MAGAZINES AND REVIEWS.
Altogether the best of our literary quarterlies is the *North American Review*. Indeed it is the only one that can be regarded as possessing that kind of authority that is derived from age and continued good management. Published now by Ticknor & Fields, and edited by Professors Lowell and Norton, the *Review* is better than it ever was. Old habits and formalities have been thrown off; popular topics are treated in popular style; and in this time of freedom of thought, it is something to be informed of the authorship of the various articles, as has been the case in the number in recent numbers. The January number of this year opens with a Boston article, written by a Bostonian, on "Boston." Mr. Charles Francis Adams, Jr., is the author, and he does not scruple to expose some of the weaknesses of "the Hub." But, outside of Boston, there are not many people that could be much interested in the article. This is followed by a very readable paper by Mr. A. V. D. Howard, on the "Stornell" of Francesco dall' Ongaro, a poet who treats modern political events and questions in Italy with a rare epigrammatic force. The third article, on "Railroad Management," makes good points, but it refers chiefly to Boston and Massachusetts. Mr. A. S. Hill, in the fourth article, makes a clever defence of Dean Swift's character against the bitter charges of Thackeray and others. Rev. James Frazer's report to the British Government, on the Common Schools of America, is the subject of a readable article by Samuel Eliot. "Co-operation," which has lately been so much talked of as a philosophical and economical system, has some of its faults exposed in an article by E. L. Godkin. But the next article, by Professor Lowell himself, on "Witchcraft," would redeem the poorest and most provincial of magazines. It is full of learning and research, of humor and satire, and is written in really excellent English. Sidney G. Fisher, of Philadelphia, is the author of the next article, on "Nominating Conventions." It is, like everything of his, well considered and well written, and we may refer again to it and its topic, as related to this city and State. The concluding article in the *Review* is an eloquent tribute to the memory of the late Governor Andrew, by A. G. Browne, Jr. Under the heading of "Political Notices" are some well-written and judicious articles on a number of recent publications.

ST. LOUIS, Jan. 27.—The committee appointed by the Central General Grant Club published an address to the Republicans of Missouri, which gives, among other reasons why General Grant should be nominated by the Republican National Convention for President, his honesty, his having proved himself to be a patriot, because he is a man of the people, sprung from their ranks, devoted to their interests, and possessed of those rare qualities necessary for a Chief Magistrate amidst the present political complications, viz.: practical common sense, unflinching determination of purpose, clear discrimination as to men and measures, and will practice and enforce rigid economy in every department of the Government. Because his views of the question of Reconstruction are in harmony with those of Congress, and he will execute equal and exact justice without reference to condition, color or nationality. Because he is magnanimous, and will administer the government on the liberal, progressive principles of the Republican party. Because he can place the financial system on a solid basis, and vitalize our commerce at home and abroad. Because his election will give weight to our nationality among the nations, will settle up the Alabama claims, and move immediately on the works of the enemy. Because he will see that our flag is respected by all nations, however powerful, and will protect naturalized citizens whenever or wherever their rights may be assailed or their liberty abridged. Because Gen. Grant is the first choice of an overwhelming majority of the people for the next Chief Magistrate. The formation of Grant Clubs in every town of the State is earnestly recommended.

