GOVERNOR GEARY'S REPORT, INTERESTING DOCUMENT. A VALUABLE HISTORICAL TABLE.

To the Senate and House of Representatives: GRETLEMEN-Deeply impressed with the importance of the subject, I have the henor to make and request your acceptance of the following re-

The Constitution of the Commonwealth of Pennsylvania confers upon the Governor the power to "remit fines and forfeitures, and grant

reprieves and pardons" for offences committed against the laws of the State.

This power has been exercised to a greater or

against the laws of the State.

This power has been exercised to a greater or less extent by every Executive since the organization of the State Government, and, as far as I can ascertain from the Executive Minutes of my predecessors, no report of any of the transactions under the foregoing constitutional clause has ever been made. Cuttom and law require that all the Other business of the Governor shall be communicated to the General Assembly for its information. Then why should be withheld the acts of Executive elemency, affecting the personal liberty of an unfortunate portion of the citizens?

There are but few subjects on which the people are very justly more sensitive than on the pardon of criminals, by which the decisions of the courts are annulled and the punishment for crime is arrested. That the pardoning power, as well as any other of the functions of the government, is sometimes liable to be erroneously used, may reasonably be assumed; but in its exercise I have always felt that I was executing a most sacred and conscientious trust, and have endeavored not to impair the supremacy of the law nor weaken and conscientious trust, and have endeavored not to impair the supremacy of the law nor weaken the administration of justice by a want of discrimination and firmness. Whether I have exercised this important prerogative judiciously or not, every act has been performed with clear views of duty and an approving conscience.

Annexed to the report will be found an aggregate tabular statement of all the pardons, remissions of fines and forfeited recognizances, and restoration to citizenship granted, together with the death warrants issued annually, from the organization of the State Government to the

[Here follows a detailed statement of the pardons issued by Governor Geary, giving the history of each case, with the names of the persons recommending the pardon and the reasons for granting it. It is a very valuable and interesting document, but too long for publication at this time. Then follows the following table:

CITY BULLETIN.

FRANKLIN INSTITUTE.—The stated monthly meeting was held at the Hall of the Institute, last evening, an unusually large number of members being present. The following gentlemen were elected as officers for the ensuing year:

For President—Mr. J. Vaughan Merrick.

For Vice President—Prof. Robt. E. Rodgers.

For Vice President—Prof. Root. E. Roogers.
For Treasurer—Mr. Frederick Fraley.
For Secretary—Prof. Henry Morton.
For Auditor—Mr. William Biddle.
For Board of Managers—William B. Le. Van,
Percival Roberts, Jacob Naylor, Samuel Sartain, O. H. Wilson, Charles Bullock, E. Longstreth, Enoch Lewis, Jacob G. Neafle, J. H.

Linville.

A very interesting paper on Pneumatic Piles and their employment in bridge construction was then read by Mr. Wm. J. McAlpine, of New York, and was listened to with marked attention and highly applauded.

The report of the resident Secretary on novelties in science and mechanics was then read. Among the new inventions exhibited we may mention the Peet Valve, exhibited by the American Tool Manufacturing Company of Boston. The peculiar feature in this valve consists in an arrangement whereby the valve, when open, allows a free and unobstructed passage to the steam. arrangement whereby the valve, when open, allows a free and unobstructed passage to the steam. A lock-up-safety valve was exhibited by Mr. Coale. In this arrangement a valve of very small dimensions, and consequently light weight, was caused on opening to operate a valve of the ordinary size. The advantage of this is obvious, since it does away with the heavy weight which on large boilers amounts to thousands of pounds. A verry pretty and simple arrangement called on large boilers amounts to thousands of pounds.

A verry pretty and simple arrangement called the Electric Car Starter, of Messrs. Jno. & Wm. Glarke, was exhibited by Mr. C. H. Roney, agent, 108 South Fourth street. A clock in the office has certain cogs attached to it, whose teeth vary in number. For each time that one of these teeth is engaged, a bell is rung by means of electricity, at any desired spot; the time of ringing may, be changed from half a minute up to half an hour, or greater, as desired. This automatic arrangement will, we have no doubt, be generally adapted.

n improved ventilator was exhibited by Mr. Roney.

An ingenious arrangement, the device of Dr.

W. H. Truman, for mounting microscopic obiects, was shown.

jects, was shown.

Attention was called by Mr. Ed. Brown to an apparatus for the preparation of tanning extract, and the apparatus was described by means of diagrams thrown upon the screen, as usual.

The meeting was then, at a late hour, adjourned.

A LUCKY ESCAPE.—The third story of the Globe Mills, at Girard avenue and Germantown road, is occupied by Turner Burkhead, who manufactures clothes and balmoral skirts. In the aparttures clothes and balmoral skirts. In the apartment there are several large presses used for pressing cloth. This morning one of the presses was found in the cellar. During the night the floor gave way, and the press fell through. Its great weight caused the first and second floors to give way also, and the mass landed in the cellar. Some of the machinery in the first and second stories was considerably damaged. It is fortunate that the accident happened during the night, as there would have been a frightful loss of life if it had occurred in the day-time.

CHARGED WITH BURGLARY.-David O'Leary was arrested yesterday and taken before Alderman Tittermary, upon the charge of burglary. man Tittermary, upon the charge of burglary.
At an early hour on Tuesday morning the restaurant of R. E. Fennimore, No. 226 South street, was entered by forcing open the front door, and was robbed of three gold watches, and a counterfeit one dollar bill. The latter had been marked by Mr. Fennimore. O'Leary and another man had been seen prowling about the neighborhood, and it is alleged O'Leary passed the begus note at a saloon at Fifth and Shippen streets. He was committed for trial. committed for trial.

He was held in \$1,000 bail to answer at Court.

RECEIVING STOLEN GOODS .- Daniel Fox, whose place of business is at Sixth and Oxford streets, was arrested yesterday and taken before Ald. Neill upon the charge of receiving stolen goods. Much credit is due the Weshington Library Company for the orderly manner in which the distribution was conducted. The bigh character of these present, among whom were some of our best citzens—reporters of newspapers, &c.—gives universal satisfaction, and is a sure guarantee to the public that their intersits were protected and the drawing conducted fairly and honorably. Norwithstanding the cold weather, the great
turnout of citizens to offer their congratulations to Mr.
