the completed article is ready The Popular Tailors & Clothlers, part of the United States. Even the people to modify the shape of the scheme so as to of San Francisco can receive news that has get within the shadew of the law. A plan prove that the inventor and manufacturer, Mr. only left London, or the most remote points to operate under the charter of the defunct Dobbins (who, by the way, superintends in perof Eastern Europe, on the day they read it. International Art Union has been submitted son the operations of his entire establishment, This thing, if foretold a few years ago, would to the Attorney-General, and most effectually even to the minutest details), is singularly qualihave read like one of the fables of the Arabian Nights. It is now an every-day, common-place fact. The Americans, who went place fact. The Americans, who went place fact to entertain any such proposition.

In this timing, it follows a low years ago, would a fact to entertain any such proposition.

In the discondance we years ago, would a fact to entertain any such proposition.

In the discondance we years ago, would a fact to conduct so vast, and in a measure myster rious, an enterprise. The secret upon which his great invention rests, while it is worth thousands to him, is worth millions to the world, a fact to him, is worth millions. nearly crazy over the laying of the first cable, Mr. Brewster has, from the first, taken posi- which bids fair at no distant day to render the have settled down to regard it as one of the practical things that ought to have been acractical things that ought to have been accomplished hundreds of years ago.

Happily, the Atlantic telegraph is performable confidence

The opinion

Without consulting Mr. Dobbins, we will not consulting Mr. Dobbins, we will not capsulting Mr. Dobbins, we wil

in it is fully established. How have we done without it so long? What should we do given by the Attorney-General at the request to produce a lump of soap of a given size. Mr. with plain directions for Sowing Seed, Culture, &c. It is produce a lump of soap of a given size. Mr. Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to demonstrate the counsel for the Gettysburg Asylum, Dobbins set out with a determination to arise when the subject is seriously thought of upon the proposition to convert the original state how much washing property could be put and those who use the cables most frequently, scheme into a Cosmopolitan Art Union, in- into a piece of soap of the same size. The reand, through its agency, daily transact im- volves a very interesting point upon the sub- sult, as we are forced to admit from our own portant financial and commercial operations, ject of art, a nice, but very clear, distinction knowledge, has been marvellous. From Maine to Mexico the high claims that are made for being laid down between what are to be conthreads of copper wire, between 2,000 and sidered specimens of art and what are mere ledged in thousands of families and hundreds of and 3,000 miles long, armed with only a thin articles of the jeweler's or print-seller's trade. public institutions. coating of gutta-percha and metal, and The opinion will be found in another column. No better evidence could be given that this stretched amid the unknown depths of the community has so strongly than the fact that Mr. Dobbins is, and means to which all this intercontinental commu- declared itself against this attempt to revive | continue, personally the sole manufacturer of the nication is carried on. Why the American the pernicious policy of legalized lotteries, article. and European worlds should rest content and that there was an officer at the head of with these two cables and not manufacture and stretch across a dozen or two more, is incomprehensible. The heavy expense is evasion of their obvious intent. The case the preceding month, and in some instances the only at first. After it is fairly laid, an will be disposed of at the approaching term monthly increase has been astonishingly large. ocean telegraph is the cheapest of all. It re- of the Supreme Court, and there can be no In September of this year the demand, in this quires no sub-stations; it depends on no poles doubt that the whole plan of proceedings of that are liable to be blown down; it is safe this Gettysburg Asylum scheme will be from the work of evil-minded mischief effectually arrested, and the corporators commakers; it never needs watchfulness or repair, pelled either to proceed under the strict proexcept at its two termini. A few operators visions of the law, or to abandon their devisions of the law, or to abandon their derender the ratio of increase even greater than at Valentia and Heart's Content must be designs altogether. paid their salaries. All the rest of the AFTER THE BATCLE.

receipts may be used in paying debts After the storm the calm, after the fever mention in passing that Mr. Dobbins is now the for construction, or in dividends, or in laying re-action and prostration, and after the battle subject of general congratulation, some of his re-action and prostration, and after the battle former critics even going so far as to rate him a up a surplus for new cables, or for rare conthe gathering in of the wounded, and the tingencies such as the ice-berg damage of last clearing the field of the wreck and ruin of before Mr. D. erected his present edifice, his before Mr. D. erected his present edifice, his season. The ocean proves to be a better the conflict. The day after Christmas is one large delivery wagon had painted upon its sides guard of a telegraph line than the most exten- of those mildly melancholy occasions when the picture of an immense manufactory. This sive and expensive police arrangements on the storm, the fever and the fights (with roast was yet while he was operating in a comparasive and expensive police arrangements on land. Before this century is finished there will probably be scores of cables connecting the Eastern and the Western worlds. The wonder is that there are not now new companies organizing on both continents for their construction.

The efficacy of the Atlantic cables was illustrated last Saturday night in London, at the Royal Polytechnic Society's Banquet. The Duke of Wellington, on behalf of the Directors and guests, sent a complimentary is finished there turkey and mince pie) have subsided, and when calm reflection comes, with a propensity small building down town. Those who knew the facts laughingly remarked, "That was a chean mode of, pullding big factories." Now that his med structure not only equals the pictorial representation on his wagon, but greatly excels it in magnitude and appearance, these knowing ones give Mr. D. credit for having simply, in a modest way, discounted the future. Our own judgment, however, is, among the profits! Why not? With the facilities now possessed by Mr. Dobbins, and his practical representation on his wagon, but greatly excels it, in magnitude and appearance, these knowing ones give Mr. D. credit for having simply, in a modest way, discounted the future. Our own judgment, however, is, among the profits! Why not? With the facilities now possessed by Mr. Dobbins, and his practical representation on his wagon, but greatly excels it, in magnitude and appearance, these knowing ones give Mr. D. credit for having simply, in a modest way, discounted the future. Our own judgment, however, is, among the profits! Why not? With the facilities now possessed by Mr. Dobbins, and his practical representation on his wagon, but greatly excels it, in magnitude and appearance, these knowing ones give Mr. D. credit for having simply remarked, "That was a chean mode of pulliding down town. Those who knew the facts laughingly remarked, "That was a Directors and guests, sent a complimentary lice looked draggled and worn, and it would message to the President of the United States, te transmit which from London to Washington occupied only nine minutes and thirty like Christmas wreck. could have made any ington occupied only aine minutes and thirty seconda. The reply of the President was revigorous efforts to avoid acting the part of tainly will, if what is claimed for it be realized. seconda. The reply of the President was received while the company were still at the table, the transmission requiring twenty-nine minutes. On the same evening are answer was received from Heart's Content at the Polytechnic, in ten minutes from the time the message was east. These are illustrations of the working of the calles which tell upon the public mind. A handsome little semitmonthly paper called the Journal of the Telegraph, published in New York by Mr. James D. Reid, gives some other information concerning it. The two cables, it states, work well with a capacity of eighteen words per minute each. The first tariff was \$100 in gold for tea words, and of course the messages were few and the receipts moderate. Aftewards it was reduced to \$50 for twenty words, including address, date and for twenty words, including address, date and signature. The cash receipts at once increased 40 per cent. Again the tariff has been reduced to \$25 for ten words and the right to send five free words of address, date and signature. This at once increased the and signature. This at once increased the sendence of persons using the wires 300 per the sendence of kind words and deeds, of friendly