INDIAN BATTLE IN TEXAS.
One Thousand Savages Attack Camp Lancaster.
The Negro Garrison Repulses Them with Great Slaughter.
[Correspondence of the "Independent Commercial."]
SAN ANTONIO, Texas, January 14, 1868.—Despatches just received here state that a severe Indian battle was fought at Camp Lancaster, on the 27th of December. Camp Lancaster is two hundred miles north of this place, on the Rio Pecos, and is garrisoned by a company of colored cavalry belonging to the command of General Hatch.
The Indians, about one thousand strong, attacked the camp at 10 o'clock P. M., while the company were watering their horses. In the dark three men were killed, a number wounded, and thirty horses captured. To support the soldiers retreated in good order to the post, where they were met by the garrison, who, with their rifles, shot the savages, driving them into the old camp, where the light from the camp shined until late in the night, when the Indians gave way in confusion.
On the night of the 28th the Indians renewed their attack, but were repulsed with great slaughter, leaving the ground strewn with arrows, guns, blankets, coats, pistols and knives, but carrying off all their dead and wounded.
During the battle a number of white men were seen among the Indians, wearing Confederate gray uniforms, and apparently directing their movements.
This is the first pitched engagement the colored troops have had with the Indians, and it is not likely the savages will bother them soon again. Mr. Howard, Chief of the garrison, mentioned that astonished the red men, who, no doubt, thought they could easily capture the post and its small garrison.
The garrison (Company B, Ninth United States Cavalry), about seventy men, were enlisted in Kentucky by General Brishin, and nearly all of them had been in the army during the war.
Another Indian battle with the negroes is reported to have taken place at Eagle Springs, last night.

From St. Louis.
ST. LOUIS, Jan. 27.—The committee appointed by the Central General Grant Club published an address to the Republicans of Missouri, which gives, among other reasons why General Grant should be nominated by the Republican National Convention for President, his honesty, his having proved himself to be a patriot, because he is a man of the people, sprung from their ranks, devoted to their interests, and possessed of those rare qualities necessary for a Chief Magistrate amidst the present political complications, viz.: practical common sense, unflinching determination of purpose, clear discrimination as to men and measures, and will practice and enforce rigid economy in every department of the Government. Because his views of the question of Reconstruction are in harmony with those of Congress, and he will execute equal and exact justice without reference to condition, color or nationality. Because he is magnanimous, and will administer the government on the liberal, progressive principles of the Republican party. Because he can place the financial system on a solid basis, and vitalize our commerce at home and abroad. Because his election will give weight to our nationality among the nations, will settle up the Alabama claims, and move immediately on the works of the enemy. Because he will see that our flag is respected by all nations, however powerful, and will protect naturalized citizens whenever or wherever their rights may be assailed or their liberty abridged. Because Gen. Grant is the first choice of an overwhelming majority of the people for the next Chief Magistrate. The formation of Grant Clubs in every town of the State is earnestly recommended.

INDIAN BATTLE IN TEXAS.
One Thousand Savages Attack Camp Lancaster.
The Negro Garrison Repulses Them with Great Slaughter.
[Correspondence of the "Independent Commercial."]
SAN ANTONIO, Texas, January 14, 1868.—Despatches just received here state that a severe Indian battle was fought at Camp Lancaster, on the 27th of December. Camp Lancaster is two hundred miles north of this place, on the Rio Pecos, and is garrisoned by a company of colored cavalry belonging to the command of General Hatch.
The Indians, about one thousand strong, attacked the camp at 10 o'clock P. M., while the company were watering their horses. In the dark three men were killed, a number wounded, and thirty horses captured. To support the soldiers retreated in good order to the post, where they were met by the garrison, who, with their rifles, shot the savages, driving them into the old camp, where the light from the camp shined until late in the night, when the Indians gave way in confusion.
On the night of the 28th the Indians renewed their attack, but were repulsed with great slaughter, leaving the ground strewn with arrows, guns, blankets, coats, pistols and knives, but carrying off all their dead and wounded.
During the battle a number of white men were seen among the Indians, wearing Confederate gray uniforms, and apparently directing their movements.
This is the first pitched engagement the colored troops have had with the Indians, and it is not likely the savages will bother them soon again. Mr. Howard, Chief of the garrison, mentioned that astonished the red men, who, no doubt, thought they could easily capture the post and its small garrison.
The garrison (Company B, Ninth United States Cavalry), about seventy men, were enlisted in Kentucky by General Brishin, and nearly all of them had been in the army during the war.
Another Indian battle with the negroes is reported to have taken place at Eagle Springs, last night.
