"WESTWARD, Ho!" is the march now on Chestnut street, and to accommodate the rush, Wm. Rollo Stevenson has leased the property 1225 Rollo Stevenson has leased the property 1223 Chestnut street, for the purpose of establishing a first-class saloon for families and parties. The alterations and furnishing for the reception of visitors will be finished by the 31st, and on the first day of February the saloon will be opened to the public. The well-known abilities of Rollo Stevenson as a caterer will insure the establishment the patronage of Philadelphians, and they will find one worth of them. Stevenson is sure will find one worthy of them. Stevenson is sure to make his establishment a success, from his thorough knowledge in all the branches of the dusiness, and his former experience in the first-class establishments of this city,

Young Maennerchor Ball .- The grand fancy dress masked ball of the Young Macnaerchor Society will be given at the Academy of Music this evening. The building will be decorated in the handsomest manner; two full orchestras will con-tribute promenade and dance music. Every arrangement will be made for the perfect comfort and unrestrained enjoyment of the guests. The character of the gentlemen forming this society and having the ball in charge is a sufficient guarantee that it will be a scrupulously proper affair.

ATTEMPTED BURGLARY .- This morning, between twelve and one o'clock, three men attempted to break into the house of Mrs. Barns. on Richmond street, below Ann. The burglars got into the yard and commenced operations upon a back door. They were frightened off before they had effected an entrance, and beat such a basty retreat that they left behind them a brace and bit.

THE MAENNERCHOR.—The grand annual bal masque of the Maennerchor is announced to take place at the Academy of Music on Wednesday evening next, 29th inst. It is scarcely necessary to say anything more. The character of the balls of the Macunerchor is well known, and the one of next week will be fully equal to those which have delighted so many people for a long series of years.

PRESS CLUB.—The stated meeting of the Press Club of Philadelphia was held yesterday aftermoon. The new constitution and by-laws were adopted. The semi-monthly meetings hereafter will be exclusively for literary purposes—reading of essays and general debate. These meetings will no doubt be of great interest to the mem

SAENGERBUND BALL.-The annual masked ball of the Saengerbund will come off on Monday evening next, at Horticultural Hall. The balls of this association have always been largely attended and a great variety of fancy dresses have been worn. The arrangements made indicate that the coming ball will be as brilliant as any of

Suspicion of Burglary .- A young man named John Hasson was arrested at Thirteenth and South streets, vesterday, on suspicion of having been concerned in the robbery of the second-hand store of John Magee, on South street, a few nights ago. He was taken before Alderman Tittermary and was committed.

DISHONEST DOMESTIC,-A young woman, mamed Sarah A. Mews, employed as a domestic at the dwelling of F. D. Sherry, No. 808 Callowhill street, was arrested yesterday, and taken be-fore Alderman Carpenter, upon the charge of the larceny of various articles from the house. She was held in \$800 bail for trial.

Fire.— This morning, about ten o'clock, a fire occurred in the house of C. H. Kautz, No. 728 South Second street. The flames were caused by a child playing with matches in a closet filled with clothing, and were extinguished before any serious damage had been done.

## NEW JERSEY AFFAIRS.

Atlantic Ciry.—On Tuesday evening a large and earnest meeting of the citizens of Atlantic City was held at the Mayor's office, for the purpose of considering the best measures to provide against the encroachment of the sea and the washing away of the shore along the inlet front. D. W. Belisle was chosen Chairman, and Dr. Thomas K. Reed, Secretary. After the object had been stated by the Chair, who urged the great necessity of moving at once in the matter, and necessity of moving at once in the matter, and showing the great advantages that would result from such protection, it was decided that peti-tions be circulated extensively for signatures, asking Congress to investigate the matter, and make a suitable appropriation for constructing the necessary defences. The same petition as was printed in the Bullkrin a few days ago, was adopted, and the entire meeting signed it. Similar meetings are to be held in various other places for the same purpose.

To the Commencer.—The horse-car Passenger Railroad Company, of Camden, contemplate commencing the building of their road as soon as the spring opens, and the preliminary measures have been perfected. They have applied for a supplement to their charter, which will give them better facilities for completing the road. When finished, this will be one of the most oddresses. ished, this will be one of the most advantageous enterprises that have been carried through in Camden for many years.

THE NEW CHARTER.—The subject matter which is to be incorporated into the new charter for the city of Camden has been in the hands of the Solicitor for some time, and he is putting it into legal shape, preparatory for placing it before the Legislature for its action. This new charter is to be a great improvement on the old one, as it does away with the super-abundant amend-ments and supplements which now encumber its provisions, and retard its enforcements.

Will Sait Lake City be Destroyed? The correspondent of the Cleveland (Ohio) Herald, writing from Salt Lake City, makes the following remarkable statements in relation to the impending destruction of that

town. He says: The beautiful and picturesque Salt Lake, with its hundred mountain islets, has now long been in sight, with its varied and chang ing grand views, with its placid, unruffled bosom. He who beholds, beholds but to admire. It is about 125 miles long and about 75 miles across at its widest place. I am informed that into it are drained and poured, by river and rivulets, the waters of an area of country of over 300,000 square miles. A vast amount of water, and yet this lake has no What becomes of this water? Can evaporation alone dispose of it? I am also informed that the water of the lake rose last year three feet, and is now continuing to rise at the same rate. Should this continue for a few years longer, beware, ye Saints of the saintly city!—ye will be swallowed up as were the saints of the cities of old, together with their cities, by that other Dead Sea! On the sides of the mountains surrounding the lake, at a vertical height of at aeast two hundred feet, distinctly traceable, can be seen the evidences of water mark, made by the laving of waves, perhaps of centuries duration, making it plainly evident to even the most incredulous that in some former age the lake had been very much larger than it now is, possibly of twenty times its present area. If this is true, as it surely is, the lake now rising, why may it not attain its former level? What drained it? We cannot see, nor do I believe that reason can be given therefor. The cause of draining having ceased or ceasing, it will again fill up. The lake is generally shallow, and no living thing exists

below the surface of its waters, nor floats upon its bosom.

