I Hornors of War—In the year 1862, in the hour of our country's deepest distress and gloom, a father left his happy home and loved ones to fight, for our country's nationality. The people pledged that father their lasting gratitude, and his orphans now look to a generous public to redeem that pledge. A mother writes, imploring the Washington Library Company to receive her son, an orphan of eight years of age, into the Riveride Institute for Solders' and Sailors' Orphans. Her application has been accepted. If any person has any doubts about the Riveride Institute being a permanent success, under the anspices of the Washington Library Company, and an honor to our country, let them visit Riveride, and their doubts will vanish. In contributing to this charitable enterprise, every person gets his money's worth in engravings, and also stands a chance of obtaining a fortune, for the mere outlay of a single dollar. The distribution of awards is guarantied to take place on the Sth inst., and no postnonement. The highest award \$40,000, the next \$20,000 and \$10,000, and so on. Every person should in a patriotic view contribute his mite. A dollar to the strong and hardy is but a trifle, and these trifles are everything to the orphans, and the success of the noble undertaking.
