A YER'S CHERRY PECTORAL FOR DISEASES OF A THE THEOAT AND LUNGS, SUCH AS COUGHS, COLDS, WHOOPING COUGH, BEONCHITIS, ASTHMA AND CONSUMPTION.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various attections of the lungs and throat, have made it known as a reliable protector against them. While adapted to miliser loyms of disease and to young children, it is at the same time the most effectual romedy that can be given for metrient consumption, and the dangerous affections of the threat and lungs. As a provision against anders attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to coids and complast all should be provided with this antidate for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. Be complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing eles could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it. Asthma is always relieved and often whom cured by it. Eronchitts is generally cured by taking the Cherry Pecyal in small and frequent doses. at in small and frequent doses.

So generally are its virtues known that we need not ablish the certificates of them here, or do more than asure the public that its qualities are fully maintained.

The number and importance of its cures in the game districts are literally beyond account, and we believe without a parallel in the history of Ague medicina. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases had where other remedies had wholly failed. Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.