#### AMU-EMENTS.

THE THEATRES.—Mr. John E. Owens will appear at the Chestnut this evening in The Victims and Forty Winks. At the Walnut, The Fairy Circle, The Rough Diamond and The Irish Tiger will be performed by Mr. and Mrs. Barney Williams. Lady Don will appear this evening at the Arch in Lalla Rookh and The Ladies' Club. At the American a miscellaneous performance will be given.

THE FRENCH OPERA. — The French Comic Opera Company, of New York, will appear in this city at the Academy of Music, February 11th, in Offenbach's opera Le Grande Duchesse de Gerolstein. Coples of the libretto can be procured at the Academy. C. HENRY'S BENEFIT.—We would call attention

to this event this evening, at the Seventh Street Opera House, as one worthy the consideration of the community. All of Tunison & Co.'s Minstrels appear in a splendid programme. Mr. T. Carr Langton, from Trenton, appears upon that night only. Mr. Henry sings two new ballads. Johnny Mack's new burlesque and great hit, The Black Book, will be given for the fourth time. As Mr. Henry is one of the sweetest tenors upon the minstrel stage, and a great favorite, there should be a crowded house. Box office open during the day to secure seats.

ELEVENTH STREET OPERA HOUSE.—An entirely new burlesque entitled The Arrival of Dickens will be given this evening. It is filled with laughable situations, local hits, humorous dialogue, and the characters are personated by the most popular members of the company. Lew Simmons will represent Charles Dickens. Mr. J. L. Carneross will sing several favorite ballads, and there will be singing, dancing, and the usual

PHILADELPHIA OPERA HOUSE.—The famous purlesque entitled The Black Book will be given to-night at this opera house. It is a humorous adaptation of *The Black Crook*, and is said to be intensely amusing. It has had a prolonged run in Boston and New York, and has been warmly culogized by the press of both cities. It is placed upon the stage here in first rate style, and the cast includes the most accomplished performers in the troupe. There will be singing, dancing and Ethiopian eccentricities and comicalities. SIGNOR BLITZ.—The Signor has taken Commissioner's Hall, West Philadelphia, for this week only. Those who desire to visit this great magi-

ian before his permanent retirement must do so at once. THE O'CONNELL MONUMENT.-Mr. Foley's model for the O'Connell national monument has been unanimously adopted by the Dublin committee. The work will be forty feet high, execu

ted in bronze and granite. Ten thousand pounds sterling is already subscribed towards the cost of

## UNION PACIFIC RAILROAD,

Running West from Omaha

## ACROSS THE CONTINENT,

ARE NOW COMPLETED, THE TRACK BEING LAID AND TRAINS RUNNING

Within Ten Miles of the Summit:

OF THE ROCKY MOUNTAINS. The remaining ten miles will be finished as soonas the weather permits the road-bed to be sufficiently packed to precive the rails. The work continues to be pushed for ward in the rock cuttings on the western slope with unabated energy, and a much larger force will be employed

## GRAND LINE TO THE PACIFIC Will be Completed in 1870,

during the current year than ever before. The prospect

was never better. The means so far provided for construction have proved ample, and there is no lack of funds for the most vigorous prosecution of the enterprise. These means are divided into four classes:

#### 1.—UNITED STATES BONDS,

Having thirty years to run, and bearing six per cent, cur, rency interest, at the rate of \$16,000 per mile for 517 miles on the Plains; then at the rate of \$44,000 per mile for 150 miles through the Rocky Mountains; then at the rate of \$33,600 per mile for the remaining distance, for which the United States takes a second lien as security. The in terest on these Bond. Is paid by the United States govern-ment, which also pays the Company one-half the amount of its bills in money for transforting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.

#### 2.-FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and no more, and only as the road progresses. The Trustees for the Bondholders are the Mon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Feprescutatives, who are responsible for the delivery of these Bonds to the Company in accordance with the terms

#### 3.-THE LAND GRANT.

or absolute donation from the Government of 12,500 acres to the mile on the line of the road, which will not be worth less than \$1 50 per acre, at the lowest valuation 4.-THE CAPITAL STOCK

The Union Pacific Railroad Company has a land grant

#### The authorized capital of the Union Pseific Railroad Company is \$100,000,000, of which \$8,500,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with miles), at the average rate of sixty-eight thousand and fifty-eight dollars (\$68.058) per mile. This price includes all necessary shops for construction and repairs of cars depots, stations, and all other incidental buildings, and also locomotives, passenger, baggage and freight carr, and other requisite rolling stock, to an amount that shall not be less than \$5,000 per mile. Allowing the cost of the re-maining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Union Pacific Com pany to be \$90,000 per mile.

## The Total Cost of Eleven Hundred

Miles will be as follows: As the United States Bonds are equal to money, and

the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles.

The Company have ample facilities for supplying any

### deficiency that may arise in means for construction. This may be done wholly or in part by additional subecription to capital stock.

EARNINGS OF THE COMPANY. At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Paci-fic States will be large beyond precedent and as there will be no competition, it can always be done at profitable

rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the

## FIRST MORTGAGE BONDS

are offered for the present at 20 CENTS ON THE DOL-LAR, they are the cheapest security in the market, being more than 15 per cent. lower than United States Stocks.
