Howard Mission.—We call the attention of our readers to the advertisement, in another colomn, of this institution. It is in every way worthy of the support of our citizens.

Adventure of a Lady of Rank. The last Court Journal contains the following remarkable story. We wonder of what sort of people the "English mob" which attends fires is composed. In America, no lady, whatever her rank or however costly her dress, is afraid to trust herself to the "crowd" upon all occasions. It amuses an American to read the following story. What

a remarkably courageous lady she was! And how much confidence it did possess for her to walk in a crowd! But truth is stranger than fiction, and wonders will never cease, especially in England. Here is the story: It is said that on the night her Majesty's Theatre was burnt, a certain lady of high rank was at the Olympic Theatre. At the conclusion of the performance she returned home, accompanied only by a lady friend, the gentlemen of the party preferring to walk. The brougham had scarcely proceeded so far as the outlet of the Strand when all further progress in that direction was impeded, and on inquiry as to the cause, it was announced that some houses on Carlton Terrace were burning. In that terrace was the lady's residence, and her thoughts in a moment flew off to the possible danger of her four little children, the eldest not six years old. The determination of the agonized mother was taken in an instant. Neither the aspect of the crowd nor the peril of approaching a burning house daunted her for a second. She left her carriage—her friend pluckily refusing to desert her-and plunged into the crowd, entreating every one before her to let her pass. The crowd behaved admirably, and the titled lady declares that she can remember

no instance of obstruction to her progress, or, indeed, of any hesitation to assist in furthering it. The confidence evinced in thus trusting themselves to those assembled there seems to have produced its own fulfillment; and these two ladies, whose bare heads, elegant dresses, and costly ornaments must have been in strange and tempting contrast to

around, not only were al-d to penetrate though that lowed to penetrate though that compact mass of people, but were very soon spared all labor in doing so. A group of young men-and apparently roughs-took upon themselves to become their escort. They headed them, shouting out, "Make way for ladies whose children are in danger!" and as the crowd at once gave place, the ladies had only to follow their chivalrous conductors in comparative ease. They were escorted safely and as quickly as circumstances would permit, to the noble tady's own door, and with true manly feeling the escort would hardly let her wait to express her thanks, but called to her to "run up and kiss the kids," and they hurried off to enjoy the sight in which they had been interrupted. The lady is said to be enthusiastic about her 'roughs" of Friday night, but will not hear of their being designated by that term.

UNION PACIFIC RAILROAD.

Running West from Omaha

ACROSS THE CONTINENT.

ARE NOW COMPLETED,

THE TRACK BEING LAID AND TRAINS RUNNING

Within Ten Miles of the Summit OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as th weather permits the road-hed to be sufficiently packed to receive the rails. The work continues to be pushed forand in the rock cuttings on the western slope with unward in the rock cittings of the western stop with an abated energy, and a much larger force will be employed during the current year than ever before. was never better. The means so far provided for construction have proved ample, and there is no lack of funds for the most vigorous prosecution of the enterprise. These means are divided into four classes:

1.-UNITED STATES BONDS,

Having thirty years to run, and bearing six per cent. cur. prev interest, at the rate of \$16,000 per mile for 517 miles only interest at the nat the rate of \$48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of \$32,000 per mile for the remaining distance, for which the United States takes a second lien as security. The interest on these Bond . is paid by the United States govern ment, which also pays the Company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a slaking fund which may finally discharge the whole amount of this lien.

2.-FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and no more, and only as the road progresses. The Trustees for the Bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these Bonds to the Company in accordance with the terms

The Means Sufficient to Build the Road

This price includes all necessary shops for construction and repairs of care, capets, stations, and all other incidental buildings, and ab o locomotives, passenger, baggage and freight cars, and other requisite rolling stock, to an amount that shall not be less than \$5,000 per mile. At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Paci fic States will be large beyond precedent and as there will

It will be noticed that the Union Pacific Railroad is, in fact a Government Work, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the
