As compared with the street-lighting to be found in Paris, even without the new process, ours is very defective. There are three lamps in Paris to one in Philadelphia, in a corresponding space. But if the City Councils should take the cas works from the Trustees, and assign their management to competent persons, di rectly responsible to them, then the people

will expect that the new officers will avail themselves of all meritorious discoveries and inventions, either for producing better light or for saving expense. A gas lamp in a street has often prevented murder, burglary and other crimes. It has often afforded the less cost than is paid for the half lighting that is now furnished. The peace of the community and the security of life and property demand that advantage be taken of every discovery for producing such a result.

The Sauisbury Case,

[Special Despatch to the Philadelphia Evening Bulletin.]

Washington, Jan. 30.—Senator Saulsbury appeared in his seat yesterday, looking in good spirits. His presence here, it is understood, is occasioned by the fact that the resolution introduced by Senator Summer on April 5th, 1867, for his expulsion, was set in the regular order of business for Monday last, but, owing to the reconstruction question engrossing all the time of the Senate, it goes over until this subject is disposed of. While here, it is understood that Senator Saulsbury will deliver a speech on reconstruction. It is not known whether Sumner disposed of. While here, it is understood that Senator Saulsbury will deliver a speech on re-construction. It is not known whether Sumner
